Requisition Number

12400045

Request for Purchase

Department: Engineering

Buyer: Chad Millner

Date: 02/09/2024

Requisition Description: Professional Services for France Avenue Pedestrian Crossing

Vendor: LHB INC

Cost: \$80,000.00

REPLACEMENT or NEW: NEW

PURCHASE SOURCE: SERVICE K - SERVICE CONTRACT

DESCRIPTION:

The idea of connecting the promenade to a new west promenade has been guided by various design standards and studies. An opportunity exists with potential development projects on each side of France Avenue between Gallagher Drive and 72nd Street to add a pedestrian crossing under France Avenue. This could create a much safer crossing of France Ave in that area. Currently users need to cross many lanes of France Ave at a traffic signal. Most possible improvements have been made to that type of crossing with the installation of the Nine Mile Creek Regional Trail.

This contract narrow possible options to a preferred one or few for future study. It will identify options that are feasible and meet engineering standards.

BUDGET IMPACT:

This professional services contract is funded from the Centennial Lakes TIF District.

COMMUNITY IMPACT:

France Avenue is a major barrier to safe and comfortable access to each side of France Avenue. An offstreet connection would remove barriers for all users specifically users with mobility challenges.

ENVIRONMENTAL IMPACT: NA Service Contract
