Agenda City Council Meeting City of Edina, Minnesota VIRTUAL MEETING

Tuesday, April 6, 2021 7:00 PM

Watch the meeting on cable TV or at EdinaMN.gov/LiveMeetings or Facebook.com/EdinaMN.

To participate in Community Comment and Public Hearing: Call 800-374-0221.

Enter Conference ID 9484864.

Give the operator your name, street address and telephone number.

Press *1 on your telephone keypad when you would like to get in the queue to speak.

A City staff member will introduce you when it is your turn.

- I. Call To Order
- II. Roll Call
- III. Pledge of Allegiance
- IV. Approval Of Meeting Agenda
- V. Community Comment

During "Community Comment," the Mayor will invite residents to share issues or concerns that are not scheduled for a future public hearing. Items that are on tonight's agenda may not be addressed during Community Comment. Individuals must limit their comments to three minutes. The Mayor may limit the number of speakers on the same issue in the interest of time and topic. Individuals should not expect the Mayor or Council to respond to their comments tonight. The City Manager will respond to questions raised during Community Comments at the next meeting.

- A. City Manager's Response to Community Comments
- VI. Adoption Of Consent Agenda

All agenda items listed on the Consent Agenda will be approved by one motion. There will be no separate discussion of items unless requested to be removed by a Council Member. If removed the item will be considered immediately following the adoption of the Consent Agenda. (Favorable rollcall vote of majority of Council Members present to approve, unless otherwise noted in consent item.)

- A. Approve Minutes: Work Session and Regular, Mar. 16, 2021
- B. Approve Payment of Claims
- C. Request for Purchase: ENG 21-4NB Vegetated Stormwater Best Management Practices (BMPs) Program Services
- D. Request for Purchase: Repair/Rehab Services for Edina Aquatic Center Zipline Structure
- E. Request for Purchase: Server Replacements
- F. Request for Purchase: Recreation Software and Services Agreement
- G. Request for Purchase: Fiber Optic Installation to Water Treatment Plant No. 3
- H. Ordinance No. 2021-02: Amending Chapter 2 of the City Code Boards, Committees and Commissions
- I. Resolution No. 2021-26: Supporting Local Control for Local Elections
- J. Resolution No. 2021-30: Authorizing Removal of a Levied Special Assessment
- K. Resolution No. 2021-31: Supporting Cooperative Agreement with MnDOT for Landscape Partnership Program
- L. Amendment to New Multi-Family Affordable Housing Policy
- M. Arts & Culture Commission Appointment
- N. Resolution No. 2021-32: Accepting Minnesota PGA Section and PGA REACH Minnesota Grant
- O. Approve Tyler Contract Timeline Amendent
- P. Resolution No. 2021-33: Accepting Donations

VII. Special Recognitions And Presentations

- A. Proclamation: National Public Health Week
- B. Proclamation: National Public Safety Telecommunicator Week
- C. Hennepin County Commissioner Chris LaTondresse Update

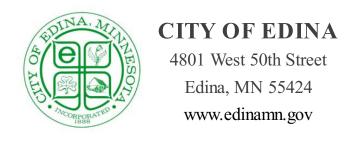

VIII. Public Hearings

During "Public Hearings," the Mayor will ask for public testimony after staff and/or applicants make their presentations. The following guidelines are in place to ensure an efficient, fair, and respectful hearing; limit your testimony to three minutes and to the matter under consideration; the Mayor may modify times, as deemed necessary; avoid repeating remarks or points of view made by previous speakers. The use of signs, clapping, cheering or booing or any other form of verbal or nonverbal communication is not allowed.

- A. PUBLIC HEARING: New On-Sale Intoxicating and Sunday Sale Liquor Licenses for Yumi Southdale LLC dba Yumi Southdale LLC
- B. PUBLIC HEARING: Resolution No. 2021-34, Melody Lake A&B, Grandview A, Birchcrest C Neighborhood Roadway Reconstruction, Improvement No. BA-457
- IX. Reports/Recommendations: (Favorable vote of majority of Council Members present to approve except where noted)
 - A. Approve Revisions to Assessment Policy
 - B. Request for Purchase: Organics Recycling Program Supplies
- X. Commission Correspondence (Minutes and Advisory Communication)
 - A. Minutes: Energy & Environment Commission, Jan. 14, 2021
 - B. Minutes: Energy & Environment Commission, Feb. 11, 2021
 - C. Minutes: Transportation Commission, Feb. 18, 2021
 - D. Minutes: Human Rights & Relations Commission Feb. 23, 2021
- XI. Aviation Noise Update
- XII. Mayor And Council Comments
- XIII. Manager's Comments
 - A. Q4 Quarterly Business Reports
 - B. Interview Process and Timeline for Student Commissioners
 - C. Prep Memo for Apr. 6, 2021 City Council Work Session and Meeting
- XIV. Calendar of City Council Meetings and Events

XV. Adjournment

The City of Edina wants all residents to be comfortable being part of the public process. If you need assistance in the way of hearing amplification, an interpreter, large-print documents or something else, please call 952-927-8861 72 hours in advance of the meeting.

MINUTES OF THE REGULAR MEETING OF THE EDINA CITY COUNCIL VIRTUAL MEETING MARCH 16, 2021 7:00 P.M.

I. CALL TO ORDER

Mayor Hovland called the meeting to order at 7:05 p.m. and stated the meeting was being held remotely in compliance with Governor Walz' Stay at Home Order then shared the procedure for public hearing and community comment.

II. ROLLCALL

Answering rollcall were Members Anderson, Jackson, Pierce, Staunton, Hovland.

Absent: None.

III. PLEDGE OF ALLEGIANCE

IV. MEETING AGENDA APPROVED AS PRESENTED

Member Jackson made a motion, seconded by Member Pierce, to approve the meeting agenda as presented.

Rollcall:

Ayes: Anderson, Jackson, Pierce, Staunton, Hovland Motion carried.

V. COMMUNITY COMMENT

No one appeared.

V.A. CITY MANAGER'S RESPONSE TO COMMUNITY COMMENTS

Manager Neal said there were no Community Comments at the last meeting.

VI. CONSENT AGENDA ADOPTED AS PRESENTED

Member Jackson made a motion, seconded by Member Pierce, approving the consent agenda as presented:

- VI.A. Approve minutes of the Work Session and Regular Meetings of March 2, 2021
- VI.B. Approve payment claims for Check Register Claims Pre-List dated March 5, 2021, totaling \$1,172,745.88, Check Register Claims Pre-List dated March 5, 2021, totaling \$27,109.64 for 17 reprint, and Check Register Claims Pre-List dated March 12, 2021, totaling \$497,353.6
- VI.C. Adopt Resolution No. 2021-28; Support for GreenCorps Host Site Application
- VI.D. Approve Utility Easement for CenterPoint Energy at Fox Meadow Park
- VI.E. Request for Purchase; awarding the bid to the recommended low bidder, Braemar Arena Voice Evacuation System, Life Safety Systems for \$28,955
- VI.F. Request for Purchase; awarding the bid to the recommended low bidder, 2021 Kubota RTV 1100 Utility Vehicle, Lano Equipment, \$23,350
- VI.G. Request for Purchase; awarding the bid to the recommended low bidder, GPS Field Line Marking System, Frost Inc., \$41,578
- VI.H. Approve 2021 Liquor License Renewal
- VI.I. Adopt Resolution No. 2021-29; Accepting Donations

Rollcall:

Ayes: Anderson, Jackson, Pierce, Staunton, Hovland

Motion carried.

Minutes/Edina City Council/March 16, 2021

VII. SPECIAL RECOGNITIONS AND PRESENTATIONS VII.A. METROPOLITAN AIRPORT COMMISSIONER JAMES LAWRENCE – INTRODUCED

Manager Neal welcomed James Lawrence who was appointed as the District C Metropolitan Airports Commissioner in February then shared his educational and employment background that included service on 17 public company boards, several private boards, and numerous non-profits.

Commissioner Lawrence said it was an honor to serve the City in this role which included Edina and south Minneapolis. The Council welcomed Commissioner Lawrence, asked more about the Metropolitan Council's role, and then stressed the importance of the airport's impact on residents.

VII.B. 2020 TRAFFIC SAFETY SUMMARY REPORT – RECEIVED

Traffic Safety Coordinator Bauler presented the 2020 Traffic Study Summary Report, stating in 2020, the Engineering Department received 157 traffic safety requests. The report detailed the types of safety requests and their locations, process, statistics and trends. He said this report was presented to the Transportation Commission at their February meeting then reviewed how the requests were divided into five categories that included parking and signage, intersection control, traffic calming, pedestrian safety, and others. Mr. Bauler outlined actions taken in response that included signage and parking changes, pedestrian safety items such as crosswalk installation, and traffic calming items. He shared requests submitted by quadrant and reasons for increased requests in some categories due to construction projects as well as other trends.

The Council commented on 58th Street and France Avenue, how traffic calming requests had increased far more than any other category, and asked for more information. Director of Engineering Millner responded the area was part of a construction project last fall that included traffic signals placed in wrong locations then removed. The contractor was ready to install new signals once Hennepin County approved the plans.

Mr. Bauler said traffic calming could have increased due to street reconstruction and vehicles not following detours to make up lost time as well as others and the hope would level off over time.

The Council asked about recommended actions regarding traffic calming items that were 6% of the total requests and how it showed a level of satisfaction from those who requested. Mr. Millner responded two of the traffic calming requests were approved of the 36 requested and 6% of requests resulted in some type of action due to the increase of cars in neighborhoods due to the 58th Street project that resulted in higher-than-normal requests than other areas in the City.

VII.C. 2020 PEDESTRIAN AND CYCLIST SAFETY FUND SUMMARY REPORT – RECEIVED

Transportation Planner Scipioni presented the 2020 Pedestrian and Cyclist Safety Fund Summary (PACS) report stating the PACS Funds available in 2020 were \$1,818,219, which included \$579,622 in rollover funds from 2019 and approximately \$136,594 estimated to roll over into the current PACS Fund. He shared more about available funding and expenditures on items such as new pedestrian and bicycle facilities. He shared 2.6 miles of new pedestrian and bicycle facilities were installed in 2020 using the PACS Fund, which was 1.5 miles more than in 2019, then highlighted other PACS projects that included W. 58th Street sidewalks, France Avenue sidewalks, and City Hall raised crosswalk/bike racks. He outlined further projects that included Valley View Road sidewalk, 50th and France paver replacement, France Avenue sidewalk, and others and proposed projects that included Hansen Road and W. 56th Street, Beard Avenue, Eden Avenue shared use path, and France Avenue sidewalks, among others. He said the ETC shared comments that included no project proposed on Valley View Road and the significant variation in cost per lineal foot and reasons why that included scope, traffic control, and mobilization.

The Council asked questions regarding the 58th Street sidewalk project and Eden Avenue project funding and cost variability per lineal foot reasons and thanked staff for the work on projects around the community which only enhance pedestrian safety and reduce concerns as the sidewalk system was created. Mr. Millner said the project had been decided but not the assessments and the intent to use TIF dollars as well for wayfinding signage throughout the district. Mr. Scipioni responded to cost variability examples at the far end

of the spectrum while others fell more in the middle, but if done as larger scale projects there is need to look for connections to other amenities such as schools.

VII.D. 2020 STATE OF SUSTAINABILITY PROGRAMS – RECEIVED

Sustainability Coordinator Hancock presented the 2020 Traffic Study Summary Report which relied on the Conservation and Sustainability (CAS) Fund to achieve greenhouse gas emission reduction goals and support a livable and resilient city. In 2020, the CAS Fund was used to increase building energy efficiency in Cityowned facilities and support commercial building energy benchmarking in Edina. The CAS fund supported residential energy efficiency efforts as well, by cost-sharing visits by the Center for Energy and Environment's Home Energy Squad to audit home energy efficiency and provide resources to implement findings. She explained how the fund was used to support electric and more fuel-efficient vehicle purchases to replace less efficient vehicles and equipment in the City fleet and install electric vehicle infrastructure, including electrical capacity and EV charging equipment across the city. She spoke about Edina's first Climate Action Plan and how it would integrate climate mitigation efforts with new opportunities for climate adaptation and spoke about the City's longstanding commitment to sustainability to reduce greenhouse gas by 30% by 2025 and 80% by 2050. Ms. Hancock shared the City's overall emission reduction of 14% over the past 11 years mostly through transportation emissions and how the City needed to take a systematic approach. She spoke about renewable energy and waste management and the adaptation regarding natural systems and forests.

The Council asked about status of the tree summit, progress mechanisms that included a public dashboard, and reasons why total buildings emissions increased. Ms. Hancock spoke about the City's kick off meeting to review the current tree ordinance with the Park and Recreation Department and next steps.

VIII. REPORTS/RECOMMENDATIONS

VIII.A. RESOLUTION 2021-14 APPROVING PROPOSED APPLICATION FOR 2021 URBAN HENNEPIN COUNTY COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM FUNDS AND AUTHORIZING EXECUTION OF SUBGRANTEE AGREEMENT – ADOPTED

Affordable Housing Development Manager Hawkinson said the CDBG Program was a federal entitlement program administered by the U.S. Department of Housing and Urban Development (HUD) and managed by Hennepin County to oversee distribution of funds to cities. The funds were used for improvements of housing and provision of suitable living environments for persons with low and moderate incomes. She said Edina's estimated 2021 CDBG budget allotment was estimated to be \$164,706, which was an increase to what was allocated in 2020. This increase was due to an increase in the number of households experiencing overcrowding and when HUD established the 2021 CDBG budget later this spring, Edina would be notified of any changes to its allotment. Ms. Hawkinson said if a change in the budget occurred the amount would be adjusted accordingly. Of the \$140,000 total allocation, 15% (\$24,706) was set aside for Public Services which were administered by Hennepin County and \$140,000 was available for the Community Development portion of the CDBG allocation approved by the City Council and no comments were received during the public hearing period.

Member Staunton introduced and moved adoption of Resolution 2021-14 Approving Proposed Application for 2020 Urban Hennepin County Community Development Block Grant (CDBG) Program Funds and Authorizing Execution of Subgrantee Agreement with Urban Hennepin County and any Third-Party Agreements. Member Pierce seconded the motion.

Rollcall:

Ayes: Anderson, Jackson, Pierce, Staunton, Hovland Motion carried.

VIII.B. RESOLUTION 2021-25 APPROVING A CONDITIONAL USE PERMIT WITH VARIANCE SHEPHERD OF THE HILLS LUTHERAN CHURCH, 500 BLAKE ROAD SOUTH – ADOPTED

Assistant Planner Aaker said the church was proposing renovation of the existing parking lot areas on-site. The improvements would be phased with the entire parking lot design submitted for review including a future drop-off canopy with an increase of one parking stall. She shared further details regarding drive aisles, materials, phasing, drop off canopy, and connections between the smaller lot on the southeast end of site

Minutes/Edina City Council/March 16, 2021

for better circulation and the elimination of connection to Maloney, including two resident comments. Ms. Aaker said on February 24, 2021, the Planning Commission held a public hearing and unanimously recommended approval and no comments were received during the public hearing period.

Member Anderson introduced and moved adoption of Resolution 2021-25 approving a conditional use permit with variance for Shepherd of The Hills Lutheran Church at 500 Blake Road. Member Jackson seconded the motion.

Rollcall:

Ayes: Anderson, Jackson, Pierce, Staunton, Hovland

Motion carried.

VIII.C. BIAS OFFENSE RESPONSE PLAN – RECEIVED

Race and Equity Coordinator Lee said the Bias Offense Response Plan revision was on the HRRC 2020 Work Plan initiative #6 which stated review was to occur of the bias offense plan, create definitions to differentiate between bias incidents and bias offenses within the State Statute's definition, tracking and notification process for bias incidents. She shared an introduction to the plan and history and noted definitions had been added based on Statute, definitions, notification, and tracking. She noted additional changes occurred on this plan that included sections that should be more inclusive and provided a process and response should this occur.

The Council indicated it liked the policy but not how the actual crime was identified from State Statute and asked to include more detail. The Council also asked more about the original intent in context of existing Statute and how the recent graffiti incidents could be addressed. The Council then spoke about an incident that could comprise community response and suggested partnering with other organizations on networking. The Council urged the group not to lose the intent of accomplishments as each depended on the situation. Ms. Lee explained more about reasons including in 2019 and what was considered a bias crime and a way to provide clarity if not an actual crime. Discussion was held on the need for a criminal fine even though a charge had been logged as well as possible umbrella insurance coverage and the intent to hold over to a future meeting for further consideration.

- IX. CORRESPONDENCE AND PETITIONS Received
- IX.A. COMMISSION CORRESPONDENCE (MINUTES AND ADVISORY COMMUNICATION)
 - I. MINUTES: HERITAGE PRESERVATION COMMISSION, JANUARY 12, 2021
 - 2. MINUTES: ARTS AND CULTURE COMMISSION, JANUARY 28, 2021
 - 3. MINUTES: PARKS AND RECREATION COMMISSION, FEBRUARY 9, 2021
- X. AVIATION NOISE UPDATE Received
- XI. MAYOR AND COUNCIL COMMENTS Received

- XII.C. PREP MEMO FOR MARCH 16, 2021, CITY COUNCIL WORK SESSION AND MEETING Received
- XIII. CALENDAR OF CITY COUNCIL MEETINGS AND EVENTS Received
- XIV. ADJOURNMENT

Member Staunton made a motion, seconded by Member Anderson, to adjourn the meeting at 9:04 p.m.

Minutes/Edina City Council/March 16, 2021

Rollcall: Ayes: Anderson, Jackson, Pierce, Staunton, Hovland Motion carried. Respectfully submitted,		
Minutes approved by Edina City Council, April 6, 2021.	Sharon Allison, City Clerk	
Video Copy of the March 16, 2021, meeting available.	James B. Hovland, Mayor	

MINUTES OF THE EDINA CITY COUNCIL WORK SESSION VIRTUAL MEETING TUESDAY, MARCH 16, 2021 5:30 P.M.

CALL TO ORDER

Mayor Hovland called the meeting to order at 5:32 p.m.

ROLL CALL

Answering roll call were Members Anderson, Jackson, Pierce, Staunton, and Mayor Hovland.

Staff in attendance: Scott Neal, City Manager; Chad Millner, Engineering Director; Grace Hancock, Sustainability Coordinator; Ross Bintner, Equipment Services Manager; Jessica Wilson, Water Resources Coordinator; Aaron Ditzler, Assistant City Engineer; Don Uram, Finance Director; Ryan Browning, IT Director; Jennifer Bennerotte, Communications Director; Perry Vetter, Parks & Recreation Director; Cary Teague, Community Development Director; Tom Swenson, Assistant Director-Parks & Natural Resources; Risi Karim, City Management Fellow; Jennifer Garske, Executive Assistant; and Sharon Allison, City Clerk.

SUSTAINABLE BUILDINGS POLICY OVERVIEW

Sustainability Coordinator, Grace Hancock presented an overview of the City's sustainable buildings policy. Hancock stated that the top electricity users in Edina were commercial and industrial buildings with 20% using 90% of the total electricity. She said Edina cannot meet its sustainability goals without addressing commercial and industrial buildings. Hancock recommended two pathways: first, to develop a policy for city-owned buildings because this allows the City to institute changes faster and to lead by example; and second, a public engagement phase for commercial buildings. Hancock noted that because the State of Minnesota sets building codes, the City's requirements cannot be more strict than existing codes. She shared staff's recommendation for a policy structure, who it applies to and policy triggers. She spoke about the third-party rating systems and applicable building types that would allow the City to use best practices and familiar area processes for area developers plus, the second policy structure, an overlay collection of requirements to be met regardless of which third-party rating systems were followed. She reviewed the building types, policy applicability, and policy triggers. She shared that the experiences from other cities with a sustainable buildings policy did not slowdown development, when developers and builders were trained this helped to ensure a smooth policy rollout, that the cost of compliance ranged from 5-10% in overall development costs, and long-term cost-savings were realized. Hancock shared questions for Council on the City policy and commercial policy as staff considers parameters, implementation, and public engagement.

MORNINGSIDE FLOOD INFRASTRUCTURE PROIECT – PRELIMINARY STAFF RECOMMENDATION

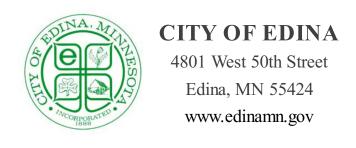

The City Council received a presentation from the Equipment Services Manager, Ross Bintner, on the Morningside Flood Infrastructure Project and staff's preliminary recommendation. Bintner presented background and context from the 2018 Comprehensive Water Resources Management Plan update, flood risk reduction strategy, timeline for creation of the new infrastructure, and previewed the challenge of flooding and meeting the challenges. Bintner explained the public engagement process and how public input was used to inform the concept design and framework. He said how the design team created and reviewed three options that were "big," "bigger," and "biggest," and staff recommended the "bigger" option, which was \$10 million. Bintner stated that staff would return to Council in April with a refined plan for consideration.

ADJOURNMENT

Mayor Hovland adjourned the meeting at 6:38 p.m.

Edina City Council Closed and Work Session Meeting, January 20, 2021

Request For Purchase

From: Jessica V. Wilson, Water Resources Coordinator

Item Activity:

Action

Subject: Request for Purchase: ENG 21-4NB Vegetated

Stormwater Best Management Practices (BMPs)

Program Services

ACTION REQUESTED:

Approve Request for Purchase for ENG 21-4NB Vegetated Stormwater Best Management Practices (BMPs) Program Services with Sandstorm Land Management for \$34,500 over 3 years.

INTRODUCTION:

A Request for Qualifications was issued to provide landscape maintenance services for various stormwater best management practices (BMPs) including rainwater gardens and regional infiltration and filtration basins. The work agreement will be for up to three years of service, not to exceed \$11,500 per year (\$34,500 over 3 years).

The program will assist the City in meeting the minimum requirements of the MPCA municipal separate storm sewer system (MS4) permit.

Staff recommends Sandstrom Land Management based on qualifications and unit pricing. Seven quotes were submitted for consideration.

FORM OF AGREEMENT BETWEEN CITY OF EDINA AND CONTRACTOR FOR NON-BID CONTRACT

THIS AGREEMENT made this <u>6th</u> day of <u>April, 2021</u>, by and between the CITY OF EDINA, a Minnesota municipal corporation ("Owner" or "City") and <u>Sandstrom Land</u> <u>Management</u> ("Contractor"). Owner and Contractor, in consideration of the mutual covenants set forth herein, agree as follows:

- 1. **CONTRACT DOCUMENTS**. The following documents shall be referred to as the "Contract Documents", all of which shall be taken together as a whole as the contract between the parties as if they were set verbatim and in full herein:
 - A. This Agreement.
 - B. City of Edina General Contract Conditions
 - C. Request for Qualifications

In the event of a conflict among the provisions of the Contract Documents, the order in which they are listed above shall control in resolving any such conflicts with Contract Document "A" having the first priority and Contract Document "C" having the last priority.

- **2. OBLIGATIONS OF THE CONTRACTOR**. The Contractor shall provide the goods, services, and perform the work in accordance with the Contract Documents.
- **3. CONTRACT PRICE**. Owner shall pay Contractor for completion of the Work, in accordance with the Contract \$34,500 inclusive of taxes, if any.

