**Information/Background:**

The Bobcat 5600 is a very versatile piece of equipment. The attachments will allow us to perform many maintenance operations with one main utility vehicle. This utility vehicle will replace a 1998 TCM 806 Loader, equipment ID # 47-450, which has a life expectancy of 15 years and is currently 18 years old. The attachments for the Bobcat include a shovel, 84" broom, 72" width snowblower, 12" and 18" auger bits and an 84" snow blade. This is a standard piece of equipment for most city and county park maintenance divisions. It will be used in most parks, at facilities and on trails.

The Bobcat 5600 and attachments will be purchased utilizing state contract # 114614. The price includes shipping.