4. PAYMENT PROCEDURES.

- A. Contractor shall submit Applications for Payment. Applications for Payment will be processed by the City Engineer.
- B. Progress Payments; Retainage. Owner shall make 95% progress payments on account of the Contract Price on the basis of Contractor's Applications for Payment during performance of the Work.
- C. Payments to Subcontractors.
 - (1) Prompt Payment to Subcontractors. Pursuant to Minn. Stat. § 471.25, Subd. 4a, the Contractor must pay any subcontractor within ten (10) days of the Contractor's receipt of payment from the City for undisputed services provided by the subcontractor. The Contractor must pay interest of 1 ½ percent per month or any part of a month to the subcontractor on any undisputed amount not paid on time to the subcontractor. The minimum monthly interest penalty payment for an unpaid balance of \$100.00 or more is

\$10.00. For an unpaid balance of less than \$100.00, the Contractor shall pay the actual penalty due to the subcontractor.

(2) Form IC-134 (attached) required from general contractor. Minn. Stat. § 290.92 requires that the City of Edina obtain a Withholding Affidavit for Contractors, Form IC-134, before making final payments to Contractors. This form needs to be submitted by the Contractor to the Minnesota Department of Revenue for approval.

The form is used to receive certification from the state that the vendor has complied with the requirement to withhold and remit state withholding taxes for employee salaries paid.

D. Final Payment. Final payment will not be made until the Contractor has filed with the Owner a fully and duly executed Affidavit, General Waiver and Indemnity Agreement, in the form attached hereto as Exhibit B and hereby made a part hereof, together with such other and additional evidence as Owner may request, in form and substance satisfactory to the Owner, that all labor, materials and services expended or used in the Work have been paid for in full and that no liens or other claims for such labor. materials or services can be made or claimed against Contractor, Owner or any other person or any property. In case such evidence is not furnished, the Owner may retain out of any amount due said Contractor a sum sufficient, in the reasonable discretion of Owner, but in any event not less than one and one-half times the sum determined by Owner to be necessary, to pay for all labor, material, services or other claims which are then unpaid or which are then believed by Owner, in its reasonable discretion, to be unpaid.

Upon final completion of the Work, Owner shall pay the remainder of the Contract Price as recommended by the City Engineer.

5. **COMPLETION DATE.** The Work must be completed by **November 15, 2023**.

6. CONTRACTOR'S REPRESENTATIONS.

- A. Contractor has examined and carefully studied the Contract Documents and other related data identified in the Contract Documents.
- B. Contractor has visited the Site and become familiar with and is satisfied as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.
- C. Contractor is familiar with and is satisfied as to all federal, state, and local laws and regulations that may affect cost, progress, and performance of the Work.
- D. Contractor has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or contiguous to the Site and all drawings of physical conditions in or relating to existing surface or subsurface structures at or contiguous to the Site (except Underground Facilities)

- which have been identified in the General Conditions and (2) reports and drawings of a Hazardous Environmental Condition, if any, at the Site.
- E. Contractor has obtained and carefully studied (or assumes responsibility for doing so) all additional or supplementary examinations, investigations, explorations, tests, studies, and data concerning conditions (surface, subsurface, and Underground Facilities) at or contiguous to the Site which may affect cost, progress, or performance of the Work or which relate to any aspect of the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor, including any specific means, methods, techniques, sequences, and procedures of construction expressly required by the Bidding Documents, and safety precautions and programs incident thereto.
- F. Contractor does not consider that any further examinations, investigations, explorations, tests, studies, or data are necessary for the performance of the Work at the Contract Price, within the Contract Times, and in accordance with the other terms and conditions of the Contract Documents.
- G. Contractor is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Contract Documents.
- H. Contractor has correlated the information known to Contractor, information and observations obtained from visits to the Site, reports and drawings identified in the Contract Documents, and all additional examinations, investigations, explorations, tests, studies, and data with the Contract Documents.
- I. The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.

J. Subcontracts:

- (1) Unless otherwise specified in the Contract Documents, the Contractor shall, upon receipt of the executed Contract Documents, submit in writing to the Owner the names of the Subcontractors proposed for the work. Subcontractors may not be changed except at the request or with the consent of the Owner.
- (2) The Contractor is responsible to the Owner for the acts and omissions of the Contractor's subcontractors, and of their direct and indirect employees, to the same extent as the Contractor is responsible for the acts and omissions of the Contractor's employees.
- (3) The Contract Documents shall not be construed as creating any contractual relation between the Owner and any subcontractor.

- (4) The Contractor shall bind every subcontractor by the terms of the Contract Documents.
- 7. WORKER'S COMPENSATION. The Contractor shall obtain and maintain for the duration of this Contract, statutory Worker's Compensation Insurance and Employer's Liability Insurance as required under the laws of the State of Minnesota.
- **8. COMPREHENSIVE GENERAL LIABILITY**. Contractor shall obtain the following minimum insurance coverage and maintain it at all times throughout the life of the Contract, with the City included as an additional name insured on the general liability insurance on a primary and noncontributory basis. The Contractor shall furnish the City a certificate of insurance satisfactory to the City evidencing the required coverage:

Bodily Injury: \$1,000,000 each occurrence

\$1,000,000 aggregate products and

completed operations

Property Damage: \$1,000,000 each occurrence

\$1,000,000 aggregate

Contractual Liability (identifying the contract):

Bodily Injury: \$1,000,000 each occurrence

Property Damage: \$1,000,000 each occurrence

\$1,000,000 aggregate

Comprehensive Automobile Liability (owned, non-owned, hired):

Bodily Injury: \$1,000,000 each occurrence

\$1,000,000 each accident

Property Damage: \$1,000,000 each occurrence

- 9. WARRANTY. The Contractor guarantees that all new equipment warranties as specified within the quote shall be in full force and transferred to the City upon payment by the City. The Contractor shall be held responsible for any and all defects in workmanship, materials, and equipment which may develop in any part of the contracted service, and upon proper notification by the City shall immediately replace, without cost to the City, any such faulty part or parts and damage done by reason of the same in accordance with the bid specifications.
- **10. INDEMNITY**. The Contractor agrees to indemnify and hold the City harmless from any claim made by third parties as a result of the services performed by it. In addition, the Contractor shall reimburse the City for any cost of reasonable attorney's fees it may incur as a result of any such claims.
- 11. PERFORMANCE AND PAYMENT BONDS. Performance and payment bonds are not required for the doing of any public work if the contract price is \$100,000 or less. On projects of more than \$100,000 for the doing of public work a payment bond and a performance bond each in the amount of the contract price must be furnished to the City prior to

commencement of work. The form of the bonds must satisfy statutory requirements for such bonds.

12. MISCELLANEOUS.

- A. Terms used in this Agreement have the meanings stated in the General Conditions.
- B. Owner and Contractor each binds itself, its partners, successors, assigns and legal representatives to the other party hereto, its partners, successors, assigns and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.
- C. Any provision or part of the Contract Documents held to be void or unenforceable under any law or regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provisions.

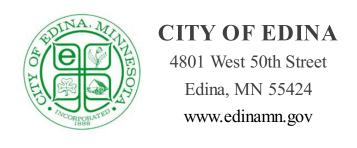

D. Data Practices/Records.

- (1) All data created, collected, received, maintained or disseminated for any purpose in the course of this Contract is governed by the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, any other applicable state statute, or any state rules adopted to implement the act, as well as federal regulations on data privacy.
- (2) All books, records, documents and accounting procedures and practices to the Contractor and its subcontractors, if any, relative to this Contract are subject to examination by the City.
- E. Software License. If the equipment provided by the Contractor pursuant to this Contract contains software, including that which the manufacturer may have embedded into the hardware as an integral part of the equipment, the Contractor shall pay all software licensing fees. The Contractor shall also pay for all software updating fees for a period of one year following cutover. The Contractor shall have no obligation to pay for such fees thereafter. Nothing in the software license or licensing agreement shall obligate the City to pay any additional fees as a condition for continuing to use the software.
- F. Patented devices, materials and processes. If the Contract requires, or the Contractor desires, the use of any design, device, material or process covered by letters, patent or copyright, trademark or trade name, the Contractor shall provide for such use by suitable legal agreement with the patentee or owner and a copy of said agreement shall be filed with the Owner. If no such agreement is made or filed as noted, the Contractor shall indemnify and hold harmless the Owner from any and all claims for infringement by reason of the use of any such patented designed, device,

material or process, or any trademark or trade name or copyright in connection with the Project agreed to be performed under the Contract, and shall indemnify and defend the Owner for any costs, liability, expenses and attorney's fees that result from any such infringement.

- G. Assignment. Neither party may assign, sublet, or transfer any interest or obligation in this Contract without the prior written consent of the other party, and then only upon such terms and conditions as both parties may agree to and set forth in writing.
- H. Waiver. In the particular event that either party shall at any time or times waive any breach of this Contract by the other, such waiver shall not constitute a waiver of any other or any succeeding breach of this Contract by either party, whether of the same or any other covenant, condition or obligation.
- I. Governing Law/Venue. The laws of the State of Minnesota govern the interpretation of this Contract. In the event of litigation, the exclusive venue shall be in the District Court of the State of Minnesota for Hennepin County.
- J. Severability. If any provision, term or condition of this Contract is found to be or become unenforceable or invalid, it shall not effect the remaining provisions, terms and conditions of this Contract, unless such invalid or unenforceable provision, term or condition renders this Contract impossible to perform. Such remaining terms and conditions of the Contract shall continue in full force and effect and shall continue to operate as the parties' entire contract.
- K. Entire Agreement. This Contract represents the entire agreement of the parties and is a final, complete and all inclusive statement of the terms thereof, and supersedes and terminates any prior agreement(s), understandings or written or verbal representations made between the parties with respect thereto.
- L. Permits and Licenses; Rights-of-Way and Easements. The Contractor shall give all notices necessary and incidental to the construction and completion of the Project. The City will obtain all necessary rights-of-way and easements. The Contractor shall not be entitled to any additional compensation for any construction delay resulting from the City's not timely obtaining rights-of-way or easements.
- M. If the work is delayed or the sequencing of work is altered because of the action or inaction of the Owner, the Contractor shall be allowed a time extension to complete the work but shall not be entitled to any other compensation.

Subject: Request for Purchase: Repair/Rehab Services for

Edina Aquatic Center Zipline Structure

ACTION REQUESTED:

Approve Request for Purchase with Metro Manufacturing/Metro Erectors Inc. for repair/rehab services for Edina Aquatic Center zipline structure for \$33,983.

INTRODUCTION:

In fall 2020, Bolton & Menk, Inc. was hired to perform a structural inspection of the zipline structure at the Edina Aquatic Center. A detailed inspection was conducted to assess the individual structural elements supporting the zipline to identify structural deficiencies, safety issues and maintenance requirements. Repair and/or replacement will consist of handrail post and railings, support columns, beams and braces based on varying degree of corrosion. Two quotes were received for the project; Metro Erectors, Inc. for \$33,983 and Tek Steel Fabricators, Inc. for \$44,000. The work will be performed prior to the opening of the Aquatic Center for the 2021 season.

CONTRACT NO. FC 20-03.

THIS AGREEMENT made this 29st day of March 2021, by and between the CITY OF EDINA, a Minnesota municipal corporation ("City") and Metro Erectors ("Contractor"). City and Contractor, in consideration of the mutual covenants set forth herein, agree as follows:

- 1. CONTRACT DOCUMENTS. The following documents shall be referred to as the "Contract Documents," all of which shall be taken together as a whole as the contract between the parties as if they were set verbatim and in full herein:
 - A. This Agreement.
 - B. Instructions to Bidders.
 - C. City of Edina General Contract Conditions.
 - D. Addenda numbers
 - E. Specifications prepared by Bolton & Menk Dated 3/16/2021
 - F. Plan sheets numbered S0.01, S1.01, S2.01, S5.01, S5.02, S5.03 by Bolton & Menk Dated 3.16.21
 - G. Performance Bond.
 - H. Payment Bond.
 - I. Responsible Contractor Verification of Compliance
 - J. Contractor's bid dated March 29th, 2021
 - K. Scope of Work

Removal and replacement of various structural supports, braces and connections as indicated in Bolton & Menk repair drawings.

Contractor to provide all necessary labor, materials, and equipment necessary to perform work in according with drawings and industry standards. Where indicated contractor can make corrections and changes in the field to meet existing conditions provided the repairs meet the design intent.

Owner to demo and replace all themed elements through separate contract. Contractor required to provide extent of areas requiring removal 2 weeks prior to onsite arrival.

All materials are to be Red Oxide and field primed as indicated.

Handrails on steps are to be Pre-Galvanized. Any welds or cuts are to be cold spray galvanized as indicated in proposal.

Contractor to remove any debris and trash daily to owners supplied dumpsters.

Owner to supply permits.

Project schedule forthcoming.

The Contract Documents are to be read and interpreted as a whole. The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work and to require Contractor to provide the highest quality and greatest quantity consistent with the Contract Documents. If there are inconsistencies within or among part of the Contract Documents or between the Contract Documents and applicable standards, codes or ordinances, the Contractor shall provide the better quality or greater quantity of Work or comply with the more stringent requirements.

- 1.1 Before ordering any materials or doing any Work, the Contractor shall verify measurements at the Project site and shall be responsible for the correctness of such measurements. No extra charges or compensation will be allowed on account of differences between actual dimensions and the dimensions indicated on the Drawings. Any difference that may be found shall be submitted to the City for resolution before proceeding with the Work.
- 1.2 If a minor change in the Work is necessary due to actual field conditions, the Contractor shall submit detailed drawings of such departure to the City for approval before making the change.

The City shall not be required to make any adjustment to either the Contract Sum or Contract Time because of any failure by the Contractor to comply with the requirements of this paragraph. Actual or alleged conflicts or inconsistencies between the Plans and Specifications or other Contract Documents shall be brought to the City's attention in writing, prior to performing the affected Work. The City's directions shall be followed by the Contractor.

- 2. **OBLIGATIONS OF THE CONTRACTOR**. The Contractor shall provide the goods, services, and perform the work in accordance with the Contract Documents.
- 3. **OBLIGATIONS OF THE CITY**. The City agrees to pay, and the Contractor agrees to receive and accept payment in accordance with the Contractor's bid \$33,983.00
- 4. PAYMENT PROCEDURES.
- A. Contractor shall submit Applications for Payment. Applications for Payment will be processed by City as provided in the General Conditions.
- B. Progress Payments; Retainage. City shall make 95% progress payments on account of the Contract Price on the basis of Contractor's Applications for Payment during performance of the Work.
- C. Payments to Subcontractor.
 - (1) Prompt Payment to Subcontractors. Pursuant to Minn. Stat. § 471.25, Subd. 4a, the Contractor must pay any subcontractor within ten (10) days of the Contractor's receipt of payment from the City for undisputed services provided by the subcontractor. The Contractor must pay interest of 1½ percent per month or any part of a month to the subcontractor on any undisputed amount not paid on time to the subcontractor. The minimum monthly interest penalty payment for an unpaid balance of \$100.00 or more is \$10.00. For an unpaid balance of less than \$100.00, the Contractor shall pay the actual penalty due to the subcontractor.
 - (2) Form IC-134 required from general contractor. Minn. Stat. § 290.92 requires that the City of Edina obtain a Withholding Affidavit for Contractors, Form IC-134, before making final payments to Contractors. This form needs to be submitted by the Contractor to the Minnesota Department of Revenue for approval.

The form is used to receive certification from the state that the vendor has complied with the requirement to withhold and remit state withholding taxes for employee salaries paid.

D. Final Payment. Upon final completion of the Work, City shall pay the remainder of the Contract Price as recommended by City.

5. COMPLETION DATE.

The Work must be completed and ready for final payment by May 14th, 2021.

6. CONTRACTOR'S REPRESENTATIONS.

- A. Contractor has examined and carefully studied the Contract Documents and other related data identified in the Contract Documents.
- B. Contractor has visited the Site and become familiar with and is satisfied as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.
- C. Contractor is familiar with and is satisfied as to all federal, state, and local Laws and Regulations that may affect cost, progress, and performance of the Work.
- D. Contractor has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or contiguous to the Site and all drawings of physical conditions in or relating to existing surface or subsurface structures at or contiguous to the Site (except Underground Facilities) which have been identified in the General Conditions; and (2) reports and drawings of a Hazardous Environmental Condition, if any, at the Site.
- E. Contractor has obtained and carefully studied (or assumes responsibility for doing so) all additional or supplementary examinations, investigations, explorations, tests, studies, and data concerning conditions (surface, subsurface, and underground facilities) at or contiguous to the Site which may affect cost, progress, or performance of the Work or which relate to any aspect of the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor, including any specific means, methods, techniques, sequences, and procedures of construction expressly required by the Bidding Documents, and safety precautions and programs incident thereto.
- F. Contractor does not consider that any further examinations, investigations, explorations, tests, studies, or data are necessary for the performance of the Work at the Contract Price, within the Contract Times, and in accordance with the other terms and conditions of the Contract Documents.
- G. Contractor is aware of the general nature of work to be performed by City and others at the Site that relates to the Work as indicated in the Contract Documents.
- H. Contractor has correlated the information known to Contractor, information and observations obtained from visits to the Site, reports and drawings identified in the Contract Documents, and all additional examinations, investigations, explorations, tests, studies, and data with the Contract Documents.
- I. Contractor has given City written notice of all conflicts, errors, ambiguities, or discrepancies that Contractor has discovered in the Contract Documents, and the written resolution thereof by City is acceptable to Contractor.
- J. The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.

K. Subcontracts:

(1) Unless otherwise specified in the Contract Documents, the Contractor shall, upon receipt of the executed Contract Documents, submit in writing to the City the names of the subcontractors

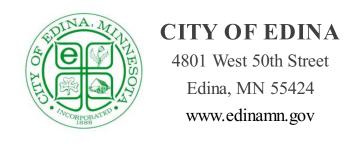

- proposed for the work. Subcontractors may not be changed except at the request or with the consent of the City.
- (2) The Contractor is responsible to the City for the acts and omissions of the Contractor's subcontractors, and of their direct and indirect employees, to the same extent as the Contractor is responsible for the acts and omissions of the Contractor's employees.
- (3) The Contract Documents shall not be construed as creating any contractual relation between the City and any subcontractor.
- (4) The Contractor shall bind every subcontractor by the terms of the Contract Documents.
- 7. WARRANTY. The Contractor guarantees that all new equipment warranties as specified within the bid shall be in full force and transferred to the City upon payment by the City. The Contractor shall be held responsible for any and all defects in workmanship, materials, and equipment which may develop in any part of the contracted service, and upon proper notification by the City shall immediately replace, without cost to the City, any such faulty part or parts and damage done by reason of the same in accordance with the bid specifications.
- **8. INDEMNITY**. The Contractor agrees to indemnify and hold the City harmless from any claim made by third parties as a result of the services performed by it. In addition, the Contractor shall reimburse the City for any cost of reasonable attorney's fees it may incur as a result of any such claims.

9. MISCELLANEOUS.

- A. Terms used in this Agreement have the meanings stated in the General Conditions.
- B. City and Contractor each binds itself, its partners, successors, assigns and legal representatives to the other party hereto, its partners, successors, assigns and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.
- C. Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon City and Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provisions.
- D. Data Practices/Records.
 - (1) All data created, collected, received, maintained or disseminated for any purpose in the course of this Contract is governed by the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, any other applicable state statute, or any state rules adopted to implement the act, as well as federal regulations on data privacy.
 - (2) All books, records, documents and accounting procedures and practices to the Contractor and its subcontractors, if any, relative to this Contract are subject to examination by the City.
- E. Copyright/Patent. Contractor shall defend actions or claims charging infringement of any copyright or patent by reason of the use or adoption of any designs, drawings or specifications supplied by it, and it shall hold harmless the City from loss or damage resulting there from. If the equipment provided by the Contractor pursuant to this Agreement contains software, including that which the manufacturer may have embedded into the hardware as an integral part of the equipment, the Contractor shall pay all software licensing fees. The Contractor shall also pay for all software updating fees for a period of one year following cutover. The Contractor shall have no obligation to pay for such fees thereafter. Nothing in the software license or licensing agreement shall obligate the City to pay any additional fees as a condition for continuing to use the software.

- F. Assignment. Neither party may assign, sublet, or transfer any interest or obligation in this Agreement without the prior written consent of the other party, and then only upon such terms and conditions as both parties may agree to and set forth in writing.
- G. Waiver. In the particular event that either party shall at any time or times waive any breach of this Agreement by the other, such waiver shall not constitute a waiver of any other or any succeeding breach of this Agreement by either party, whether of the same or any other covenant, condition or obligation.
- H. Governing Law/Venue. The laws of the State of Minnesota govern the interpretation of this Agreement. In the event of litigation, the exclusive venue shall be in the District Court of the State of Minnesota for Hennepin County.
- I. Severability. If any provision, term or condition of this Agreement is found to be or becomes unenforceable or invalid, it shall not affect the remaining provisions, terms and conditions of this Agreement, unless such invalid or unenforceable provision, term or condition renders this Agreement impossible to perform. Such remaining terms and conditions of the Agreement shall continue in full force and effect and shall continue to operate as the parties' entire agreement.
- J. Entire Agreement. This Agreement represents the entire agreement of the parties and is a final, complete and all inclusive statement of the terms thereof, and supersedes and terminates any prior agreement(s), understandings or written or verbal representations made between the parties with respect thereto.
- K. Permits and Licenses; Rights-of-Way and Easements. The Contractor shall procure all permits and licenses, pay all charges and fees therefore, and give all notices necessary and incidental to the construction and completion of the Project. The City will obtain all necessary rights-of-way and easements. The Contractor shall not be entitled to any additional compensation for any construction delay resulting from the City's not timely obtaining rights-of-way or easements.
- L. If the work is delayed or the sequencing of work is altered because of the action or inaction of the City, the Contractor shall be allowed a time extension to complete the work but shall not be entitled to any other compensation.
- M. Responsible Contractor. This contract may be terminated by the City at any time upon discovery by the City that the prime contractor or subcontractor has submitted a false statement under oath verifying compliance with any of the minimum criteria set forth in Minn Stat. § 16C.285, subd. 3.

To: Mayor and City Council Item Type:

Request For Purchase

From: Ryan Browning, I.T. Director

Item Activity:

Subject: Request for Purchase: Server Replacements Action

ACTION REQUESTED:

Approve Request for Purchase for Server Replacements from LOGIS/Insight for \$58,622.04.

INTRODUCTION:

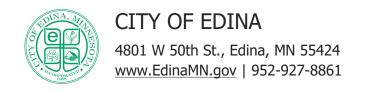

This request covers the replacement of the City's existing server infrastructure which has reached the end of its useful life. New servers will be purchased to handle the data serving needs for the City's existing and planned technology systems. These servers will have a three-to-four-year useful life.

The new hardware offers increased speed, redundancy and efficiency that will result in better performance and uptime for City applications and services. This hardware will also allow for increased security for public safety data and systems. These servers power the majority of the City's server operations and have a direct impact on the daily work of most employees and the service level to residents.

This purchase is within budget and staff recommends we proceed with this purchase.

Request For Purchase

From: Tiffany Bushland, Recreation Supervisor

Item Activity:

Action

Subject: Request for Purchase: Recreation Software and

Services Agreement

ACTION REQUESTED:

Approve Request for Purchase for Parks and Recreation Software and Services Agreement with CivicPlus for \$53,743.20

INTRODUCTION:

Active Network/Maximum Solutions, d.b.a. MaxGalaxy, currently provides the Parks and Recreation Department with software and services for activity registration, scheduling, membership management, website and financials. As of October, 2021, the system's main component, Silverlight, will become unsupported by Microsoft as well as Active Network. Staff from parks & recreation, communications, IT & finance reviewed recreation software vendors focusing on systems that could meet our current usage and future needs. A key component with the selection process was to ensure a system that enhanced the customer/user experience. The software being proposed is compatible with the city's new financial software and will also integrate into the city's website which is also a CivicPlus product. The city attorney has also reviewed the agreement language. Staff is seeking approval of new recreation software and services agreement and first year payment (includes implementation and first year services subscription) in the amount of \$53,743.20

Master Service Agreement and Statement of Work Addendum

THIS Master Services Agreement and Statement of Work Addendum ("Addendum") hereby sets forth the (i) additional terms and conditions applicable to the Master Services Agreement, found at: www.civicplus.com/master-services-agreement, and/or Statement of Work ("Agreements") and/or (ii) amendments to specific provisions of the terms and conditions which exist in the Agreements (collectively, the "Special Terms"), as described below, as agreed upon by CivicPlus and Hempstead, New York. The Special Terms shall be deemed to amend, modify, supplement, replace and/or supersede (as applicable) any inconsistent provisions of the Agreements, to the extent of the inconsistency.

ALL TERMS AND CONDITIONS OF THE AGREEMENTS NOT EXPRESSLEY MODIFIED HEREIN SHALL REMAIN IN FULL FORCE AND EFFECT.

Capitalized terms used and not defined herein shall have the meanings assigned to them in the Agreements (to which this Addendum is attached and incorporated).

1. AMENDMENTS

The terms and conditions of the Agreement are hereby amended as follows:

Document and Section	Amended Language
MSA #1	This Agreement shall commence on the Effective Date and shall remain in full force and effect for as long as any SOW is in effect between CivicPlus and Client, or Services are being provided by CivicPlus to Client, unless terminated in accordance with this §1 or as otherwise provided in this Agreement (the "Term"). Either Party may terminate this Agreement or any SOW as set forth in such SOW, or at its discretion, effective upon sixty days' written notice to the other Party. A delinquent Client account remaining past due for longer than 90 days is a material breach by Client and is grounds for CivicPlus termination.
MSA #17	CivicPlus will not be liable for any failure of performance that is caused by or the result of any act or omission by Client or any entity employed/contracted on the Client's behalf. During Project Development, Client will be responsive and cooperative with CivicPlus to ensure the Project Development is completed in a timely manner. Likewise, during Project Development, CivicPlus will be responsive and cooperative with Client to ensure the Project Development is completed in a timely manner.
MSA #28	CivicPlus shall not use Client's name and logo on CivicPlus's website and in sales and marketing presentations except to the extent specifically authorized by Client in writing. Such authorization may be withdrawn by Client at any time for any reason or no reason at all upon written notice to CivicPlus. Client may publicly refer to itself as a customer of the CivicPlus Services, including on Client's website and in sales presentations. Notwithstanding the foregoing, Each Party hereby grants the other a limited, worldwide, license to use the other's logo in conformance with such Party's trademark usage guidelines and solely for the purpose set forth in this §28. In no event will either party issue a press release publicly announcing this relationship without the approval of the other party, such approval not to be unreasonably withheld.
MSA #36	No party shall have any liability to the other hereunder by reason of any delay or failure to perform any obligation or covenant if the delay or failure to perform is occasioned by force majeure, meaning any act of God, storm, pandemic, fire, casualty, unanticipated work stoppage, strike, lockout, labor dispute, civic disturbance, riot, war, national emergency, act of public enemy, or other cause of similar or dissimilar nature beyond its control. provided that in each case that (a) could not reasonably have been anticipated by such party; (b) is beyond the reasonable control of such party; and (c) could not be prevented or overcome, wholly or in part, by the exercise of due diligence by such party.
MSA #42	The Parties negotiated this Agreement with the opportunity to receive the aid of counsel and, accordingly, intend this Agreement to be construed fairly, according to its terms, in plain English. The headings of Sections of this Agreement are for convenience and are not to be

Addendum to the Agreements by and between CivicPlus, LLC and Edina, MN

	used in interpreting this Agreement. As used in this Agreement, the word "including" means
	"including but not limited to.
MSA #45	In the event CivicPlus wishes to update the terms of this agreement, CivicPlus shall provide Client with written notice describing such change via email.

2. ADDITIONAL TERMS

MSA #46. Any and all disputes relating to this SOW, Terms of Use, Privacy Policy, or any other matter relating to the Client's use of CivicPlus website, and will be interpreted in accordance with, the laws of the State of Minnesota, without regard to any conflict of laws provisions. The Parties agree to the sole and exclusive jurisdiction and venue of the federal or state courts in Minnesota in the event of any dispute of any kind arising from or relating to this SOW, Terms of Use, Privacy Policy, or any other matter relating to the Client's use of CivicPlus website.

Acceptance

IN WITNESS WHEREOF, the Parties have caused this Addendum to be executed by their duly authorized representatives as of the dates below.

- 1. This Statement of Work ("SOW") shall be subject to the terms and conditions of the CivicPlus Master Services Agreement located at https://www.civicplus.com/master-services-agreement ("MSA"), to which this SOW is hereby attached as the CivicRec Statement of Work. By signing this SOW, Client expressly agrees to the terms and conditions of the MSA throughout the Term of this SOW.
- 2. This SOW shall remain in effect for an initial term equal to 365 days from the date of signing ("Initial Term"). In the event that neither party gives 60 days' notice to terminate prior to the end of the Initial Term or any subsequent Renewal Term, this SOW will automatically renew for an additional 1-year renewal term ("Renewal Term"). The Initial Term and all Renewal Terms are collectively referred to as the "Term".
- The Total Investment Year 1 Fees shall be invoiced as follows:
- a. Upon signing of this SOW one half (50%) of the Total Investment Year 1 Fees;
- b. The earlier of 6 months from signing or upon completed implementation of the CivicRec Recreation Management Software the remaining half of the Total Investment Year 1 Fees.
- 4. Annual Recurring Services shall be invoiced on the start date of each Renewal Term. Annual Recurring Services, including but not limited to hosting, support and maintenance services, shall be subject to a 3% annual increase beginning in year 2 of service. Client will pay all invoices within 30 days of the date of such invoice.
- 5. The Client's Annual Recurring Services Fees agreed upon herein are based on Client processing up to USD 3,968,683.00 of revenue per year ("Predicted Processing Volume"). Starting with the first Renewal Term of this SOW, CivicPlus reserves the right (but not the obligation) to audit Client once every 12 months to determine Client's actual processing volume ("Actual Processing Volume"). In the event Client's Actual Processing Volume exceeds the Predicted Processing Volume, CivicPlus will notify client within 30 days of the audit of the Actual Processing Volume and the applicable increase in the Annual Fees resulting from such Actual Processing Volume. The increase in the Annual Fees shall be implemented the first of the month following the notice.
- 6. For the purposes of obtaining merchant account services through CivicPlus Pay, Client may choose to utilize the designated merchant account for CivicRec through an integrated partnership with a merchant providers that is within CivicPlus's network ("Partner Network"). In the event Client chooses a merchant account from the Partner Network ("Integrated Partner"), Client will enter into a merchant account such Integrated Partner. Such agreement's terms and conditions will solely enure to the benefit and obligation of Client; CivicPlus shall not be a party to such agreement. In the event Client chooses an Integrated Partner merchant account provider, CivicPlus will provide Client and Integrated

Partner contact information to the other party for contracting purposes, and shall integrate the Integrated Partner merchant account system at no additional charge to Client. If Client desires to use an integrated merchant account processor gateway besides one of the Integrated Partners designated as members of the Partner Network, CivicPlus will provide Client with a list of approved processors and an integration fee will be charged to Client. Client agrees to assume responsibility for ensuring execution of a merchant account contract with Client's select merchant account provider, to comply with all terms and conditions of such contract and pay all fees required to maintain the services. Client acknowledges that the fees set forth in this SOW do not include any transaction, processing or other fees imposed by Client's merchant account processor. Client is fully responsible for their relationship with their selected processor. In no event will CivicPlus: (i) take part in negotiations, (ii) pay any fees incumbent on the Client or merchant account, or (iii) acquire any liability for the performance of services of any chosen merchant account processor, including those in the Partner Network. Client acknowledges switching to a different merchant account processor after signing this SOW may incur additional fees and require a written and signed modification to this SOW. Client shall continue to be responsible for negotiating and executing any merchant account agreement as described herein for any additional merchant account processor changes.

- 7. When Client uses CivicPlus Pay, then Client may take online credit card payments for certain services or products they provide via the Client websites supported by CivicPlus. As such, through CivicPlus Pay, CivicPlus facilitates an automated process for redirecting credit card payments to Client's chosen payment gateways / merchant account processors. For card payments, CivicPlus will redirect any payments processing to the Client's merchant account processor gateway, and the merchant account processor gateway presents the payment form page and processes the card payment. CivicPlus does not transmit, process or store cardholder data and does not present the payment form. CivicPlus implements and maintains PCI compliant controls for the system components and applications that provide the redirection services only.
- 8. Client understands and agrees that CivicPlus is not liable for any failure of service or breach of security by any merchant account processor gateway provider selected by Client, whether such provider is an Integrated Partner or not.

STATEMENT OF WORK

No. 1

This Statement of Work (the "SOW"), effective as of the later of the two dates accompanying the signatures below ("Effective Date"), is entered into and governed under the Master Services Agreement (the "Agreement") between CivicPlus, LLC. ("CivicPlus") and Edina, Minnesota ("Client"). Services performed by CivicPlus under this SOW will be conducted in accordance with and be subject to the terms and conditions of this SOW and the Agreement. If there is a conflict between this SOW and the Agreement, the terms and conditions of this SOW shall prevail. Capitalized terms used in this SOW but not defined herein shall have the meaning set forth in the Agreement. The responsibilities of CivicPlus and Client are defined below.

IN WITNESS WHEREOF, each party, in consideration of the mutual promises and agreements set forth in this Agreement, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and agreed by the parties, agree and hereto has caused this Agreement to be executed by its duly authorized representatives.

AudioEye Managed for CivicRec

Activation

Upon Activation, AudioEye to begin tracking usage analytics. AudioEye to conduct, at least, monthly ongoing and continuous monitoring based on the usage analytics tracked by AudioEye. This always-on monitoring ensures that the pages being accessed by end-users – the pertinent pages relative to the end-user's experience - are being regularly prioritized and evaluated for accessibility conformance. For the duration of the Term of the agreement between the Parties, AudioEye will maintain the always-on monitoring service.

To ensure compliance with ADA Title II/III, Section 504, Section 508 Information and Communication Technology, and any future changes in conjunction with ADA-related laws & guidelines, and any applicable state laws, AudioEye tests against internationally recognized W3C Web Content Accessibility Guidelines (WCAG) 2.1 Level AA Success Criteria. These tests are conducted through, both, automated and manual processes, which are facilitated and managed through the Digital Accessibility Platform ("DAP"), AudioEye's proprietary system for facilitating the Ally Managed Service solution.

AudioEye engineers do not make any changes to the web environment that impact the visual display of the website. For any Success Criteria that cannot be met through the application of fixes facilitated through the Digital Accessibility Platform and applied to the frontend website/application through the AudioEye JavaScript, AudioEye collaborates with software/web designers/developers and recommends best practices for effective resolution to be applied at the source and/or through universal design standards. The combination of this collective and collaborative effort helps ensure usability for Customer's site visitors. AudioEye to provide the necessary tools and/or instruction, allowing Reseller and/or Customer to implement fixes within the product source ("Source Remediation").

AudioEye Managed

Features/Services	Details
WCAG Accessibility Reports	Reporting available upon request for point-in-time compliance status and WCAG conformance level.
Automated Global Remediations	Certain common issues of accessibility can be programmatically detected and remediated by AudioEye Dynamic Remediation Technology.

Monitoring	Ongoing evaluation and continuous WCAG testing.
Accessibility Toolbar	Web Personalization Tools that allow end-users to customize their user experience to meet their individual needs. The internationally recognized accessibility icon marks the entrance to the AudioEye Toolbar.
Certification Statement	AudioEye Trusted Certification, which is attestation of a site owner's ongoing commitment to digital inclusion as defined by WCAG Success Criteria. Includes AudioEye Trusted Certification badge.
Accessibility Statement (if applicable)	Standardized accessibility messaging site owners may utilize on their site informing visitors of the digital inclusion efforts underway.
Training (On- Demand Webinar Archive)	User access to archive of recorded Accessibility Training Seminars covering various topics to encourage digital accessibility best practices and universal design thinking
Live Training Webinars	User access to Accessibility Training Seminars covering various topics to encourage digital accessibility best practices and universal design thinking
Manual Assistive Technology Testing	Site-level technical analysis and functional usability testing (manual testing) conducted by Assistive Technology (AT) testers.
Site Remediation	Automated and manual test results provide feedback for AudioEye Engineers to develop custom, site-specific remediations to fix issues of accessibility. Remediations scripts are served via AudioEye Dynamic Remediation Technology.
Sustainable Testing & Remediation Plan	Official accessibility auditor documentation to assist site owner in addressing any accessibility complaints.

International Language Support:

27 Languages/Dialects supported for display within the Ally Toolbar. Valid language attribute must be present in source. Supported languages, include:

- Swedish (Sweden)

4. WEB ACCESSIBILITY COMPLIANCE REPRESENTATIONS & WARRANTIES

AudioEye continually monitors the relevant World Wide Web Consortium's (W3C) Web Content Accessibility Guidelines (WCAG) to improve conformance with WCAG guidelines and to eradicate issues of accessibility that may impede access for persons with disabilities.

AudioEye periodically monitors current law and practice regarding digital accessibility compliance including, but not limited to the Americans with Disabilities Act (ADA) and other similar state and international laws.

AudioEye has and will continue to take steps necessary to help improve and maintain equal access to Client website(s).

AudioEye monitors Client website(s) and/or the platform hosting Client website(s) to take the steps necessary to improve conformance with WCAG standards.

AudioEye evaluates Client website(s) and/or the platform hosting Client website(s) on a periodic basis to improve conformance with WCAG standards.

AudioEye periodically reviews automated and manual test results to develop remediations to Client website(s) and/or the platform hosting Client website(s) to increase conformance with WCAG Success Criteria.

AudioEye provides support and training resources and hosts training seminars that promote accessibility best practices including, but not limited to, universal design, WCAG Success Criteria, video captioning, and document remediation.

AudioEye works with and/or takes measures to provide product stakeholders in charge of managing the platform hosting Client website(s) with information a) to improve the accessibility of the platform hosting Client website(s), the site template, and web components that comprise Client website(s), b) to incorporate accessibility into the design process, and c) to better ensure an optimal user experience for individuals with disabilities.

AudioEye supports a 24/7 help desk for site visitors, which enables them to report accessibility issues and grievances should they be encountered. AudioEye prioritizes the remediation of validated issues as submitted via the Help Desk.

AudioEye provides technical analysis and functional usability testing (manual testing) of Client website(s) and/or the platform hosting Client website(s), which is conducted by assistive technology (AT) testers.

Via proprietary and patented AudioEye Dynamic Remediation Technology, AudioEye remediates issues of accessibility identified within Client website(s) and/or the platform hosting Client

website(s) and conducts retesting of issues to validate usability of remediated content and functionality.

AudioEye provides limited to full implementation of the AudioEye Toolbar, which provides web personalization tools permitting site visitors to customize their user experience to meet individual needs.

5. ASSUMPTIONS

To streamline communication during the project, Client will be assigned an account manager who will be responsible for the quality and timeliness of all deliverables. The account manager will oversee and track the progress of the entire project and will be available to escalate concerns.

Website/Platform updates or structural changes that impact existing CSS ID/class selector attributes may require re-configuration and subsequent testing that demands a level of effort beyond the typical maintenance included with the AudioEye Services.

AudioEye engineers do not make any changes to the web environment that impact the visual display of the website. Required changes that impact visual display require collaboration with Client and any visual changes implemented through the AudioEye Services require sign-off from Client. In many cases, these changes are implemented by Client at the source. For deficiencies impacting visual display or site structure/features/functions, AudioEye to obtain written permission from Client to provision and apply the required fixes. AudioEye shall not be held liable for delays impacting, if applicable, delivery timelines pertaining to Client supplying AudioEye with written approvals.

For any Success Criteria that cannot be met through the application of fixes facilitated through the AudioEye Services and applied to the frontend website/application through the AudioEye JavaScript, AudioEye collaborates, via CivicPlus, with software/web designers/developers and recommends best practices for effective resolution to be applied at the source and/or through universal design standards. The combination of this collective and collaborative effort helps ensure usability for Client's site visitors. AudioEye to provide the necessary tools and/or instruction, allowing CivicPlus to implement fixes within the CMS product source ("Platform Remediation").

For each project, the start date of Activation is determined by AudioEye.

AudioEye shall issue an AudioEye Trusted Certification indicating that Client has a commitment to accessibility and inclusion in striving to maximize and continually improve conformance with the informative guidance supplied through W3C WCAG. If applicable, certification statements may indicate conformance exclusions and/or statements of partial conformance and/or reference to on-demand source feedback reports to inform end-users about features/functions that do not conform to the target standard and/or remain a work in a progress.

Common exclusions resulting in conformance clarifications, as documented through source feedback reports, include: flash objects, highly visual/dynamic display widgets/modules, high volume content changes, maps, inaccessible PDFs, videos without captioning and/or audio descriptions, and 3rd party content.

6. CLIENT RESPONSIBILITIES

Client will identify a project lead to function as a single point of contact for the project.

Client will make all reasonable efforts to address conformance exclusions indicated within the source remediation report.

Client will make all reasonable efforts to educate AudioEye on the specific technical constraints of its Web environment, including details about its publication and hosting environments.

Prior to execution of this Agreement, Client to inform AudioEye of anticipated traffic exceeding 20 million monthly impressions. Client understands and agrees that AudioEye will charge Client the following overage fees, to be billed at the end of the current month, in which the overage occurred: \$52 per million impressions above and beyond the monthly allotment. Please note: some single page requests may make multiple requests to AudioEye, and, therefore, trigger multiple impressions (i.e. iFrames on the page).

Client to provide advanced notification to AudioEye prior to implementing or removing the AudioEye JavaScript within their web environment, including but not limited to Client's production, staging, UAT, development, and/or sandbox environment(s).

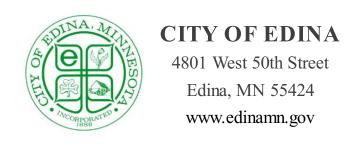

Client will provide AudioEye with feedback, comments, approvals and acceptance on all deliverables in a timely manner.

If Client receives a legal demand letter or is served a legal notice, Client may request a sustainable testing and remediation (STAR) plan (aka auditor notification letter) to inform plaintiff of the proactive steps already taken and being taken by Client to ensure digital inclusion. Should plaintiff continue to pursue their legal efforts, Client may request consulting or legal support services, which may be separate from and in addition to the Services included in this SOW.

Client will make all reasonable efforts to send project and accessibility stakeholders to attend online accessibility training presentations provided by AudioEye.

7. CHANGE CONTROL PROCEDURES

To make a change to this SOW, Client will submit a written request to CivicPlus specifying the proposed changes in detail. CivicPlus will submit to Client an estimate of the charges and the anticipated changes in the delivery schedule that will result from the proposed change in the services ("Change Order") stated within this SOW. AudioEye will continue performing the services in accordance with this SOW until the CivicPlus and Client agree in writing on the change in scope of work, scheduling, and fees therefore. Any Change Order shall be agreed to by the parties in writing prior to implementation. No additional fees shall be incurred without Client's prior written authorization.

City Code Boards, Committees and Commissions

ACTION REQUESTED:

Grant first reading of Ordinance No. 2021-02 amending Chapter 2 of the City Code Boards, Committees and Commissions.

INTRODUCTION:

Staff has reviewed City Code Generally section of Article III related to Boards & Commissions and provided recommended changes.

ATTACHMENTS:

Ordinance No. 2021-02: Amending Chapter 2 of the City Code Boards, Committees and Commissions Staff Memo from Jan. 5, 2021 City Council Work Session

ORDINANCE NO. 2021-02

AN ORDINANCE AMENDING CHAPTER 2 OF THE EDINA CITY CODE CONCERNING BOARDS, COMMITTEES AND COMMISSIONS

THE CITY COUNCIL OF EDINA ORDAINS:

<u>Section 1.</u> Chapter 2, Article III, of the Edina City Code is amended by adding the following provisions:

Sec. 2-78. Establishment.

- (a) Authority to establish. Pursuant to Minn. Stats. § 412.621, and other such statutes as are specifically cited herein, the council establishes or continues the following boards and commissions to advise the council with respect to municipal functions and activities and to investigate subjects of interest to the city.
- (b) How established. A board or commission may be established by a majority vote of the council. An ordinance shall be adopted prescribing the purpose, duties and composition of the board or commission.
- (c) Subject to provisions in this chapter. All boards and commissions established by the council shall be subject to the provisions of this chapter, unless otherwise specified in city ordinance or state law.
- (d) Purposes and duties generally. All boards and commissions established by the council shall be advisory to the council and shall have the responsibility to:
 - (1) Investigate matters within the scope of the particular board or commission or as specifically directed by the council.
 - (2) Advise the council by communicating the viewpoint or advice of the board or commission.
 - (3) At the direction of the council, hold hearings, receive evidence, conduct investigations, and, on the basis of such hearings, evidence and investigations, make decisions and recommendations to the council.
- (e) Advisory role. A board or commission established by the council shall not assume the role of an administrative or legislative body.

(Code 1970; Code 1992, § 1500.01; Ord. No. 162, 4-4-1974; Ord. No. 162-A1, 3-6-1975; Ord. No. 162-A2, § 180, 5-16-1990; Ord. No. 2007-21, 1-2-2008; Ord. No. 2009-7, 5-5-2009; Ord. No. 2011-02, 2-10-2011; Ord. No. 2011-14, 8-4-2011; Ord. No. 2012-06, 2-21-2012)

Sec. 2-79. Cooperation of city officials subject to direction of city manager.

The <u>City Mmanager</u> may make available city staff members to <u>perform administrative duties and records</u> <u>management on behalf of the board or commission.</u> <u>record and prepare minutes of board and commission</u> <u>meetings. Such staff members shall perform only such clerical duties on behalf of a board or commission as provided in the bylaws of that board or commission or as assigned by the chairperson with the consent of the manager. The manager may assign additional staff to assist a board or commission.</u>

(Code 1970; Code 1992, § 1500.02; Ord. No. 162, 4-4-1974; Ord. No. 162-A1, 3-6-1975; Ord. No. 162-A2, § 180, 5-16-1990; Ord. No. 2007-21, 1-2-2008; Ord. No. 2009-7, 5-5-2009; Ord. No. 2011-02, 2-10-2011; Ord. No. 2011-14, 8-4-2011; Ord. No. 2012-06, 2-21-2012)

Sec. 2-80. Membership.

- (a) Regular members. Regular members of boards and commissions established by the council shall be adult residents of the city unless otherwise expressly stated by ordinance. Members who discontinue legal residency in the city shall automatically be deemed to have resigned from the board or commission of the date of such discontinuance.
- (b) Student members. Student members shall be residents of the city or officially open enrolled as a student at Edina High School and entering sophomore, junior or senior year. Student members shall be nonvoting.
 - (1) Until September 1, 2021, each commission may have up to three student members and two thereafter.

(Code 1970; Code 1992, § 1500.03; Ord. No. 162, 4-4-1974; Ord. No. 162-A1, 3-6-1975; Ord. No. 162-A2, § 180, 5-16-1990; Ord. No. 2007-21, 1-2-2008; Ord. No. 2009-7, 5-5-2009; Ord. No. 2011-02, 2-10-2011; Ord. No. 2011-14, 8-4-2011; Ord. No. 2012-06, 2-21-2012; Ord. No. 2015-11, § 1, 8-5-2015; Ord. No. 2018-8, § 1, 6-5-2018; Ord. No. 2020-12, § 1, 8-18-2020)

Sec. 2-81. Appointment and terms of membership.

- (a) Regular members. Commission members shall be appointed by majority vote of the council. Members of Arts and Culture Commission, Edina Community Health Commission, Energy and Environment Commission, Construction Board of Appeals, Heritage Preservation Commission, Human Rights and Relations Commission, Park Commission, Transportation Commission, and Board of Appeal and Equalization are eligible to serve two, three-year terms. Members of the Pelanning Ceommission are eligible to serve three, three-year terms. A member in good standing shall serve until a successor has been appointed.
- (b) Student members. Student members shall be appointed by majority vote of the council and <u>serve in one-year</u> terms. are eligible to serve two, one-year terms.
- (c) Resignation and removal. Members shall serve without compensation and may resign voluntarily by letter or e-mail to the city manager or designee or be removed by majority vote of the council or pursuant to Section 2-80 or 2-86.
- (d) *Vacancies*. Vacancies in membership may be filled by majority vote of the council for the balance of the unexpired term.
- (e) Term of appointment to fill vacancy. A person appointed to fill a vacancy shall be eligible to serve term limits as defined in paragraph (a) in addition to the balance of the unexpired term.
- (f) No concurrent membership. No person may serve concurrently on more than one board or commission.
- (g) Staggered terms. Terms of membership shall be staggered so that no more than one-half of the terms on a board or commission expire in any particular year.
- (h) Change in board or commission appointment. All uninterrupted board or commission service will count towards the term limit of the current position,
- (i) Total term limits. Regular members who complete the defined term limits in paragraph (a) are ineligible to serve on any board or commission for one year.

(Code 1970; Code 1992, § 1500.04; Ord. No. 162, 4-4-1974; Ord. No. 162-A1, 3-6-1975; Ord. No. 162-A2, § 180, 5-16-1990; Ord. No. 2007-21, 1-2-2008; Ord. No. 2009-7, 5-5-2009; Ord. No. 2011-02, 2-10-2011; Ord. No. 2011-14, 8-4-2011; Ord. No. 2012-06, 2-21-2012; Ord. No. 2015-11, § 1, 8-5-2015; Ord. No. 2015-24, § 2, 12-1-2015; Ord. No. 2017-01, § 1, 3-7-2017)

Created: 2021-03-11 12:41:06 [EST]

Sec. 2-82. Subcommittees and Working Groups. subcommittees.

- (a) Establishment. A board or commission may, with specific approval of the council or pursuant to its bylaws, establish committees, subcommittees, committees of the whole or working groups. that include members of the board or commission and additional persons as requested by the board or commission.
- (b) Composition. Subcommittees are comprised of board or commission members only. Working groups are comprised of board or commission members in addition to public members. Neither subcommittees or working groups may include a number board or commissioner members equal to or greater than the number sufficient to constitute a quorum of that board or commission.
- (b) (c) Prohibition. A committee, subcommittee, committee of the whole or working group may not engage in activities, functions, or duties outside the scope of authority granted to the board or commission by which it was established.

(Code 1970; Code 1992, § 1500.05; Ord. No. 162, 4-4-1974; Ord. No. 162-A1, 3-6-1975; Ord. No. 162-A2, § 180, 5-16-1990; Ord. No. 2007-21, 1-2-2008; Ord. No. 2009-7, 5-5-2009; Ord. No. 2011-02, 2-10-2011; Ord. No. 2011-14, 8-4-2011; Ord. No. 2012-06, 2-21-2012)

Sec. 2-83. Officers-Organization and bylaws.

- (a) Bylaws. Each board or commission will be governed by such bylaws as approved by the city council.
- (b) (a) Chairperson and vice-chairperson. Each board or commission annually shall elect from its members a chairperson and vice-chairperson to serve a term of one year. No person shall serve more than three consecutive one-year terms as chairperson of a particular board or commission. A chairperson elected to fill a vacancy shall be eligible to serve three full terms in addition to the remainder of the vacated term. There are no term limits for the position of vice-chairperson.

(Code 1970; Code 1992, § 1500.06; Ord. No. 162, 4-4-1974; Ord. No. 162-A1, 3-6-1975; Ord. No. 162-A2, § 180, 5-16-1990; Ord. No. 2007-21, 1-2-2008; Ord. No. 2009-7, 5-5-2009; Ord. No. 2011-02, 2-10-2011; Ord. No. 2011-14, 8-4-2011; Ord. No. 2012-06, 2-21-2012; Ord. No. 2015-11, § 1, 8-5-2015; Ord. No. 2017-01, § 2, 3-7-2017)

Sec. 2-84. Time, location and types conduct of meetings.

- (a) Regular meetings. All board and commission meetings are open meetings subject to the Minnesota Open Meeting Law (Minn. Stats. ch. 13D) and shall be held at a fixed time, on a fixed date and in a fixed place as shall be determined by the board or commission. The city clerk shall give notice of all board and commission meetings as required for meetings of public bodies. A regular scheduled meeting may be rescheduled by a majority vote at a prior meeting.
- (b) <u>Special meetings.</u> Special meetings can be called by the chair, City Council, City Manager or by a majority vote of members. Notice of special meetings must conform to the Minnesota Open Meeting Law. <u>Public comment.</u> All board and commission meetings shall include scheduled time for public comment.
- (c) Quorum. A simple majority of voting members, appointed and serving, shall constitute a quorum for any regular or special meeting. If a quorum is not established or maintained during the course of a meeting, no votes on board or commission business may be taken except a motion to adjourn or recess.
- (d) Meetings conducted according to bylaws. All meetings shall be conducted according to the bylaws of the board or commission.

Created: 2021-03-11 12:41:06 [EST]

(Code 1970; Code 1992, § 1500.07; Ord. No. 162, 4-4-1974; Ord. No. 162-A1, 3-6-1975; Ord. No. 162-A2, § 180, 5-16-1990; Ord. No. 2007-21, 1-2-2008; Ord. No. 2009-7, 5-5-2009; Ord. No. 2011-02, 2-10-2011; Ord. No. 2011-14, 8-4-2011; Ord. No. 2012-06, 2-21-2012)

Sec. 2-85. Meeting minutes.

- (a) Official record. Approved minutes of board or commission proceedings shall be public record; the city shall retain a copy of the official minutes of each board or commission meeting in accordance with applicable state law.
- (b) Recording. The City Manager may make available a city staff member to serve as a meeting minutes recorder. A board or commission may appoint from its membership a secretary to record and prepare meeting minutes. Minutes so recorded Recorded minutes shall be reviewed and approved by the board or commission. and a copy forwarded to the city clerk. In the alternative, the manager may make available to the board or commission a member of city staff to serve as secretary to record and prepare meeting minutes.
- (c) Distributed to city council. Official minutes of each board or commission meeting shall be distributed to the council prior to the first regular council meeting after approval of the minutes by the board or commission.

(Code 1970; Code 1992, § 1500.08; Ord. No. 162, 4-4-1974; Ord. No. 162-A1, 3-6-1975; Ord. No. 162-A2, § 180, 5-16-1990; Ord. No. 2007-21, 1-2-2008; Ord. No. 2009-7, 5-5-2009; Ord. No. 2011-02, 2-10-2011; Ord. No. 2011-14, 8-4-2011; Ord. No. 2012-06, 2-21-2012)

Sec. 2-86. Attendance requirements.

- (a) *Purpose.* To assist boards and commissions in fulfilling their purposes and duties and to ensure that they are not prevented from doing so by the repeated absence of their members, the council hereby establishes an attendance policy for members serving on boards and commissions.
- (b) *Removal.* Any member of a board or commission established by the council shall be deemed to have resigned as a member of the board or commission under the following circumstances:
 - (1) The regular member fails to attend is absent from three consecutive regular meetings, or for a regular member of the planning commission fails to attend is absent from four consecutive regular meetings.
 - (2) The regular member fails to does not attend at least 75 percent of the regular scheduled meetings in any calendar year, not including the joint work sessions with the council. For a regular member, whose term begins during a calendar year, attendance in that calendar year is measured as at least 75 percent of the scheduled meetings following the beginning of the member's term.

(c) Exceptions.

- (1) The requirements of this subsection shall not apply to attendance at special meetings, or of meetings of <u>sub</u>committees or <u>working groups</u>. <u>subcommittees, including committees of the whole, established by a board or commission pursuant to section 2-82.</u>
- (2) The requirements of this subsection shall not apply to members of the housing and redevelopment authority of the city, the East Edina Housing Foundation or the city council.
- (d) Annual review. The council shall conduct an annual review of the attendance of members of boards and commissions established by the council.
- (e) *Vacancies.* The successor to any member of a board or commission who has been removed pursuant to this subsection shall be appointed pursuant to section 2-81.

ATTEST:

CITY OF EDINA

MEMO

Administration Department Advisory Boards & Commissions

Date: January 5, 2021

To: Mayor & City Council

From: MJ Lamon, Community Engagement Coordinator

Subject: Boards and Commissions: Governing Documents

Governing Documents

Advisory Boards and Commissions currently have several governing documents: including City Code, Bylaws, and other policies and procedures. These documents contain duplicate information and / or conflict with one another. This makes it difficult to communicate, navigate and update procedures.

Current Documents

City Code City code contains the collection of ordinances that have the full force and effect of law. Edina's city code establishes Edina's 10 Advisory Boards and Commissions and requirements.

By-laws

By-laws are not legally required and are similar in purpose to policies and procedures. The City's by-laws currently define the commission structure. Board and Commission bylaws were revamped in 2013 to ensure there was consistency across all boards and commissions individual bylaws. By-laws encompass some board and commission procedures and cite several sections of City Code.

Policies and Procedures

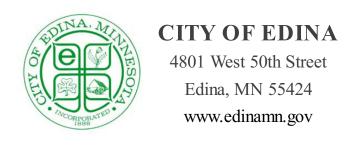

The City has numerous policies and procedures that apply to boards and commissions. In 2016, handbooks were created for commission members and staff to navigate board and commission roles, requirements, and procedures more easily. Staff updates these documents at least annually.

Recommendation

Staff is reviewing City Code, By-laws, and policies for updates needed. Staff will recommend changes to avoid duplication and make these documents easier to use. Staff will recommend that Council:

- 1. Rescind Bylaws and as appropriate revise City Code & Policies to include necessary content from bylaws
- 2. Direct staff to continue to update and maintain policies and procedures, and bring to Council for discussion as needed

Staff will bring the proposed City Code and by-law changes to a future council meeting for approval.

Date: April 6, 2021 Agenda Item #: VI.I.

Item Activity:

Action

Subject: Resolution No. 2021-26: Supporting Local Control

for Local Elections

ACTION REQUESTED:

Approve Resolution No. 2021-26 supporting local control for local elections.

INTRODUCTION:

Councilmember Staunton has requested this resolution be placed before the City Council for a show of support for legislation that would allow all cities, including statutory cities, to allow local voters to determine the methodology of electing their local elected officials.

The author of the resolution, Fair Vote Minnesota, is seeking support for legislative change to allow cities to use ranked choice voting, if approved at a referendum of local voters. The position expressed in this resolution is the same position previously authorized by the City Council in the City's 2021 Legislative Platform. If approved, City staff will provide an executed copy of the resolution to Fair Vote MN and make the public aware of the action.

ATTACHMENTS:

Resolution No. 2021-26 Supporting Local Control for Local Elections 1
FairVoteMN Ranked Choice Voting in Minnesota Cities Fact Sheet
FairVoteMN Ranked Choice Voting Summary

RESOLUTION NO. 2021-26 SUPPORTING LOCAL CONTROL FOR LOCAL ELECTIONS

WHEREAS, all townships and school districts, 86 of 87 counties, and 85 percent of cities fall under statutory rules for the conduct of local elections and must ask permission of the Legislature to make changes to these rules; and

WHEREAS, statutory cities like Edina do not have the authority under state law to adopt Ranked Choice Voting (RCV) even if they think it would be appropriate; and

WHEREAS, the Local Options provision in the current RCV bill aims to remove regulatory barriers and extend authority to adopt RCV to local statutory jurisdictions like Edina; and

WHEREAS, the RCV Local Options provision allows the flexibility to efficiently include ranked and unranked elections on a single ballot; and

WHEREAS, the RCV Local Options provision provides consistent standards for the administration of RCV in cities that choose to use it; and

WHEREAS, the League of Minnesota Cities supports the need for consistent RCV rules for use in Minnesota cities for both even and odd-year local elections and the City of Edina has included support for the local option of using RCV as part of its legislative priorities; and

WHEREAS, the RCV local options provision contains no mandates, but simply provides local jurisdictions with the permission and tools they need to consider and implement RCV if they wish; and

WHEREAS, a growing number of cities have adopted RCV -- including Minneapolis, St. Paul, St. Louis Park, Bloomington and Minnetonka -- and more cities are exploring RCV because it provides a number of benefits over current local elections; and

WHEREAS, local jurisdictions like Edina should have the opportunity to determine for themselves if RCV should be used for their local elections.

NOW, THEREFORE, BE IT RESOLVED BY THE UNDERSIGNED, The Edina City Council hereby declares its support removing regulatory barriers and giving all local jurisdictions in Minnesota the option to use Ranked Choice Voting if they decide it is right for their communities.

Dated: April 6, 2021	
Attest:	
Sharon Allison, City Clerk	James B. Hovland, Mayor

Ranked Choice Voting in Minnesota Cities Fact Sheet

Ranked Choice Voting (RCV) is a proven reform that is easy to use, gives voters more choice and more power, and improves outcomes for both candidates and voters historically underrepresented in the political process. RCV has been tested in cities and states across the country, and the Minnesota Supreme Court and several federal district courts have found it to be constitutional. Since 2009, Fairvote Minnesota has been documenting the experience of Minnesota voters using ranked choice ballots; highlights of that data, including polling, election outcomes, and voter experience are summarized below. By all measures, RCV has been a resounding success for Minnesota voters.

RCV by the Numbers

Five cities will use RCV in 2021: Ranked Choice Voting is used in Minneapolis (since 2009), St. Paul (since 2011), St. Louis Park (since 2019), Bloomington (starting 2021), and Minnetonka (starting 2021). Minneapolis holds regular municipal elections every four years, while Bloomington, Minnetonka, St. Paul and St. Louis Park hold municipal elections every two years. All five cities will use RCV in 2021 for mayoral and city council elections. Close to one million people live in cities in Minnesota using RCV.

Number RCV ballots cast: More than 545,000 ranked choice ballots have been cast in Minnesota since 2009 when Minneapolis began using the system.

Highlights

- 83-92% of voters find RCV simple to use
- 72-85% of voters like RCV and want to continue to use it
- 62-72% of voters want to see RCV expanded to state elections
- 71-90% of voters say RCV creates more civil campaigns

What do voters think about RCV?

Video: What Minneapolis voters think about RCV Video: What St. Paul voters think about RCV

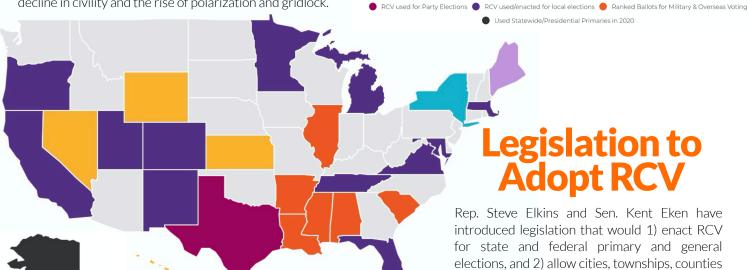

Ranked Choice Voting Ford Better Democracy

We Have A Problem

Polarization threatens bipartisan solutions to the challenges we face. The root cause is an antiquated voting method that creates "spoiler" candidates, fuels negative advertising, discourages candidates with diverse backgrounds and perspectives from running, and can result in winners opposed by a majority of voters. In order to edge out competitors for plurality wins in multi-candidate elections, campaigns have increasingly relied on negative attacks and appealing to extremes rather than focusing on the issues that matter to a majority of voters. The long-term effect has been the erosion of our democratic institutions and norms, a decline in civility and the rise of polarization and gridlock.

Minnesotans Have A Solution

Ranked Choice Voting (RCV) is a simple but powerful change to the way we vote that eliminates "the spoiler effect" and ensures majority winners in a single, decisive election. Minnesotans have been pioneering the use of this fair and easy voting method for more than two decades. Voters in cities where RCV is used report less negative campaigning and increased satisfaction with elections.

Benefits of RCV for Federal, State and Local Elections

- Eliminates the "spoiler" effect
- Encourages positive campaigning
- Gives voters more choice and more power
- Promotes more inclusive and representative elections
- Saves the expense of lowturnout, unrepresentative local primary elections

- Ensures majority winners
- Increases voter participation
- Tested, proven, and used by millions of voters across America
- Ruled constitutional by the Minnesota Supreme Court and federal courts

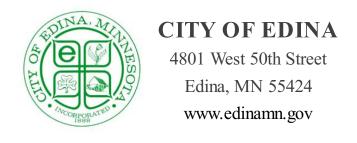

Legislation to Adopt RCV

Rep. Steve Elkins and Sen. Kent Eken have introduced legislation that would 1) enact RCV for state and federal primary and general elections, and 2) allow cities, townships, counties and school boards in Minnesota to adopt RCV by local ordinance.

- 1. State and Federal Elections: The bill would require the use of RCV in primary and general elections for state constitutional offices, legislative offices, congressional offices and the office of president.
- 2. Local Option: The bill would give local jurisdictions the option to eliminate costly, lowturnout primaries for mayor, council and school board. Majority outcomes would be assured in a single, decisive November election when turnout is higher and more representative.

Subject: Resolution No. 2021-30: Authorizing Removal of a

Levied Special Assessment

ACTION REQUESTED:

Approve Resolution No. 2021-30 authorizing removal of a levied special assessment that is included with the property taxes payable in 2021.

INTRODUCTION:

A property owner is able to prepay a newly levied special assessment prior to the certification of the special assessment to the County Auditor. A special assessment was prepaid in November of 2020, but the payment was not included with the report that was sent to Hennepin County; therefore, a special assessment payment of \$283.74 was included with the 2021 property tax statement.

A resolution is required by Hennepin County to remove the principal and interest charges from the 2021 property tax statement.

ATTACHMENTS:

Subject: Amendment to New Multi-Family Affordable Housing

Policy

ACTION REQUESTED:

Approved proposed amendments to the New Multi-Family Affordable Housing Policy.

INTRODUCTION:

The For-Sale requirements for the New Multi-Family Affordable Housing Policy indicate that the maximum sale price is \$425,000. Although this is the cap for the Come Home to Edina program, that is to allow for single family home acquisition. As this policy covers multi-family ownership, \$425,000 does not meet the threshold for being affordable per the Metropolitan Council or Minnesota Housing. In order to count towards our goal of creating 992 new affordable units, staff proposes decreasing the ownership sales cap to serve households with incomes at 80% of AMI, which equals a housing value of \$293,500, adjusted annually.

With construction costs increasing, the cost to develop an affordable unit within either a Market Rate development or on it's own is also increasing. Therefore staff proposed that the Buy-In fee increases to \$125,000 per affordable unit not being included in a Market Rate development. The Buy-In fee has not been increased such first introduced in 2018.

The amendments were approved by the Housing and Redevelopment Authority on March 25, 2021.

\boxtimes City-Wide
□ Department

Approved: 11/1/2015 Revised: 12/10/2020

NEW MULTI-FAMILY AFFORDABLE HOUSING

The City and Housing and Redevelopment Authority recognize the need to provide a range of affordable housing choices for those who live or work in the City. Since the land appropriate for new multi-family residential development is limited, it is essential that a reasonable proportion of such land be developed into affordable housing units. As such, the City of Edina adopts the following New Multi-Family Affordable Housing Policy.

FOR THE PURPOSES OF THIS POLICY:

- 1. "Unit" means either a for-sale dwelling or a rental dwelling in which a lease is signed prior to occupancy.
- "Financial Assistance" provided the City includes but is not limited to tax increment financing, land write downs, pass-through funding for purposes other than environmental remediation and other forms of direct subsidy.
- 3. Any specific projects requesting exemptions to the affordable housing requirements of this policy must seek recommendation from the Edina HRA and approval from the Edina City Council based on alternative public purpose.
- 4. All new multi-family developments of 20 units or more must adhere to this policy and must be zoned PUD Planned Unit Development.
- 5. Affordable Rental Housing Income and Rents are defined as both gross incomes (adjusted for family size) and gross rental rates (adjusted for bedroom count and include utility allowance and any fees that are a requirement of occupancy as per Section 42 of the Internal Revenue Service Code.) that are updated annually by the Minnesota Housing Finance Agency (MHFA) and published at www.mnhousing.gov. 2020 income and rental limits can be found at the end of this policy.
- 6. Affordable Ownership Housing Income and Sales Price are affordable to and initially sold to persons whose income is at or below 80% of Area median Income the levels set in the MHFA's "Startup Program" (first-time homebuyer). This program has a sales price limit of \$340,000, adjusted annually. The Edina Housing Foundation has set this limit at \$425,000 in consideration of the high prices in Edina. A table showing sales prices that will be used as the acquisition limit in this definition can be found at the end of this policy.

THIS POLICY APPLIES TO ALL NEW MULTI-FAMILY DEVELOPMENTS THAT:

- I. Include 20 units of more.
- 2. Require rezoning or a Comprehensive Plan Amendment.
- 3. Receive financial assistance from the City of Edina and/or the Edina Housing and Redevelopment Authority.

4. Are developed on property purchased from the City of Edina even if no financial assistance is being provided by the City unless the waiver is recommended by the Edina HRA and approved by the Edina City Council.

THE POLICY

- New rental multi-family developments subject to this policy shall provide a minimum of 10% residential units at 50% affordable rental rates or 20% residential units at 60% affordable rental rates as defined below. The units shall be occupied by households at or below 60% of the Multi-Family Tax Subsidy Income Limits (MTSP).
- 2. New for-sale developments shall provide a minimum of 10% of residential units at affordable sales prices as defined below.
- 3. The affordable unit mix must be approximately proportional to the market rate unit mix.
- 4. Rental and for-sale/owner occupied affordable units shall provide the following:
 - a. on-site parking (either surface or enclosed) for affordable units and the cost related to parking must be included affordable sales price or affordable rental rate. At least one enclosed parking space shall be included in the purchase price of a for-sale unit in the same manner offered to buyers of market rate units.
 - b. Affordable and market rate residents will have equal access to all entries, lobbies, elevators, parking and amenities. Examples of amenities include storage lockers, balconies, roof decks, outdoor patios, pools, fitness facilities, and similar unit and project features.
 - c. Exterior appearance of affordable units shall be visually comparable with market rate units in the development.
- 5. New rental housing will remain affordable for a minimum of 20 years and this requirement will be memorialized by a Land Use Restrictive Covenant.
- 6. New for-sale or owner-occupied developments will remain affordable for a minimum of 30 years and this requirement will be memorialized by a Land Use Restrictive Covenant. The Land Use Restrictive Covenant will contain a provision providing the Housing and Redevelopment Authority or Edina Housing Foundation the right of first refusal to purchase affordable units.
- 7. The owners of multi-family rental housing projects subject to this Policy by receiving financial assistance shall accept tenant-based rental housing assistance including but not limited to Section 8 Housing Choice Vouchers, HOME tenant-based assistance and Housing Support. Tenants with rental assistance may occupy an affordable dwelling unit with the rent charged not exceeding the maximum allowed by Metro HRA or the assistance provider. Furthermore, the rent charged may not exceed the maximum allowed by the most restrictive funding soured. This requirement will be enforced through a contract between the City of the project owner pursuant to which the owner will be required to adopt business practices that promote fair housing and provide documentation of compliance with these requirements to the City. This requirement will be further enforced through the City's monitoring policies and procedures.
- 8. Owners of City-assisted housing projects shall affirmatively market affordable housing opportunities. All multi-family housing providers subject to this policy must submit an Affirmative Fair Housing Marketing Plan (AFHMP) at lease every 5 years and a Survey and Certification regarding AFHMP outcomes annually. Owners must advertise housing opportunities on HousingLink or another medium acceptable to the City concurrent with any other public or private advertising.
- 9. Recognizing that affordable housing is created through a partnership between the City and developers, the City and/or Housing and Redevelopment Authority will consider the following incentives for developments that provide affordable housing:
 - a. Density bonuses

- b. Parking requirement reductions
- c. Tax increment financing for projects that exceed the minimum requirement
- d. Deferred low interest loans from the Housing and Redevelopment Authority and/or Edina Housing Foundation
- e. Property Tax Abatement
- 10. It is the strong preference of the City that each new qualifying development provide its proportionate share of affordable housing on site. However, the City recognizes that it may not be economically feasible or practical in all circumstances to do so. As such, the City reserves the right to waive this policy (only if circumstances so dictate, as determined by the City). In lieu of providing affordable housing in each new qualifying development, the City may consider the following:
 - a. Dedication of existing units in Edina to 110% of what would have been provided in a proposed new development. These units would need to be of an equivalent quality within the determination of the City.
 - b. Financial risk and participation in the construction of affordable dwelling units of an equivalent quality by another developer on a different site within the City.
 - c. An alternative proposed by a developer that directly or indirectly provides or enables provision of an equivalent amount of affordable housing within the city. An alternative could be payment of a Total Buy In (TBI) fee, a cash payment to the City in lieu of providing affordable housing units. The TBI shall be equal to \$100,000 \$125,000 per unit rounding up to the next whole unit. The TBI would be due in cash or certified funds in full to the City at the time of issuance of the building permit. A building permit will not be issued unless the TBI is paid in full. The City Council may allow the housing developer to pre-pay the TBI to satisfy a future Affordable Housing Opportunity on a case-by-case basis. TBI will be deposited into the Affordable Housing Trust Fund to be used for the development and preservation of affordable housing.
- 11. Guidelines for implementing this Affordable Housing Policy can be found in the Inclusionary Housing Policy Program Guide.

2020 INCOME AND RENTAL LIMITS

ACTION REQUESTED:

Approve Resolution No. 2021-32 accepting Minnesota PGA Section and PGA REACH Minnesota Grant.

INTRODUCTION:

The Braemar Golf Course and The City of Edina received an \$11,000 grant from the Minnesota PGA Section and PGA REACH Minnesota to fund the Braemar PGA HOPE (Helping Our Patriots Everywhere) program in 2021.

PGA HOPE is the flagship military program of PGA REACH, the charitable foundation of the PGA of America. PGA HOPE introduces golf to veterans with disabilities to enhance their physical, mental, social and emotional well-being.

The program introduces the game of golf through a developmental 6-8 week curriculum, taught by PGA Professionals trained in adaptive golf and military cultural competency. All programs are funded by PGA REACH and supplemented by PGA Section Foundations, so the cost of programming is free to all veterans.

PGA HOPE has a Memorandum of Understanding (MOU) with the Department of Veterans Affairs (VA), which enables recreational therapists to refer veterans to the PGA HOPE program as a form of therapy. Through a robust program strategy, PGA HOPE aspires to create a physically and emotionally healthier veteran community by shaping lives, changing lives, and possibly saving lives through the game of golf.

	City Clerk

March 25, 2021

Jay Meyerhoff Braemar Golf Course 6364 John Harris Dr. Edina, MN 55439

Dear Jay,

We are very excited to share that PGA REACH will be funding a record \$1,050,000 for PGA HOPE programming in 2021. Overall, 111 returning programs will receive funding and 50 new programs will be created this year. Locally, 9 Chapters will conduct PGA HOPE programming in 2021, some of which will host multiple sessions throughout the season.

The Minnesota PGA Section and PGA REACH Minnesota is pleased to inform you that funding for PGA HOPE Edina at Braemar Golf Course has been approved in the amount of \$11,000. The amount of funding is approved for hosting 2 sessions throughout 2021.

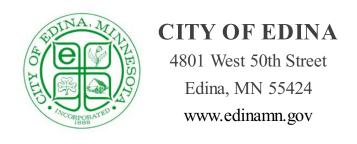

During your program, please be prepared to provide reports so funding/reimbursement can be paid from the above grant dollars. Upon completion of the program, provide an in-depth recap to include number of veterans served, success stories, photos, summary of your program, and an itemized list of grant dollars used along with receipts for all expenses for reimbursement.

If you haven't already, please begin creating your PGA HOPE Program schedule. A PGA HOPE program is recommended to run between 6-8 weeks. Programs typically meet once a week for 2 hours. A suggested maximum program size is 36 veterans. Please work with your VA Hospitals and local Veteran organizations to promote the program.

If you have any questions, feel free to contact Catherine Wagner at the Minnesota PGA at cmwagner@pgahq.com or (763) 754-0820.

Sincerely,

Jon Tollette COO Minnesota Section PGA

ACTION REQUESTED:

Adopt proclamation declaring the week of April 5-11, 2021, National Public Health Week in the City of Edina.

INTRODUCTION:

Since 1995, the American Public Health Association, through its sponsorship of National Public Health Week, has educated the public, policymakers and public health professionals about issues important to improving the public's health.

The theme for April 5-11, 2021, National Public Health Week, is "Building Bridges to Better Health." Let this be a time to help our families, friends, neighbors, co-workers and leaders to better understand the value of public health and supporting great opportunities to adopt preventive lifestyle habits in light of this year's theme.

ATTACHMENTS:

Proclamation: National Public Health Week

PROCLAMATION NATIONAL PUBLIC HEALTH WEEK

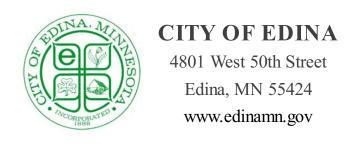

April 5-11, 2021

- **WHEREAS,** the week of April 5-11, 2021, is National Public Health Week, and the theme is "Building Bridges to Better Health"; and
- **WHEREAS,** since 1995, the American Public Health Association, through its sponsorship of National Public Health Week, has educated the public, policymakers and public health professionals about issues important to improving the public's health; and
- WHEREAS, U.S. life expectancy dropped from 2014 to 2017 in the longest sustained decline since the Great Recession and only in 2018 began to increase again; further, studies consistently show the United States has a lower life expectancy than comparable countries; and
- where is a significant difference in health status, such as obesity, poor mental health and drug use, among people living in rural areas compared with people living in urban areas, and this variance increases because rural residents are often more likely to face social determinants that negatively impact health, such as poverty, transportation barriers and lack of economic opportunity; and
- WHEREAS, public health professionals help communities prevent, prepare for, withstand and recover from the impact of a full range of health threats, including disease outbreaks such as the COVID-19 pandemic, measles, natural disasters and disasters caused by human activity; and
- **WHEREAS,** public health action, together with scientific and technological advances, has played a major role in reducing and, in some cases, eliminating the spread of infectious disease, and in establishing today's disease surveillance and control systems; and
- **WHEREAS,** six in 10 U.S adults have a chronic disease and four in 10 have two or more; and health risks such as alcoholism, obesity and tobacco use are the primary reason for 7 of every 10 deaths annually in the United States; and
- **WHEREAS,** the COVID-19 pandemic has illuminated and exacerbated racial inequities and a growing number of local, state governments and public health leaders have declared racism a public health crisis.

NOW, THEREFORE, I, The Honorable James Hovland, Mayor of the City of Edina, by virtue of the authority vested in me by the laws of Edina, Minnesota, do hereby proclaim the week of April 5-11, 2021, as National Public Health Week 2021 in the City of Edina and call upon the people of Edina, Minnesota to observe this week by helping our families, friends, neighbors, co-workers and leaders to better understand the value of public health and supporting great opportunities to adopt preventive lifestyle habits in light of this year's theme, "Building Bridges to Better Health."

Dated this 6th day of April, 2021.	
	James B. Hovland, Mayor

Action

Subject: Proclamation: National Public Safety

Telecommunicator Week

ACTION REQUESTED:

Adopt proclamation declaring the week of April 11 - 17, 2021, National Telecommunications Week in the City of Edina.

INTRODUCTION:

Each year, the second full week of April is dedicated to the men and women who serve as Public Safety Telecommunicators. The idea was created in Contra Costa Count, California in 1981, when Sheriff Ramsey realized the need to recognize the good work taking place inside the 911 communication centers.

Let this be a time to thank and honor those who dedicate their lives to serving the public. It is a week that should be set aside to bring awareness to the hard work and dedication behind the scenes in the Edina 911 Communications Center.

Dispatch Proclamation 2021

PROCLAMATION

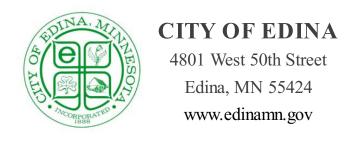

National Public Safety Telecommunicator Week

Sunday, April 11, 2021 – Saturday, April 17, 2021

WHEREAS,	emergencies can occur at any time that require police, fire or emergency medical services; and
WHEREAS,	when an emergency occurs, the prompt response of police officers, firefighters and paramedics is critical to the protection of life and preservation or property; and
WHEREAS,	the safety of our police officers, firefighters and paramedics is dependent upon the quality and accuracy of information obtained from citizens who telephone or text the Edina Police-Fire Communications Center; and
WHEREAS,	Public Safety Telecommunicators are the first and most critical contact our citizens have with emergency services; and
WHEREAS,	Public Safety Telecommunicators are the single vital link for our police officers, firefighters and paramedics by monitoring their activities by radio, providing them information and ensuring their safety; and
WHEREAS,	Public Safety Telecommunicators of the Edina Police-Fire Communications Center have contributed substantially to the apprehension of the criminals, suppression of fires and treatment of patients; and
WHEREAS,	each Public Safety Telecommunicator has exhibited compassion, understanding and professionalism during the performance of their job in the past year;
•	REFORE, the City Council of the City of Edina, MN, hereby proclaims the week of gh April 17, 2021 as
ı	National Public Safety Telecommunicator Week
In the City of our city and ci	Edina, MN in honor of the men and women whose diligence and professionalism keep tizens safe.

James B. Hovland, Mayor

HENNEPIN COUNTY

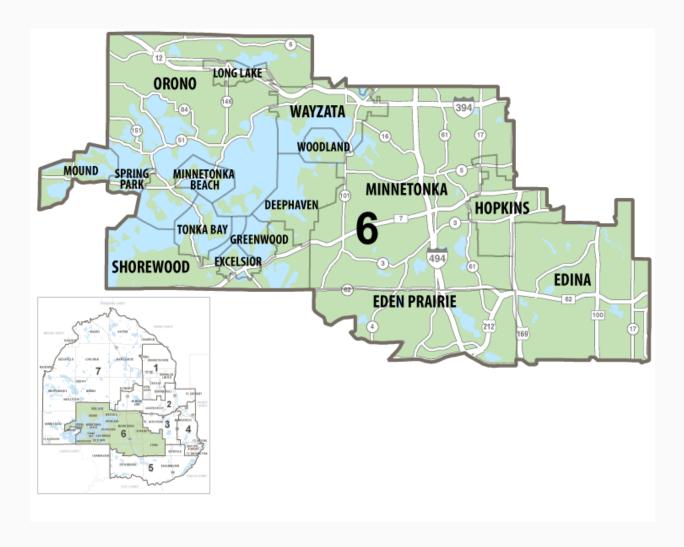

MINNESOTA

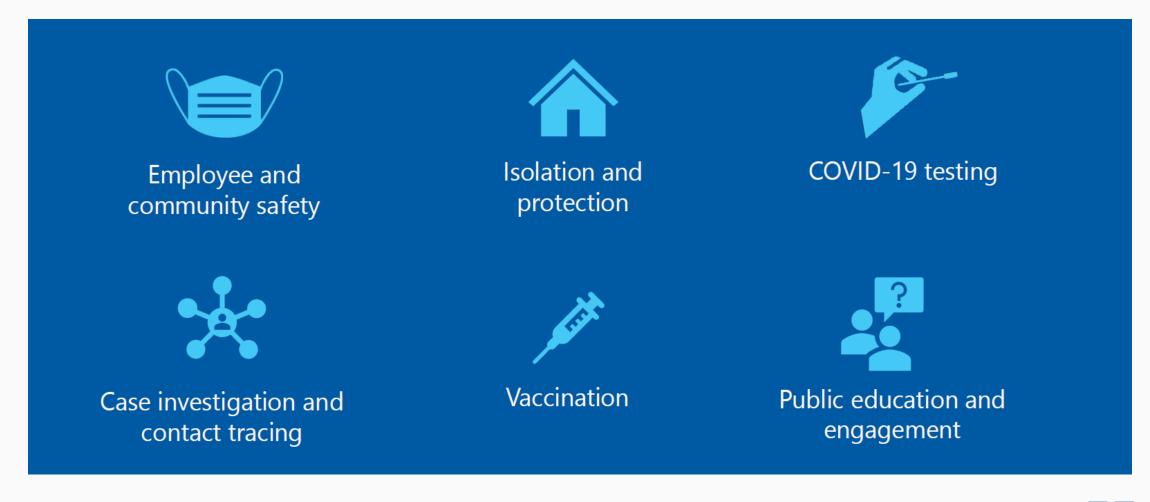

Commissioner Chris LaTondresse – District 6

Hennepin County District 6

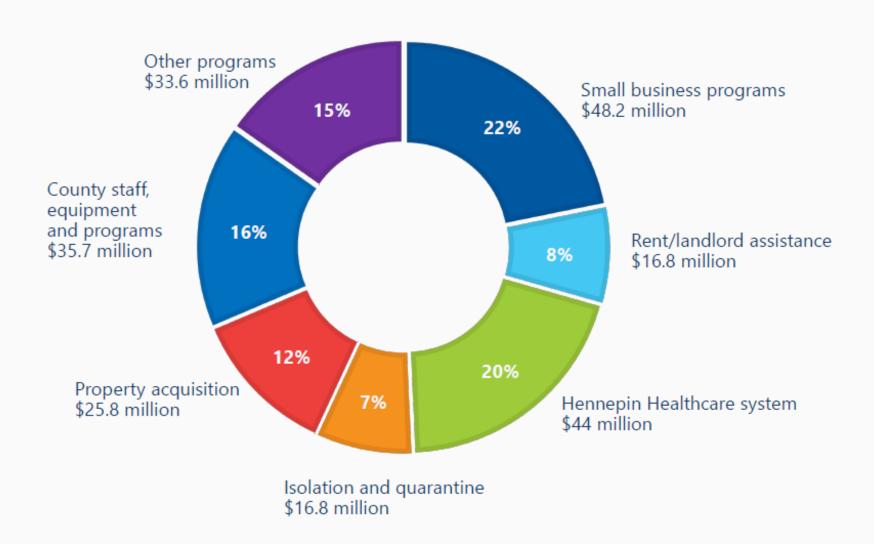

COVID-19 Response

Investing in Residents – CARES Act (\$220 Million)

Investing in Residents

Emergency Rental Assistance

\$16.2 million of emergency rental assistance to more than 6,000 low-income households.

319 households across District 6 received assistance, totaling \$988,735.

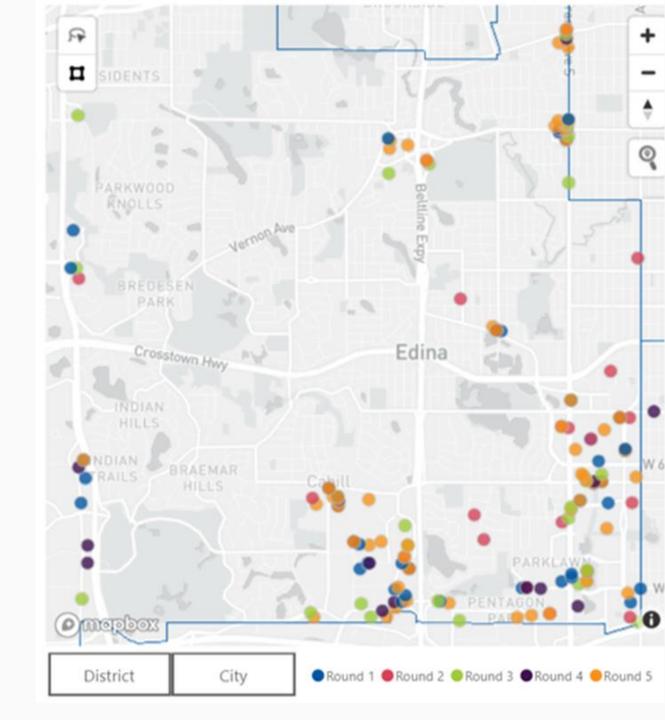

13 households in Edina received assistance, totaling \$42,410. Pre-pandemic income of these households was ~\$28,600K

Small Business Grants

\$69.4 million in Small Business Relief grants with 6,400+ grants across Hennepin.

- As of March 15, 2021 229 grants or \$2.58 million in funding were provided to small businesses in Edina (\$9.4 million total for District 6)
- More than 40% of grants have gone to businesses owned by Black, Indigenous and people of color
- To date, there have been five application rounds for direct financial assistance through the Small Business Relief Fund, with future rounds expected.

Elevate Business Hennepin County

Through Elevate Business HC, businesses impacted by COVID-19 are eligible to receive one-on-one business consulting and technical assistance from a variety of professional service providers at no cost.

Some of the services offered include:

- COVID-19 protocols
- Employment law
- Insurance policy review
- Virtual employee engagement and retention
- Social media, website and e-commerce
- Financial analysis
- And more

Love Local Initiative

Supporting business districts through COVID-19

- Hennepin County worked with 11 business districts, including 50th and France, to roll out the Love Local Initiative, an effort to encourage people to shop at their local business districts while following COVID-19 safety guidelines during the holiday season.
- The Love Local Initiative supported business districts with a marketing campaign and coordinated public space improvements including wayfinding and artist-designed dome installations, to encourage COVID-19 safety and enhance overall shopping experience.

LOVE LOCAL

HENNEPIN COUNTY MINNESOTA

About the Climate Action Plan

The Hennepin county Climate Action Plan's foundational strategies include:

- Cutting greenhouse gases
- A transition to renewable energy sources and reduction of energy use overall
- Strengthening individual and community resilience
- Preventing food waste
- Building and maintaining green infrastructure

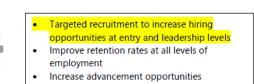

- Hennepin County recognizes disparities exist among its residents in education, employment, health, housing, income, justice, and transportation. These disparities are starkest between residents of color and their white counterparts.
- In June 2020, the Hennepin County board passed Board Action Resolution that declares racism a public health crisis that affects the entire county. This declaration supports the county's foundational work to develop strategies that mitigate personal bias and prejudice in the community, create systems that build equity, and reach a vision of a future where all residents are healthy and successful, and all communities thrive.

2019-2021 disparity reduction priorities

as approved by governance board March 2019

- Increase early childhood education opportunities for youth of color
- Improve school stability and consistency for youth involved in county systems
- Increase post-secondary education and training opportunities

- Provide greater financial inclusion
- · Support pay equity
- Reform fees

- Reform countywide law enforcement charging and diversion practices
- Reform probation practices
- Eliminate economic barriers in the justice

- Improve access to culturally specific mental health services
- · Increase healthy births and create positive early starts
- · Empower community to reduce chronic

- · Enhance mobility options to ensure access to
- Strengthen infrastructure through ongoing
- Proactive management of activities that positively impact the environment and community

- Improve stable financing opportunities
- Increase housing stability through reducing evictions
- Increase housing supports to reduce homelessness

My top priorities

Housing: As Chair of the Housing and Redevelopment Authority, I believe it is critical we prioritize issues of housing security, homelessness, and the affordable housing crisis.

Public Safety: As Vice Chair of the Public Safety committee, I believe we can work to create emergency and 911 response services that build trust and keep all our residents safe.

Economic Development: Supporting our small businesses, promoting entrepreneurship, investing in workforce development, and building equitable, inclusive opportunity ladders for all is critical for the future of our economy and workforce.

What are your top priorities?

Subject: PUBLIC HEARING: New On-Sale Intoxicating and

Sunday Sale Liquor Licenses for Yumi Southdale

LLC dba Yumi Southdale LLC

ACTION REQUESTED:

Approve new On-Sale Intoxicating and Sunday Sale Liquor Licenses for Yumi Southdale LLC dba Yumi Southdale LLC, a restaurant located at 200 Southdale Center #2C, Edina.

INTRODUCTION:

Yumi Southdale LLC applied for liquor licenses for the new restaurant at 200 Southdale Center #2C.

Staff reviewed the application and find that it complies with code requirements. A background investigation was completed by the police department and is attached.

Staff recommends approval of the liquor licenses. Staff is requesting Council approval immediately instead of carrying over this item for approval on April 20. This public hearing was posted on Better Together Edina and as of April 5, we have not received any public comments. See attached report.

POLICE

BACKGROUND INVESTIGATION SUMMARY

Establishment:

Yumi Southdale LLC, DBA: Yumi Southdale LLC

License:

Intoxicating Liquor and Sunday Sale

In March of 2021, the Edina Police Department began a background investigation relating to a City of Edina application for an Intoxicating Liquor and Sunday Sale License. The application was submitted by Yumi Southdale LLC, DBA: Yumi Southdale LLC, DBA: Yumi Southdale LLC will operate from 200 Southdale Center #2C, Edina.

Yumi Southdale LLC, DBA: Yumi Southdale LLC is authorized to do business in Minnesota and is registered with the State of Minnesota. Yumi Southdale LLC, DBA: Yumi Southdale LLC is currently active and in good standing with the Minnesota Secretary of State.

Yumi Southdale LLC, DBA: Yumi Southdale LLC and/or its representatives are aware of the City of Edina's requirement relating to employee alcohol awareness training. The training date is not currently scheduled.

Owners/Partners/Members Yumi Southdale LLC, DBA: Yumi Southdale LLC:

Asp, Mikael John

St. Paul

Switz, Aaron Todd

Deephaven

The owners/partners/members have been investigated. No criminal records which would negatively affect their license application were found. Checks were made with the following agencies:

NCIC

MINCIS

Hennepin County

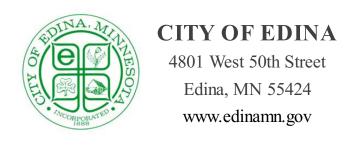

Minnesota Secretary of State

Minnesota Alcohol and Gambling Enforcement Division

From the information gathered during the course of the investigation, I found nothing to prevent, Yumi Southdale LLC, DBA: Yumi Southdale LLC from obtaining an Intoxicating Liquor and Sunday Sale license.

I would support a positive recommendation from the Police Department in regard to the issuance of this license.

Lt. Dan Conboy #183

Item Activity:

Action

Subject: PUBLIC HEARING: Resolution No. 2021-34,

Melody Lake A&B, Grandview A, Birchcrest C

Neighborhood Roadway Reconstruction,

Improvement No. BA-457

ACTION REQUESTED:

Motion to close the public hearing at noon, April 12, 2021 and to continue action to the April 20, 2021 City Council Meeting.

INTRODUCTION:

This public hearing is for the residents of 5100 - 5113 Grove Street. Their addresses were missed on the list of properties to be assessed on the initial public hearing notice. Staff initiated this project. Staff proposes to reconstruct Bernard Place, Code Avenue, Dale Avenue, Eastview Drive, Grove Street, Hansen Road, Josephine Avenue, Melody Lane, Melody Lake Drive, Tingdale Avenue, Windsor Avenue, West 56th Street, West 57th Street, West 58th Street and West 59th Street.

The overall project cost is estimated at \$16,361,168. Funding will be a combination of special assessments, City Utility and Pedestrian and Cyclists Safety (PACS) funds.

Recall a final decision on assessments was delayed for up to 6-months from the original public hearing for staff to bring back more information on the entire project. Staff intends to bring back more information on April 20.

RESOLUTION NO. 2021-34 ORDERING IMPROVEMENT FOR MELODY LAKE A&B, GRANDVIEW A, BIRCHCREST C NEIGHBORHOOD ROADWAY RECONSTRUCTION IMPROVEMENT NO. BA-457

WHEREAS, a resolution of the City Council, adopted the 4th day of November 2020, fixed a date for a council hearing on Improvement No. BA-457, the proposed improvement of Melody Lake A&B, Grandview A, Birchcrest C Neighborhood Roadway Reconstruction; and

WHEREAS, ten days mailed notice and two weeks published notice of the hearing was given, and the hearing was held thereon on the 7th day of December 2020, at which all persons desiring to be heard were given an opportunity to be heard thereon; and

WHEREAS, 5100 – 5113 Grove Street was not listed on Public Hearing notices mailed November 20, 2020 and were listed on a new notice mailed on March 19, 2021;

NOW THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF EDINA, MINNESOTA:

- 1. Such improvement is necessary, cost-effective, and feasible to update aging infrastructure.
- 2. Such improvement is hereby ordered.
- 3. The city engineer is hereby designated as the engineer for this improvement. The engineer shall prepare plans and specifications for the making of such improvement.
- 4. The city council declares its official intent to reimburse itself for the costs of the improvement from the proceeds of tax exempt bonds.

Engineering Study Melody Lake A&B/Grandview A/Birchcrest C Neighborhood Reconstruction BA-457 November 30, 2020

SUMMARY:

The project involves reconstruction of local bituminous and concrete streets, replacement of existing concrete curb and gutter, installation of new concrete curb and gutter, construction of new concrete sidewalk and localized rehabilitation of the sanitary sewer, watermain and storm sewer systems in the neighborhood.

The estimated total project cost is \$16,361,168. The estimated roadway construction cost is \$7,200,468 and will be funded through special assessments at a rate of approximately \$24,200 per residential equivalent unit (REU). Utility improvements amount to \$8,427,150 and will be funded through the City's utility funds. Sidewalk improvements are estimated to cost \$504,892 and will be funded through the Pedestrian and Cyclists Safety (PACS) fund. Retaining wall improvements at 5700 Hansen Road are estimated to cost \$228,658 and will be funded through the Pedestrian and Cyclists Safety (PACS) fund.

INITIATION:

The project was initiated by the Engineering Department as part of the City's Neighborhood Reconstruction Program, identified in the Capital Improvement Plan. The project complies with the City's Living Streets Policy, Vision Edina's mission statement to "provide effective and valued public services" and "maintain a sound public infrastructure" and the "Strong Foundations" City budget goal. This project addresses updating substandard infrastructure with improvements associated with the roadway condition, watermain system, storm sewer system, sanitary sewer system and pedestrian facilities.

LOCATION:

The project includes Bernard Place, Code Avenue, Dale Avenue, Eastview Drive, Grove Street, Hansen Road, Josephine Avenue, Melody Lane, Melody Lake Drive, Tingdale Avenue, Windsor Avenue, West 56th Street, West 57th Street, West 58th Street and West 59th Street. A detailed location map of the project is shown in Figure 1.

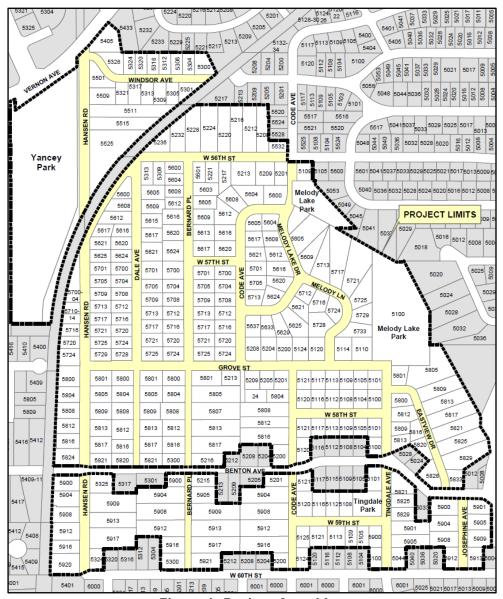

Figure 1: Project Area Map

EXISTING CONDITIONS:

Roadways

The roadways in this neighborhood were originally constructed between 1940 and 1962 (see Photo 1).

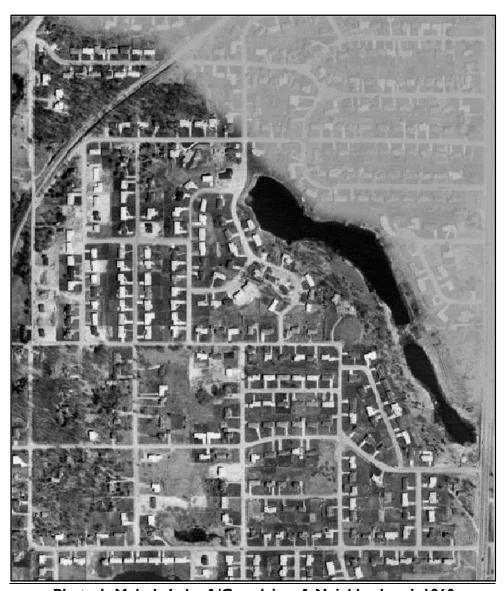

Photo I: Melody Lake A/Grandview A Neighborhood, 1960

Maintenance records indicate seal coating was performed within a portion of the project area in 2007; The intersection of Code Avenue and Melody Lake Drive adjacent to Melody Lake was repaved in 2012 after installation of new storm sewer pipes (see Existing Storm Sewer).

Approximately 60% of the streets in the neighborhood do not have concrete curb and gutter. The roadway width ranges from 20' to 39' and the average roadway width is 29' (measured from the face of curb to the face of curb or edge of pavement). Just

over 22% of the project area has concrete streets, the majority are south of Grove Street. A recent geotechnical evaluation of the project area performed by Braun Intertec showed the roadway section varies from 1.75" to 9.75" of pavement over an apparent aggregate base followed by primarily clay soils with some silty sandy soils.

As part of the City's Pavement Management Program, all streets are regularly evaluated and rated on a scale from I to I00; I00 representing a brand-new road surface and 0 being extremely poor. This rating is referred to as the Pavement Condition Index (PCI), and is determined based on existing conditions and defects (alligator cracking, raveling, potholes, etc.). The average PCI for the City of Edina is 72 and the average PCI for Melody Lake A&B/Grandview A/Birchcrest C is I0. An example of the current bituminous and concrete pavement conditions can be seen in Photos 2 and 3, respectively.

Photo 2: Existing Bituminous Pavement Condition

Photo 3: Existing Concrete Pavement Condition

Canadian Pacific Railway

The Canadian Pacific (CP) Railway runs through the north part of the project area and forms part of its western boundary. Approximately two trains run on this track per day and are operated by the Twin Cities and Wester (TC&W) Railroad. There is a steel reinforced rubber railroad crossing on Hansen Road at the intersection of West 56th Street. The crossing is in poor condition as referenced in Photo 4. There are cantilever flashing lights on both sides of Hansen Road to warn approaching vehicles, cyclists and pedestrians of approaching trains.

Photo 4: Existing CP Railway Crossing Surface

Traffic and Crash Data

Staff measured traffic volumes and speeds at several locations within or near the neighborhood. Average daily traffic volumes within the neighborhood range between 109 and 2,236 vehicles per day with 85th percentile speeds between 18.5 and 36.6 miles per hour. Traffic and crash data for this project is shown in Appendix A.

Multi-Modal Transportation

Pedestrian Facilities

Sidewalk is present on the west side of Hansen Road between Vernon Avenue and the CP Rail. The sidewalk is in poor condition and has deteriorated significantly. Sidewalks are also present immediately adjacent to the project area on Vernon Avenue, Benton Avenue and Hansen Road (see Appendix B).

Bicycle Facilities

There are no bicycle facilities within the project area; however, there are bike lanes immediately adjacent to the project area on Vernon Avenue (see Appendix C).

Public Utilities

Sanitary Sewer

The sanitary sewer system consists of 9" vitrified clay pipe (VCP) installed between 1951 and 1966. Historical records indicate there have been few sewer back-ups or blockages in the area (see Appendix D).

Watermain

The potable watermain system consists of 6" and 12" cast iron pipe (CIP) installed between 1952 and 1956. An 8" high density polyethylene (HDPE) raw watermain was installed along Hansen Road in 2014. The overall system has experienced a moderate number of breaks (see Appendix D). Most of the fire hydrants are original to the neighborhood.

Many homes in the neighborhood were constructed prior to the availability of municipal water. Although several have had private wells properly sealed, City records suggest some remain unsealed. Based on Utility Billing records, there is a single property in the project area that relies on private wells for domestic water. Staff will communicate the benefits of connecting to the City water supply to the property owner.

Storm Sewer

The storm sewer network is in both the Nine Mile Creek and Minnehaha Creek Watershed Districts. The system consists of 12" - 33" reinforced concrete pipe (RCP) and 15" corrugated metal pipe (CMP) installed between 1954 and 2012. There are a moderate amount of storm sewer inlets and pipes located within the project area. Two stormwater runoff treatment manholes were installed in 2012 at the intersection of Code Avenue and Melody Lake Drive.

The majority of Melody Lake A and Grandview A streets within the project area drain to Melody Lake (and subsequently, Minnehaha Creek), while a small portion drains to Yancey Park (and subsequently, Nine Mile Creek). The majority of Melody Lake B and Birchcrest C streets within the project area drain to Birchcrest Lake (and subsequently, Nine Mile Creek).

Private Utilities

Gas, electric, communications, cable and fiber optic utilities are present in the neighborhood. These utilities are a combination of overheard and underground facilities located in backyards or along the boulevards. Street lighting consists of standard "cobra head" lights mounted on wooden poles located throughout the project area as shown in Appendix E.

Hansen Retaining Wall

Just south of the Canadian Pacific Railway tracks, on the west side of Hansen Road, there is an existing multi-tiered wood retaining wall. The wall spans for approximately 375 feet and ranges in height from 2 feet to 10 feet. The wall was originally constructed in 1984. The wall is recessed into a wooded area. Many sections of the wall are deteriorated and have begun to show signs of failure.

DESIGN INPUT: <u>City Council</u>

2018 Pedestrian and Bicycle Master Plan

This plan, part of the 2018 Comprehensive Plan, was developed to guide the City's efforts to create a comprehensive pedestrian and bicycle network. As shown in Appendix B, there is a proposed sidewalk on Hansen Road between West 60th Street and Vernon Avenue, and on West 56th Street between Hansen Road and Code Avenue. Appendix C shows a proposed bike lane on Code Avenue between West 60th Street and Benton Avenue.

2015 Living Streets Policy

This policy balances the needs of motorists, pedestrians, bicyclists and transit riders in ways that promote safety and convenience, enhance community identity, create

economic vitality, improve environmental sustainability and provide meaningful opportunities for active living and better health. The City will apply the Policy to all street projects, including those involving operations, maintenance, new construction, reconstruction, retrofits, repaving, rehabilitation or change in the allocation of pavement space on an existing roadway. The Living Streets Plan includes 15 principles to guide implementation of the Policy, divided into four categories: All Users and All Modes, Connectivity, Context Sensitivity and Sustainability. Below is a summary of how these principles are incorporated into this project:

All Users and All Modes – This project will improve mobility and access to the transportation network for a variety of users, including pedestrians, cyclists, children, seniors and the disabled. Replacement of the pavement surfaces and traffic control signage will enhance safety and convenience for all users.

Connectivity – This project involves maintaining a transportation system that can accommodate all modes of travel. Existing right-of-way will be repurposed to provide new multimodal transportation facilities, which in combination with existing and planned facilities, will form a multimodal network within the neighborhood.

Context Sensitivity – Engineering strives to preserve and protect natural features within or adjacent to construction sites where feasible, including trees, waterways and sensitive slopes. Residents within the project area were invited to complete a questionnaire soliciting input on project design components, including multi-modal transportation, street lighting and local drainage problems.

Sustainability – Engineering works closely with Public Works to implement infrastructure improvements with consideration of lifecycle costs and future maintenance. The new roadway section can be easily maintained long-term with the use of proactive rehabilitation treatments, which will significantly extend the life of the pavement. Reductions in impervious surfaces benefit water quality and may lessen the demand for chemicals to manage snow and ice (such as chloride). Construction operations are required to use the smallest footprint necessary to complete the work; this includes utilizing trenchless technologies, such as pipe bursting or cured-in-place pipe liners. This project will also reduce inflow and infiltration of clean water into the sanitary sewer system, minimizing regional wastewater treatment, reducing the risk of sewage surcharges, and limiting the risk of back-ups to residential properties.

Relevant portions of the Living Streets Plan can be found in Appendix F.

2018 Comprehensive Water Resource Management Plan

The CWRMP identified multiple areas of flood inundation within the project area for both the 10-percent and 1-percent-annual-chance flood event (also referred to as the 10-year and 100-year frequency event, respectively). The first area is along Dale Avenue between Grove Street and West 56th Street (see Figure 2).

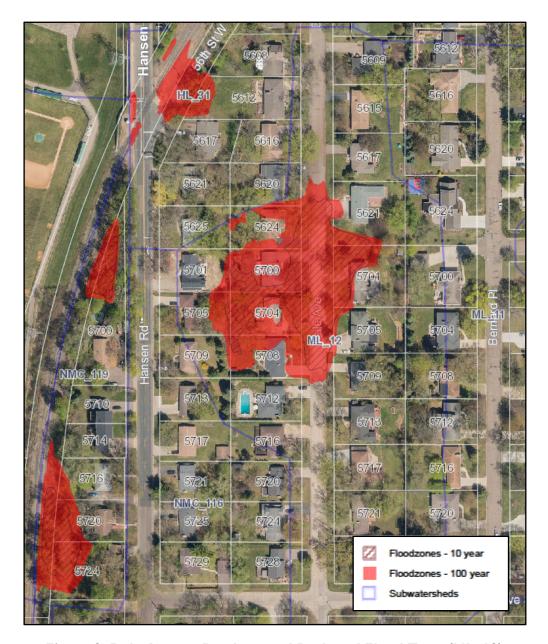

Figure 2: Dale Avenue Roadway and Backyard Flood Zone (ML 12)

This modeled inundation area impacts both the roadway and backyard sections of Dale Avenue. Approximately 9.5 acres of stormwater from the neighboring properties discharge to the City's storm sewer system that runs along West 57th Street, Code Avenue and eventually drains into Melody Lake. 5-7 structures on Dale Avenue could be impacted by the 10- and 100-year flood zones.

5603

Code Ave

Code Ave

Code Ave

Form

Solv

The second area is Melody Lake Drive adjacent to Melody Lake (see Figure 3).

Figure 3: Melody Lake Drive Backyard Flood Zone (ML 8)

Melody Lake and its 173-acre watershed primarily impact the backyards along lake. The Melody Lake storm sewer outlet is pumped to the MnDOT Highway 100 drainage system. This system flows north and ultimately discharges to Minnehaha Creek. The I-percent and I0-percent-annual-chance events could impact the structures at 5605 and 5609 Melody Lake Drive.

The third area was at the 5700 block of Hansen Road east of the CP Railway property (see Figure 4).

Figure 4: Hansen Road Backyard Flood Zone (NMC 119)

Two backyard depression areas collect 2.4 acres of stormwater from the neighboring properties and do not discharge to the City's storm sewer system. The 1-percent and 10-percent-annual-chance events could impact the structures at 5720 and 5724 Hansen Road.

The fourth area is at the intersection of Hansen Road and West 56th Street (see Figure 5).

Figure 5: Hansen Road/W. 56th Street Flood Zone (HL 31)

This modeled inundation area primarily impacts the roadway section of West 56th Street but could impact the structure at 5617 Hansen Road. Nearly 7 acres of stormwater from the neighboring properties discharge to the City's storm sewer system that runs along Hansen Road and discharges into the pond in Yancey Park.

HL 28 HL 29b 5520 Floodzones - 10 year Floodzones - 100 year

The fifth area is a pond and ballfield at Yancey Park (see Figure 6).

Figure 6: Yancey Park Flood Zone (HL 29b & HL 28)

These two areas are connected to the City's storm sewer system that runs along Warden Avenue and eventually drains into Hawkes Lake. Neither flood zone directly impacts a structure.

Potential manhole surcharging was also identified in the 1-percent and 10-percent-annual-chance events.

The sixth area is a backyard depression on the 5800 block of Hansen Road (see Figure 7).

Figure 7: Hansen Road Backyard Flood Zone (NMC 116)

A backyard depression area collects 1.6 acres of stormwater from the neighboring properties and there is an adjacent public storm sewer network. The 1-percent and 10-percent-annual-chance events do not appear to impact the structures at 5804 and 5808 Hansen Road.

<u>Staff</u>

Public Works

A draft engineering study was provided to the City's Public Works Department. They support installation of concrete curb and gutter, as well as replacement of deficient watermain components (including fire hydrants, gate valves and water services). They also recommend replacement of existing CMP storm sewer within the project area.

Police and Fire

A draft engineering study was provided to the City's Police and Fire Departments. The Fire Department supports watermain improvements, including adding fire hydrants as necessary to meet public safety standards. They noted that temporary fire hydrants should be of a consistent style for ease of access, that emergency access should always be maintained during construction and that drive widths and turn arounds should meet fire code.

Parks and Recreation

A draft engineering study was provided to the City's Parks and Recreation Department. They support improvements that promote non-motorized transportation to and from Yancey Park, but expressed concern about parking and traffic impacts during construction, as the park amenities are heavily used from early spring to late summer. Engineering staff will include Parks and Recreation in discussions about final design and will communicate with them before and during construction to minimize impacts to park facilities.

Edina Transportation Commission

Prior to the Edina Transportation Commission (ETC) regular meeting on October 22, 2020, a draft engineering study was provided for review.

Relevant minutes from the ETC meetings are included in Appendix G.

Residents

As part of the Engineering Department's practice of notifying residents 2-3 years prior to a potential reconstruction project, residents were invited to three open houses between September 2017 and September 2019. Materials from these meetings are available upon request.

Additionally, a virtual neighborhood informational presentation was posted on Better Together Edina in August 2020. Residents were notified of the virtual meeting and were able to directly ask questions to staff from the Better Together Edina website, as well as telephone and email. Materials from this presentation can be found in Appendix I.

On June 10, 2019, residents in Melody Lake A and Grandview A, were asked to complete a questionnaire, soliciting feedback on motorized and non-motorized transportation, street lighting and local drainage problems within the project area. The questionnaire was completed by 56 of 154 property owners, a return rate of 36%.

The following is a summary of feedback received from residents:

- 18 of 56 (32%*) were concerned or very concerned with the speed of traffic in the neighborhood; 38 (68%) were not concerned.
- 25 (45%) were concerned or very concerned with motorist behavior in the neighborhood; 31 (55%) were not concerned.
- 32 (57%) identified an unsafe intersection within the neighborhood.
- 32 (57%) walk, run, or jog in the neighborhood at least 2-3 times per week.

Engineering Study Melody Lake A&B/Grandview A/Birchcrest C Neighborhood Reconstruction BA-457 November 30, 2020

- 11 (20%) ride a bicycle in the neighborhood at least 2-3 times per week.
- 6 (11%) reported parking on the street at least 2-3 times per week; 22 (39%) reported parking on the street less than once per month.
- 19 (34%) identified localized drainage problems in the neighborhood.
- 3 (75%) reported their preference that no parking exist on either side of West 56th Street between Hansen Road and Dale Street based on responses of residents with properties abutting that street segment.

*Percentages based on number of returned surveys

Residents in Melody Lake B and Birchcrest C, were asked to complete a questionnaire in the summer of 2020, soliciting feedback on motorized and non-motorized transportation, street lighting and local drainage problems within the project area. The questionnaire was completed by 43 of 152 property owners, a return rate of 28%.

The following is a summary of feedback received from residents:

- 18 of 43 (42%*) were concerned or very concerned with the speed of traffic in the neighborhood; 25 (58%) were not concerned.
- 24 (56%) were concerned or very concerned with motorist behavior in the neighborhood; 19 (44%) were not concerned.
- 21 (49%) identified an unsafe intersection within the neighborhood.
- 39 (90%) walk, run, or jog in the neighborhood at least 2-3 times per week.
- 17 (40%) ride a bicycle in the neighborhood at least 2-3 times per week.
- 4 (9%) reported parking on the street at least 2-3 times per week; 30 (70%) reported parking on the street less than once per month.
- 12 (28%) identified localized drainage problems in the neighborhood.

 *Percentages based on number of returned surveys

The full questionnaires and responses can be found in Appendix H.

Relevant correspondence from residents regarding the project can be found in Appendix I.

PROPOSED IMPROVEMENTS:

The proposed improvements acknowledge many of the comments and concerns raised by residents throughout the information gathering process, while still maintaining the desired minimum standards of Engineering, Public Works and other City staff.

Roadways

Typical Section

The bituminous and concrete roadway sections are proposed to be completely reconstructed to the subgrade. The existing bituminous pavement and suitable aggregate material will be recycled for use as base material in the new roadway where feasible. The existing concrete pavement and aggregate base material will be removed. A minimum of 8" of aggregate base material will be graded and compacted as the base layer prior to placement of 2.5" of bituminous non-wear and 1.5" of bituminous wear course.

Unsuitable subgrade materials will be replaced as necessary to provide adequate support for the new roadbed. Significant subgrade removals are anticipated project wide, based on the preliminary soil boring reports prepared by Braun Intertec. The reconstructed sections will meet the requirements of a minimum 20-year pavement design life based on projected traffic loadings.

Hansen Road is designated as a Collector Street in the Living Streets Plan. However, Hansen Road is no longer a Municipal State Aid route, as it was in 2014 when the Living Streets classifications were originally created. Due to this change, it is more appropriate for Hansen Road to be classified as a Local Connector. This reclassification is also supported by the lack of proposed bicycle facilities along Hansen Road, which is a key difference between the Local Connector and Collector classifications. Per the Living Streets Plan's design guidelines, Local Connector Streets have a typical width of 24' (measured from the face of curb to the face of curb) with a 5' sidewalk on one side.

All remaining roadways within the project area are designated as Local Streets in the Living Streets Plan. Per this plan's design guidelines, Local Streets have a typical width of 27' (measured from the face of curb to the face of curb) without sidewalks or 24' with a 5' sidewalk on one side. The majority of the roadways are proposed to be reconstructed to 27'; West 56th Street between Hansen Road and Dale Avenue, is proposed to be reconstructed to 20' due to the proposed sidewalk (see Pedestrian Facilities below) and narrow right-of-way (see Right-of-Way section below).

Geometric Modifications

Designated left-turn and right-turn lanes are proposed to be constructed on Hansen Road at the 3-way intersection with Vernon Avenue. This improvement will increase the service level of the intersection for northbound traffic by providing separate queueing space for westbound and eastbound movements.

Parking

Per the Living Streets Plan, on-street parking should be evaluated based on classification, adjacent land uses, existing demand and costs of construction and maintenance. As Hansen Road is proposed to be reclassified as a Local Connector, and given the existing demand for parking adjacent to Yancey Park, staff believes that parking on both sides of Hansen Road between the CP Rail and Vernon Avenue is appropriate, as well as one-sided parking on the west side of Hansen Road between Grove Street and the CP Rail. As parking is preferred on the same side of the road as the sidewalk for pedestrian safety, the proposed location of the parking was determined by the location of the sidewalk (see Pedestrian Facilities section below). Staff recommends no parking on West 56th Street between Hansen Road and Dale Avenue given the proposed narrow street width. The existing and proposed roadway widths, sidewalk widths and parking recommendations are shown in Table I.

Street	Existing Roadway Width¹ (face to face), feet	Proposed Roadway Width (face to face), feet	Sidewalk Width, feet	Boulevard Width, feet	Parking
Bernard Place	31	27	-	-	Two-sided
Code Avenue	31	27	•	-	Two-sided
Dale Avenue	30	27	•	-	Two-sided
Eastview Drive	28	27	-	-	Two-sided
Grove Street	31	27	-	-	Two-sided
Hansen Road north of CP Rail	39	27	5	5	Two-sided
Hansen Road south of CP Rail	35-32	24	5	5	West side only
Josephine Avenue	29	27	-	-	Two-sided
Melody Lane	28	27	-	-	Two-sided
Melody Lake Drive	28	27	-	-	Two-sided
Tingdale Avenue	31	27	-	-	Two-sided
Windsor Avenue	29	27	-	-	Two-sided
West 56th Street Hansen - Dale	20	20	6	0	None
West 56th Street Dale - Code	30	24	5	5	South side only
West 57th Street	30	27	-	-	Two-sided
West 58th Street	31	27	-	_	Two-sided
West 59th Street	31	27	-	-	Two-sided

¹Existing roadway width is measured from edge of bituminous to edge of bituminous on streets with no curb and gutter

Table 1: Street Widths, Sidewalks and Parking

Canadian Pacific Railway

The railroad crossing surface will be replaced with an embedded concrete rubber crossing due to its poor condition. A contractor, selected by Canadian Pacific, will install the crossing in accordance with Federal Railroad Administration standards. The existing railroad signal system will not be modified.

Roadway Signage

All traffic signage within the project area, including street name blades, will be replaced to improve visibility and reflectivity (see Appendix E). All new signs will conform to the standards of the Manual on Uniform Traffic Control Devices (MUTCD).

Multi-Modal Transportation

Pedestrian Facilities

A 5' boulevard-style concrete sidewalk is proposed on the west side of Hansen Road between West 60th Street and Vernon Avenue. This sidewalk will connect to the existing sidewalks on Vernon Avenue, Benton Avenue and Hansen Road.

A 6' edge-of-road -style concrete sidewalk is also proposed on the south side of West 56th Street between Hansen Road and Dale Avenue. A 5' boulevard-style concrete sidewalk is proposed for 2021 construction on the south side of West 56th Street between Dale Avenue and Normandale Road. This sidewalk will connect to the proposed sidewalk on Hansen Road and to existing pedestrian facilities on Normandale Road. Figure 8 shows all existing and proposed pedestrian facilities.

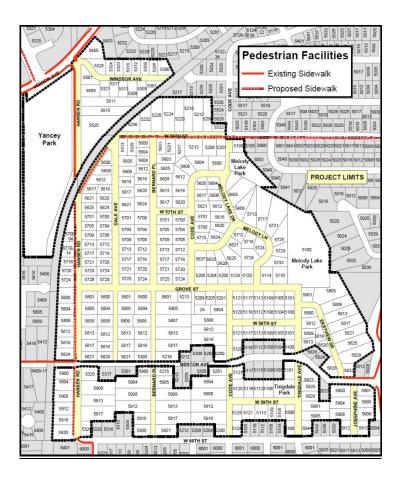

Figure 8: Existing and Proposed Pedestrian Facilities

Locations were selected by staff based on existing topography, connections to existing facilities and private utility conflicts. The grass boulevard that will separate the new curb and the proposed sidewalk along Hansen Road and West 56th Street, east of Dale Avenue, will be 5'-wide, but may vary depending on construction conflicts. The separation from vehicle traffic creates a more pedestrian-friendly environment and is preferred by Public Works for snow storage. The extra width needed for the sidewalk and boulevard will be balanced between both sides of the street, where feasible. The sidewalk on West 56th Street east of Code Avenue will be retrofitted behind the concrete curb and gutter within the available right-of-way. No boulevard will exist between the new curb and the proposed sidewalk along West 56th Street between Hansen Road and Dale Avenue due to the narrow right-of-way and existing conflicts.

All adjacent pedestrian curb ramps will be reconstructed to meet the current design standards of the Americans with Disabilities Act (ADA) and portions of the existing sidewalk will be reconstructed as necessary. The Hansen Road sidewalk adjacent to Yancey Park will be maintained by City staff, including snow plowing. As the remaining sidewalk segments are not along Municipal State Aid routes, adjacent to City property nor included in the City's Active Routes to School Plan, they will be maintained by the adjacent property owners.

Bicycle Facilities

As previously mentioned, the Pedestrian and Bicycle Master Plan recommends bike lanes on Code Avenue between Benton Avenue and West 60th Street. All the local streets south of the project area were reconstructed between 2015 and 2017 with no bicycle facilities, and Benton Avenue is not anticipated to receive bicycle facilitates in the next 5 years. Since bike lanes on these two blocks of Code Avenue would not connect to any other bicycle facilities in the neighborhood, they are not proposed to be constructed as part of this project.

Public Utilities

Sanitary Sewer

The sanitary sewer main has been televised, and portions will be repaired using a combination of open cut and cured-in-place-pipe (CIPP) methods. These repairs will address the issues of sags, cracks and groundwater infiltration into the sewer main. The manhole castings will also be removed and replaced to reduce inflow and infiltration of stormwater.

Watermain

Echologics, LLC was hired by the City to perform a non-invasive pipe condition assessment on the watermain within the project area, and staff has reviewed historical break data to determine the extent of improvements needed. All of the existing watermain, except for the 12" DIP from West 60th Street to Grove Street, will be replaced using a combination of pipe bursting, lining and open cut methods. Water service leads connected to replaced watermain will be replaced as well. All gate valves and fire hydrants within the project area will be replaced and, if needed, additional hydrants will be installed to meet current public safety standards. The new fire hydrants will include the Storz nozzle fittings desired by the Edina Fire Department for quick connection of fire hoses.

As part of the City's Wellhead Protection Plan, staff plans to engage property owners who have unsealed private wells and encourage them to have them properly sealed.

Storm Sewer

Based on existing conditions and the scope of utility work, new concrete curb and gutter will be installed throughout the project, providing a continuous, functional conduit for stormwater. The storm sewer network will have modifications to resolve existing drainage issues at various locations throughout the neighborhood. Some of the existing structures will be removed and replaced due to their poor condition. Sump drains will be installed where feasible to allow property owners to connect their sump pump discharges directly into the storm sewer system.

The 2018 Comprehensive Water Resources Management Plan recommended that the storm sewer system be upgraded to protect the structure at 5701 Dale Avenue from flooding during the 100-year frequency storm event. Staff is evaluating the feasibility of upsizing the existing pipe between Dale Ave and Code Ave.

Staff will communicate and coordinate with adjacent property owners as necessary.

Private Utilities

Staff met with representatives of several private utility companies on October 28, 2020 to discuss the proposed 2021 reconstruction projects and preliminary improvements. Portions of the private utility networks may receive upgrades prior to construction; however, this work is not part of the City's project. Currently, the City does not have a standard to determine where and when street lighting should be improved. Unlike other infrastructure improvements, lighting can be installed at a later date with minimal disturbance through the use of trenchless technologies. The lighting in the neighborhood is sufficient to delineate the intersections; therefore, staff is recommending no revisions to the current street lighting.

Hansen Road Retaining Wall

Staff has determined that due to the wall condition and to accommodate the proposed boulevard and walk along Hansen Road, the existing Hansen Road retaining wall will need to be replaced. Staff has retained Gale-Tec Engineering, Inc to provide replacement wall design options. Three options were provided and evaluated. Based on lower wall costs and lack of wall visibility, Staff proposes that a hybrid Geogrid Reinforced Big Block Wall and Reinforced Soil Slope be constructed to replace the existing wall. Gale-Tec Engineering, Inc's full report can be viewed in Appendix K.

RIGHT-OF-WAY/ EASEMENTS:

Existing right-of-way in this neighborhood varies from 40' to 60'. It is anticipated that the majority of this project can be constructed within existing ROW. Many properties have vegetation, boulders or other landscaped items within the right-of-way. A portion of these landscape items will interfere with some of the proposed infrastructure improvements and will need to be removed to complete the necessary work.

A ROW permit from Hennepin County will be required for work that will occur at Hansen Road and Vernon Avenue.

CP Railway signed separate permit agreements with the City that authorized the installation and maintenance of storm sewer and raw watermain within CP Railway right-of-way in 1984 and 2014, respectively. The City and CP Railway must enter into a new permit agreement to improve the existing 12" CIP watermain within CP Railway right-of-way. A ROW permit from CP Railway will be required for roadway and crossing surface work that will occur at Hansen Road and West 56th Street.

PROJECT COSTS:

The total estimated project cost is \$16,361,168 (see Table 2). The total cost includes direct costs for engineering, clerical and construction finance costs from the start of the project to the final assessment hearing.

Item	Amount	Total Cost	Funding Source
Roadway Total:		\$7,200,468	Special Assessments
Sanitary Sewer	\$1,051,460		
Watermain	\$3,611,430		
Storm Sewer	\$3,764,260		
Utility Total:		\$8,427,150	City Utility Funds
Hansen Wall	\$228,658		
Hansen Rd Walk	\$236,678		
W 56th St Walk West of Code Ave	\$118,339		
W 56th St Walk East of Code Ave	\$149,875		
Sidewalk Total:		\$733,550	PACS Fund
Project Total:		\$16,361,168	

Table 2: Estimated Project Costs

ASSESSMENTS:

Assessments will be levied against the benefiting adjacent properties pursuant to Chapter 429 of the Minnesota State Statues. Based on the City's Special Assessment Policy, there are **297.54** roadway residential equivalent units (REUs) in the Melody Lake A&B / Grandview A / Birchcrest C project area. The estimated assessment per REU is **\$24,200** (see Figure 9). The preliminary assessment role can be found in Appendix L.

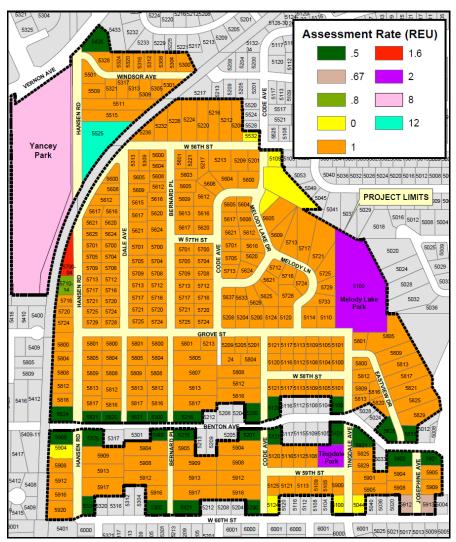

Figure 9: Preliminary Roadway Assessment Map

All single-family residential properties located entirely within the project area receive an assessment of I REU, except for the properties shown in the tables below.

There are 33 single-family residential properties located in the project limits that have been previously assessed a partial REU or are corner lots with an adjacent street that will be assessed with a future project. Tables 3 & 4 show their REU calculations based on the City's assessment policy.

PROJECT SCHEDULE:

The following schedule outlines the past and future tasks to be performed related to the project:

Neighborhood Open House (all 2019/2020 projects)	September 25, 2017
Neighborhood Open House (all 2020/2021 projects)	September 24, 2018
Neighborhood Informational Meeting (all 2020 projects)	August 12, 2019
Neighborhood Informational Video Presentation (all 2021 projects)	August 26, 2020
ETC Engineering Study Review	October 22, 2020
Receive Engineering Study	December 7, 2020
Open Public Improvement Hearing	December 7, 2020
Close Public Improvement Hearing	December 9, 2020
Public Improvement Hearing Council Decision	December 15, 2020
Bid Opening	March/April 2021
Award Contract/Begin Construction	Spring 2021
Complete Construction	Fall 2021
Final Assessment Hearing	October 2022

RECOMMENDATION:

Staff believes the project can be completed during the 2021 construction season, assuming an efficient replacement of gas main and services schedule by CenterPoint Energy. Staff believes the construction of this project is feasible, cost effective and necessary to improve the public infrastructure in the Melody Lake A&B/Grandview A/Birchcrest C neighborhood.

Living Streets Plan

Living Streets Plan 2015

our streets connect us all

2. Living Streets Policy

INTRODUCTION

The Living Streets Policy was developed to provide the framework for a Living Streets Plan. The policy initially stood alone and included sections to guide the creation of the Living Street Plan. This revised policy is now an integral part of the Living Streets Plan.

The Living Streets Policy ties directly to key community goals outlined in the City's 2008 Comprehensive Plan. Those goals include safe walking, bicycling and driving; reduced storm water runoff, reduced energy consumption, and promoting health. The Living Streets Policy also compliments voluntary City initiatives such the "do.town" effort related to community health, Tree City USA and the Green Step Cities programs related to sustainability. In other cases, the Living Streets Policy will assist the City in meeting mandatory requirements set by other agencies.

The Living Streets Policy is broken up into three parts: Vision, Principles and Implementation. The Policy is followed by a description of core services provided by the City of Edina that are related to or implemented in part through Living Streets.

Mini Fact

Expect cyclists on the road. Watch for cyclists on the road. Treat them as you would any slow-moving vehicle.

POLICY

Living Streets balance the needs of motorists,

bicyclists, pedestrians and transit riders in ways that promote safety and convenience, enhance community identity, create economic vitality, improve environmental sustainability, and provide meaningful opportunities for active living and better health. The Living Streets Policy defines Edina's vision for Living Streets, the principles Living Streets will embody, and the plan that will guide implementation of their construction.

LIVING STREETS VISION

Edina is a place where ...

- Transportation utilizing all modes is equally safe and accessible;
- Residents and families regularly choose to walk or bike;
- Streets enhance neighborhood character and community identity;
- Streets are safe, inviting places that encourage human interaction and physical activity;
- Public policy strives to promote sustainability through balanced infrastructure investments;
- Environmental stewardship and reduced energy consumption are pursued in public and private sectors alike; and
- Streets support vibrant commerce and add to the value of adjacent land uses.

LIVING STREETS PRINCIPLES

Fifteen principles guide implementation of the Living Streets Policy in the areas of all users and all modes, connectivity, context sensitivity and sustainability. The City will incorporate these principles when planning for and designing the local transportation network and when making public and private land use decisions.

All Users and All Modes

Principle 1: Living Streets are high-quality transportation facilities that meet the needs of the most vulnerable users such as pedestrians, cyclists, children, seniors and

the disabled; and

Principle 2: Living Streets provide access and mobility for all transportation modes while

enhancing safety and convenience for all users.

Connectivity

Principle 3: The City designs, operates and maintains a transportation system that provides

a highly connected network of streets that accommodate all modes of travel;

Principle 4: The City seeks opportunities to overcome barriers to active transportation by

preserving and repurposing existing rights-of-way and adding new rights-of-way to enhance connectivity for pedestrians, bicyclists and transit;

The City prioritizes improvements to non-motorized connections to key

destinations such as public facilities, public transit, the regional transportation

network and commercial areas;

Principle 6: The City will require new developments to provide interconnected street and

sidewalk networks that connect to existing or planned streets or sidewalks

on the perimeter of the development; and

Principle 7: Projects will include consideration of the logical termini by mode. For

example, the logical termini for a bike lane or sidewalk may extend beyond the traditional limits of a street construction or reconstruction project, in order to

ensure multimodal connectivity and continuity.

Context Sensitivity

Principle 5:

Principle 8: Living Streets are developed with input from stakeholders and designed to

consider neighborhood character and promote a strong sense of place;

Principle 9: Living Streets preserve and protect natural features such as waterways, urban

forest, sensitive slopes and soils;

Principle 10: Living Streets are designed and built with coordination between business and

property owners along commercial corridors to develop vibrant commercial

districts:

Principle 11: Living Streets coordinate with regional transit networks and regional

authorities; and

Principle 12: The City will consider the fiscal context of projects and potential financial

impacts when implementing Living Streets at the project level.

Sustainability

Principle 13: Living Streets will improve the current and future quality of life of the public,

Principle 14: Living Streets will reduce environmental impacts associated with the

construction and operation of roadways; and

Principle 15: The City will increase the life span and resilience of its infrastructure and will

build infrastructure with consideration for lifecycle costs and ease

of maintenance.

LIVING STREETS IMPLEMENTATION

The City of Edina will develop Living Streets in the regular course of business of maintaining, expanding or redeveloping the road network and will be guided by the Vision and Principles established above. Implementation will happen predominantly through the neighborhood street reconstruction program, but also though specific stand-alone stormwater utility, pedestrian, bicycle or safety projects.

Project prioritization is not specifically part of the Living Streets Plan. Prioritization of projects takes place in the City's Capital Improvement Program and Budget and is determined by the City Council with guidance from the Living Streets Vision and Principles.

The City will actively promote and apply the Living Streets Policy and Plan by:

- Applying the Living Streets Policy and Plan to all street projects, including those involving
 operations, maintenance, new construction, reconstruction, retrofits, repaving, rehabilitation or
 changes in the allocation of pavement space on an existing roadway. This also includes privately
 built roads, sidewalks, paths and trails.
- Drawing on all sources of transportation funding and actively pursuing grants, cost-sharing opportunities and other new or special funding sources as applicable.
- Through all City departments supporting the vision and principles outlined in this Plan in their work.
- By acting as an advocate for Living Streets principles when a local transportation or land use decision is under the jurisdiction of another agency.

Projects that implement Living Streets will be guided by pedestrian and cyclist network plans and roadway classifications and will consider the physical, social, ecologic, regulatory and economic context in a given project area.

The project delivery system used to build Living Streets will:

- Systematically engage Edina residents and project stakeholders to better inform project-level recommendations.
- Keep Edina residents and project stakeholders informed about Living Streets and the range of services they help provide.
- Follow minimum Living Streets design requirements and standards.
- Manage construction impacts to residents and users of streets.

Network

The creation of a Living Streets network of road, pedestrian and bicycle facilities provides mobility, accessibility and access to people, places and spaces. The resulting interconnection of neighborhoods links people to goods and services and to one another, and increases quality of life for those who live in, work in, or visit the city.

Existing and planned transportation networks are identified in the City of Edina Comprehensive Plan and other approved/adopted plans. Network plans include:

- Roadway Network (Functional Classification, Jurisdictional Classification)
- Sidewalk Facilities
- Bicycle Facilities (Comprehensive Bicycle Transportation Plan)
- Active Routes to School Comprehensive Plan
- Transit Service

Network plans are approved by the City Council. In most cases, modification requires an amendment of the Comprehensive Plan.

The expansion, creation and improvement of pedestrian and bicycle networks will be well planned and prioritized:

- Expansion of existing networks and providing connections to key traffic generators or destinations
 provide immediate benefit to all network users and is a top priority.
- Network connections serving vulnerable users such as children, seniors and the disabled are a top
 priority.
- Network connections serving high-volume uses such as schools, retail destinations or regional public transit are a top priority.

Context

Contextual variety can either constrain or create opportunity in roadway and other infrastructure projects. The following are contexts that will be considered and will influence the planning, design and implementation of Living Streets.

	CONTEXTS OF L	IVING STREETS			
	Water resource	e, ponds, wetlands, lakes, streams			
	Natural resouce	es, trees, and urban forest			
Ecological	Air quality				
	Climate				
	Sun and shade				
	Materials, waste, energy, sustainability				
Regulatory	State Aid roadway				
Regulatory	Watershed rule	es			
Operational	Maintenance o	perations			
Operational	Traffic control o	or functional constraints			
		Neighborhood street reconstruction			
	Public	Neighborhood street reconstruction with maj associated utility work			
		State Aid street reconstruction			
		Stand-alone sidewalk, bicycle or utility projec			
Project Type		State			
	Public	County			
	partner lead	Transit agency			
		Parks district			
	Private	Will remain private			
	development	Future public			

Exceptions

Living Streets principles will be included in all street construction, reconstruction, repaying and rehabilitation projects, except under one or more of the conditions listed below. City staff will document proposed exceptions as part of a project proposal.

A project involves only ordinary maintenance activities designed to keep assets in serviceable
condition, such as mowing, cleaning, sweeping, spot repair, concrete joint repair or pothole filling,
or when interim measures are implemented on a temporary detour. Such maintenance activities,
however, shall consider and meet the needs of bicyclists and pedestrians.

- The City exempts a project due to an excessively disproportionate cost of establishing a bikeway, walkway or transit enhancement as part of a project.
- The City determines that the construction is not practically feasible or cost effective because of significant or adverse environmental impacts to waterways, flood plains, remnants or native vegetation, wetlands or other critical areas.
- Available budget is constrained or project timing allows more efficient construction at a later date.

Engagement

Members of the public have an interest in understanding and providing input for public projects. Project recommendations will be developed with a transparent and defined level of public engagement. The public will have access to the decision-making process and decision makers via public meetings and other correspondence and will be provided the opportunity to give input throughout the process. Project reports will discuss how their input helped to influence recommendations and decisions. The City of Edina's Living Streets will continue to engage and solicit public input as a vital component of the project implementation process. See Chapter 5 for a more detailed discussion regarding the purpose of and opportunities for public engagement.

Design

The guidelines contained in the Living Streets Plan will be used to direct the planning, funding, design, construction, operation and maintenance of new and modified streets, sidewalks, paths and trails. The guidelines allow for context-sensitive designs.

The Design Guidelines (see Chapter 6):

- Keep street pavement widths to the minimum necessary.
- Provide well-designed pedestrian accommodation in the form of sidewalks or shared-use pathways on all arterial, collector and local connector streets. Sidewalks shall also be required where streets abut a public school, public building, community playfield or neighborhood park. Termini will be determined by context.
- Provide frequent, convenient and safe street crossings. These may be at intersections designed to be pedestrian friendly, or at mid-block locations where needed and appropriate.
- Provide bicycle accommodation on all primary bike routes.
- Allocate right-of-way for boulevards.
- Allocate right-of-way for parking only when necessary and not in conflict with Living Streets principles.
- Consider streets as part of our natural ecosystem and incorporate landscaping, trees, rain gardens and other features to improve air and water quality.

The Design Guidelines in this Plan will be incorporated into other City plans, manuals, rules, regulations and programs as appropriate. As new and better practices evolve, the City will update this Living Streets Plan. Minimum standards will guide how vehicular, pedestrian and bicycle networks interact and share public right of way.

Benchmarks and Performance Measures

The ability to measure the performance of a plan, as well as knowing that it is functioning as it is intended, is vitally important to overall success and the ability to sustain it. With this in mind, the City will monitor and measure its performance relative to the Living Streets Policy. Benchmarks that will demonstrate success include:

Every street and neighborhood is a comfortable place for walking and bicycling.

This does not mean that every street in the city will have walking and biking facilities. It means that each neighborhood will provide a network of these facilities such that walking and biking to and through neighborhoods is a comfortable experience.

Every child can walk or bike to school or a park safely.

It is essential that alternatives to driving to school or parks be provided to children and their caregivers. These alternatives – walking or bicycling – will be both safe and convenient modes of transportation. See the Edina Active Routes to School Plan for more information.

Seniors, children, and disabled people can cross all streets safely and comfortably.

Opportunities to cross all streets in Edina, including local, collectors and arterial streets, will be provided. These crossings will be safe and comfortable for all users, regardless of age or ability.

An active way of life is available to all.

Opportunities for active living should be made available to all members of the Edina community by connecting centers of activity via active, multimodal transportation. Each resident of and visitor to Edina will have the ability to lead an active way of life.

There are zero traffic fatalities or serious injuries.

Perhaps the ultimate safety benchmark is zero traffic fatalities or serious injuries. Modeled from the Vision Zero Initiative (www.visionzeroinitiative.com), an aspirational yet primary goal of Living Streets is to achieve this high level of safety on the City's roadways.

Reduce untreated street water flows into local waterways and reduce storm water volume.

Cost-effective stormwater best management practices (BMPs) are strategically selected to go above and beyond regulatory requirements to provide for flood protection and clean water services through the use of infrastructure that retains, settles, filters, infiltrates, diverts or reduces the volume of stormwater that flows to local surface waters.

Retail streets stay or become popular regional destinations.

Part of Edina's Living Streets vision is that "streets support vibrant commerce." While most of the city's streets are residential, Edina's business districts are a vital part of the community. The benefits of Living Streets extend to retail streets as well, making them more attractive to businesses and consumers alike.

The City will draw on the following data to measure performance:

- Number of crashes or transportation-related injuries reported to the Police Department.
- Number and type of traffic safety complaints or requests.
- Resident responses to transportation related questions in resident surveys.
- Resident responses to post-project surveys.
- The number of trips by walking, bicycling and transit (if applicable) as measured before and after the project.
- Envision ratings from the Institute for Sustainable Infrastructure.
- Additional performance measures may be identified as this Policy is implemented.

Mini Fact

Motorists must stop behind all crosswalks.

APPENDIX G

Edina Transportation Commission Meeting Minutes

Minutes City Of Edina, Minnesota Transportation Commission WebEx October 22, 2020

I. Call To Order

Chair Richman called the meeting to order at 6:05 p.m.

II. Roll Call

Answering roll call were Commissioners Ahler, Johnson, Lafferty, McCarthy, Richman, Clark, Khariwala. Late: Commissioners Kane, Plumb-Smith, Scherer, Atri Staff present: Transportation Planner Andrew Scipioni, Project Engineer Charlie Gerk, Assistant City

Engineer Aaron Ditzler

III. Approval Of Meeting Agenda

Motion was made by Commissioner Ahler and seconded by Commissioner McCarthy to approve the agenda. All voted aye. Motion carried.

IV. Approval Of Meeting Minutes

Motion was made by Commissioner Ahler and seconded by Commissioner McCarthy approving the September 17, 2020 meeting minutes. All voted aye. Motion carried.

Commissioner Kane arrived at 6:10.

Commissioner Plumb-Smith arrived at 6:12.

Commissioner Atri arrived at 6:14.

Commissioner Scherer arrived at 6:35.

V. Reports/Recommendations

A. 2021 Roadway Reconstruction Projects

Project Engineer Charlie Gerk and Assistant City Engineer Aaron Ditzler presented the draft engineering studies for the proposed 2021 roadway reconstruction projects. The following comments were made:

Melody Lake A&B/Grandview A/Birchcrest C

- In response to a question, staff clarified that the proposed 5' sidewalk width for Hansen Road is the City's standard sidewalk width.
- In response to a question, staff explained that bike lanes on Code Avenue are not proposed as part of this project as the neighborhood to the south was recently reconstructed without bike lanes and Benton Avenue does not yet have a dedicated bike facility.
- In response to a question, staff noted that no pedestrian or bicycle facility is proposed adjacent to Tingdale Park.
- Tingdale Avenue connects between Melody Lake Park and Tingdale Park.

- In response to a question, staff noted that a proposed shared-use path is anticipated for Benton Avenue in the next 5 years.
- o A bike facility should be considered for Hansen Road to connect to Yancey Park.
- The proposed 27' street width only provides one travel lane if vehicles are parked on both sides; this is not in the benefit of safety.
- In response to a question, staff explained that a topographic survey was conducted within the project area to aid in designed the project and that presentations were provided to property owners within the project area.

Creek Knoll A/B

- The City should consider upgrading the pedestrian bridge over Minnehaha Creek at Beard Avenue to be ADA-compliant as part of a future reconstruction project in the neighborhood south of the creek.
- In response to a question, staff noted they have discussed the proposed sidewalk on Beard Avenue with the property owner of 3501 West 54th Street. It was noted that the house at this property is very close to the property line.
- In response to a question, staff noted that a proposed sidewalk on the east side of France Avenue between Fuller Street and West 57th Street may be included with the reconstruction project or may be constructed as a separate project in the same year.
- The proposed sidewalk on the east side of France Avenue between Fuller Street and West 57th Street will be a great addition.

B. Traffic Safety Report of September 29, 2020

The Commission reviewed the Traffic Safety Report of September 29, 2020.

Motion was made by Commissioner Johnson and seconded by Commissioner Lafferty to approve the Traffic Safety Report of September 29, 2020. All voted aye. Motion carried.

C. Local Speed Limit Update

Staff Liaison Scipioni provided the Commission with a brief update on the City's local speed limit evaluation, including public engagement opportunities and review schedule.

D. 2020 Work Plan Updates

- #I CloverRide Commissioner Ahler will take over as lead Commissioner. Staff has reached out to residential properties in Southdale to market available on-demand service.
- #2 Traffic Impact Studies 6600 France and 7001 France have submitted formal applications; staff will share associated traffic impact studies next week for review and comment.
- #3 Travel Demand Management Staff will present draft policy in November for review and comment.
- #4 TIS Framework Staff has drafted five components; Estimated Trip Generation, Capacity Analysis, Parking Analysis, Multi-Modal Facilities, and TDM Plan.
- #5 Educational Activities— #TransportationTuesday posts continue on Facebook and Instagram; Commissioners were asked to like and share posts to expand reach.

- #6 Traffic Safety Reports Commissioner Richman requested staff note on the monthly work plan progress report when the Commission makes recommendations on these reports.
- #7 CIP/PACS Commission reviewed the 2021 roadway reconstruction projects; the PACS equity criteria will be reviewed in November.

Commissioner Clark left at 7:30.

E. 2021 Work Plan Update

Commissioner Richman provided a recap of the October 7 City Council work session. Staff Liaison Scipioni noted that the Planning Commission proposed some initiatives that may involve the Transportation Commission, including a planning study for the Cahill Industrial Park and review of zoning ordinances related to drive-thrus and on-street parking regulations. Scipioni also noted that City Manager Scott Neal will present all Commission work plan proposals to City Council at their November 4 work session. Commissions can call in to listen to this meeting.

Commissioner Scherer left at 7:48.

F. Proposed 2021 Regular Meeting Dates

Staff Liaison Scipioni noted that October 2021 regular meeting date approved by the Commissioner last month coincides with the start of the Minnesota Educator Academy (MEA) conference that year (Thursday, October 21.)

Motion was made by Commissioner Lafferty and seconded by Commissioner Kane to move the proposed October 2021 regular meeting date to October 28. All voted aye. Motion carried.

VI. Chair and Member Comments

A. Street Funding Task Force Update

Commissioner Sherer was absent at this point in the meeting; no update provided.

Commissioner Ahler invited Commissioners to a candidate forum for City Council Sunday sponsored by the Morningside neighborhood.

Commissioner Johnson requested that the Commission have access to more detailed crash data than what is currently presented in the monthly Traffic Safety Reports.

Commissioner Kane noted that the data included in the monthly Traffic Safety Reports should be used to set City goals and support data-driven decisions. Kane also asked if staff could apply the draft PACS equity criteria to projects currently being proposed or designed.

Commissioner Richman expressed interest in applying the draft PACS equity criteria to upcoming projects. Richman also noted that the West 58th Street reconstruction project is still on-going and asked about the City's level of oversight on the project.

VII. Staff Comments

- The 2020 sidewalk projects are substantially completed.
- The West 58th Street sidewalks are mostly complete, and the street is paved west of France Avenue.
- City ordered new bike racks for Edina Liquor Store at 50th & France, will likely be installed next spring.
- Engineering staff will meet with SRF tomorrow to discuss the status of their Safe Routes to School study for Highlands, Cornelia and Creek Valley schools.
- Engineering staff intends to apply for grant funding for EV infrastructure through MnDOT's Clean Transportation Pilot Program.

VIII. Schedule of Meeting and Events as of October 16, 2020

For information purposes only, no discussion.

Commissioner Lafferty left at 8:05.

IX. Adjournment

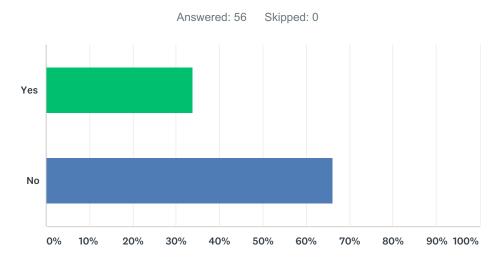

Motion was made by Commissioner Ahler and seconded by Commissioner Plumb-Smith to adjourn the October 22, 2020 meeting at 8:05 p.m. All voted aye. Motion Carried.

APPENDIX H

Resident Questionnaires

Q1 Does your property have drainage issues the City should know about? Examples: History of flooding/standing water, grading, backyard drain, nuisance sump pump, etc.

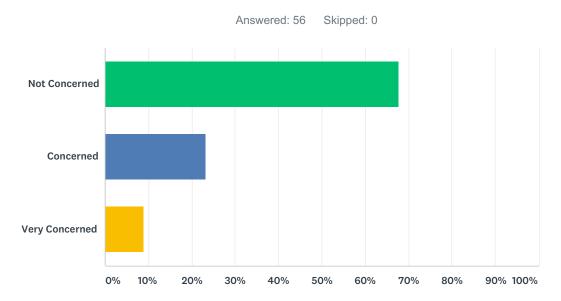

ANSWER CHOICES	RESPONSES	
Yes	33.93%	19
No	66.07%	37
TOTAL		56

#	PLEASE COMMENT ON THE TYPES PROBLEMS YOU HAVE:	DATE
1	Our driveway (5616 Melody Lake Drive) has a very low grade from the garage to the street, so low that we worry if the new road is higher water will back up into our house. We've discussed this with street surveyors and via email with Aaron at the city. Also, to complicate matters, several of our neighbor's yards drain significantly into ours and out our driveway in the spring.	8/25/2019 11:14 AM
2	We are concerned about the damage your plan would do to our water & gas mains and the damage to our curbs and the damage to our property generally. I understand that your plan would an assess us with a BIG tax bill for this!	7/27/2019 11:27 AM
3	backyard drain	7/20/2019 4:43 AM
4	Corner of code & MLDR - going into the pond.	7/10/2019 9:45 AM
5	I have a flat lot & in ground basement. Sump pump added 30 years ago which keeps house dry.	7/10/2019 9:42 AM
6	We have standing water at the end of our driveway that continues to deteriorate our driveway and our front lawn. The water is minimal 6 feet in length each rainfall.	7/4/2019 11:14 AM
7	our property is the lowest in our area, our neighbors rain / snow run into ours - back yard only	7/3/2019 6:21 AM
8	I think the city already knows as it's really a part of the street and not my property. The issue is the snow melt or heavy rain as it drains downward on Melody Lake Drive from Code and the erosion that occurs.	6/25/2019 8:12 AM
9	We have some flooding in our backyard with standing water. The location of our house means that much of the water from the higher elevated homes flow through our yard to get to Melody Lake. This causes issues with standing water in our backyard (our basement has not flooded yet) and severe problems with ice build up in the late winter/ early spring problems. The ice builds up on our driveway and street, making it difficult to drive.	6/17/2019 3:05 AM
10	Sump pump runs constantly in wet weather. The old timers in the neighborhood claim an underground stream runs through the property.	6/16/2019 6:48 PM

Melody Lake A/Grandview A Neighborhood Roadway Reconstruction Resident Questionnaire

11	Heavy rain down Melody Lake Drive washes out gardens and south side towards lake.	6/16/2019 4:58 AM
12	5724 hansen road. water runs down the road but driveway curb isnt tall enough to prevent water from bending into driveway and down side of house to back yard.	6/15/2019 5:02 AM
13	Basement flooded this spring due to grading issues	6/14/2019 7:31 AM
14	We have grading in front & back as well as drain tile all they way down. When it rains heavily &/or for day sump pump runs a lot.	6/13/2019 8:39 AM
15	standing water in the back yard and at the end of the driveway. had water flood into the basement this spring due to grading issues.	6/10/2019 4:32 PM
16	Standing water backyard	6/10/2019 3:50 PM
17	at end of driveway, rain water rushing down the street pools on each side of the driveway and kills whatever grass we plant there	6/10/2019 7:58 AM
18	We had to install a drainage field and French drain system to prevent rain runoff basement flooding.	6/10/2019 6:21 AM
19	When Minnehaha creek floods the water table rises so that I get water in my basement.	6/10/2019 4:50 AM
20	During HEAVY rains, we do get a little water in the southwest (front left) corner of our basement.	6/10/2019 3:06 AM

Q2 How concerned are you with the speed of traffic in your neighborhood or on your street?

ANSWER CHOICES	RESPONSES	
Not Concerned	67.86%	38
Concerned	23.21%	13
Very Concerned	8.93%	5
TOTAL		56

18	In front of my home	6/10/2019 3:06 AM	
#	WHY IS IT AN ISSUE OF CONCERN?	DATE	
1	See Above!	7/27/2019 11:27 AM	
2	Hansen road has became a major thoroughfare with huge construction trucks going by all day long. Along with regular traffic that is driving well above the posted 30mph speed limit. Garden park is across the street and many residents walk, bike, jog, skate, etc to and from the park on Hansen road next to the speeding and careless drivers.	7/20/2019 5:37 AM	
3	speed of cars	7/14/2019 7:25 AM	
4	Cars speed on Code (no stop sign at W. 56th St) and cars something only slow down for stop sign (not full stop)	7/14/2019 7:18 AM	
5	Kids playing the yards, people walking & with dogs, curved street	7/3/2019 6:21 AM	
6	Three-way intersection with two lanes coming down hills.	6/29/2019 11:38 AM	
7	Cars tunr off Vernon, speed over tracks up to Benton and vice versa (often well over 40mph)	6/18/2019 9:16 AM	
8	there should be a stop sign at grove and hansen. every winter i watch dozens of cars slide down grove while cars speed down hansen. difficult to back out of driveway because people are easily	6/15/2019 5:02 AM	

going 40mph

Melody Lake A/Grandview A Neighborhood Roadway Reconstruction Resident Questionnaire

9	too many cars park around corner & no stop sign, people zoom around parked cars & I have little kids.	6/13/2019 8:39 AM
10	That part of code is downhill and cars are often seen speeding down Code and Melody Lake	6/12/2019 6:19 AM
11	cars speed going down hill	6/11/2019 5:57 AM
12	people speed very quickly between these roads and with no sidewalks it can be scary to walk on the road or have my kids play in the front yard	6/10/2019 4:32 PM
13	Kids in and out of park garden	6/10/2019 3:50 PM
14	People drive at a high rate of speed through this area and there is somewhat of a blind hill that has caused cars to come upon pedestrians at a high rate of speed and with little time to slow down.	6/10/2019 11:44 AM
15	Many drivers do not stop at stop sign - cars traveling north on Code up the hill from Melody Lake can not be seen from the intersection. Have seen a number of very near misses.	6/10/2019 6:21 AM
16	Because it's downhill and cars pick up a lot of speed coming down the hill.	6/10/2019 5:28 AM
17	Curve in 56th St & parking for group homes make it hard to see oncoming traffic.	6/10/2019 4:50 AM
18	It's the bottom of a slope, we're at the bottom	6/10/2019 3:06 AM

Q4 How concerned are you with the volume of traffic or the number of vehicles in your neighborhood or on your street?

ANSWER CHOICES	RESPONSES	
Not Concerned	83.93%	47
Concerned	12.50%	7
Very Concerned	3.57%	2
TOTAL		56

Q5 If concerned or very concerned, please enter the location(s) and describe why you feel that way.

Melody Lake A/Grandview A Neighborhood Roadway Reconstruction Resident Questionnaire

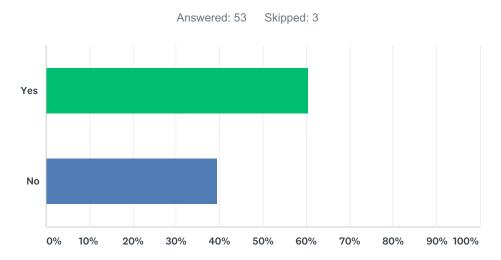

4	People drive thru Hansen & Benton all the time. Or roll thru barely stopping. In Garden Park, young drivers are often doing donuts, goofing off, buying drugs, smoking and drinking in the woods, etc. It gets scary when they get out on Hansen & gun it up to Benton. Also the intersection of Hansen & W56th street is quite scary. Granted it is hard to see from W56th street onto Hansen, but drivers often pull right out onto Hansen. Many drivers going north on Hansen turn right onto W56th without signaling or slowing down. W56th street is very narrow and people drive very fast along there. My biggest concern with that is my son no longer gets picked up by the bus in front of our house. Now he has to walk to W56th street & Bernard place to catch the bus. I'm very concerned a driver won't see him in the early hours or during rain or snow. It seems like an accident waiting to happen.	7/20/2019 5:58 AM

Neighborhood Reconstruction Survey

SURVEY RESPONSE REPORT

30 January 2019 - 10 August 2020

PROJECT NAME:

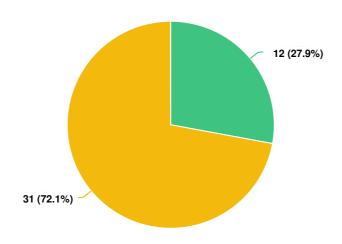

Melody Lake A & B, Birchcrest C and Grandview A Neighborhood Roadway Reconstruction

Neighborhood Reconstruction Survey: Survey Report for 30 January 2019 to 10 August 2020

Q1 Does you property have drainage issues the City should know about? Examples: History of flooding/standing water, grading, b...

Question options

YesNo

Mandatory Question (43 response(s))
Question type: Radio Button Question

Q2 Please comment on any drainage issues.

grading issue resulting in standing water in back yard with heavy rains

Standing water in my backyard and side yard after major rains & spring snow melt

Spring snow melt causes our sump pump to operate heavily each year for 4-5 weeks

Grading isn't great in front of front door, some standing water occasionally on the benton side

It's not really an issue and I've never personally had a problem yet (knock on wood) ince a previous owner installed drain tile and sump pump but it is still something that is on my mind.

Standing water in a flat area below a hillside whenever there's a hard rain. Especially bad in the spring.

The street area adjacent to edge of our driveway (and into our driveway) always fills with water after a significant rain or snowmelt. We call it "Lake Eastview" as the pool of water collects and has nowhere to drain to.

curb is not high enough, so road water flows onto and down our driveway often flooding back yard

Winter Thaw drainage issues that happens all along the backyards on my street that have backed up into my basement in the past.

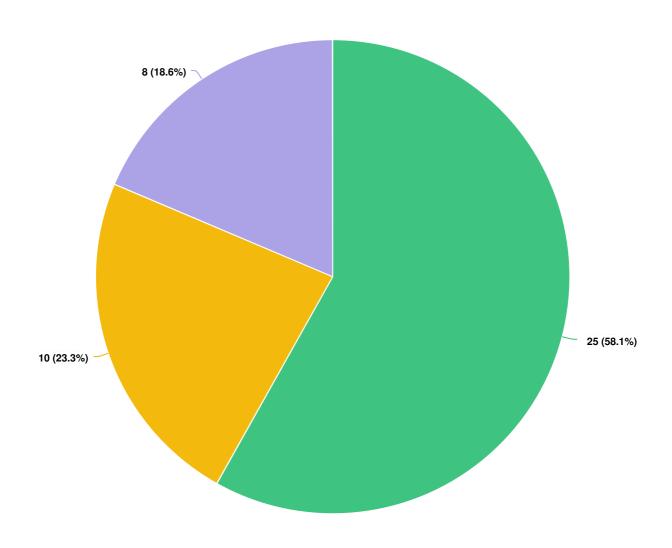

drainage plain from homes uphill from us

We have a backyard drain.

Erosion

Optional question (12 response(s), 31 skipped)

Q3 How concerned are you with the speed of traffic in your neighborhood or on your street?

Q4 If concerned or very concerned, please enter the location(s) of concern and why you feel that way.

speeding down W 60th St @ times

Very concerned about the speed on Tingdale Ave across from Tingdale Park. You can't see the park until you too close. The park is very busy with young children.

People drive fast on straight roads. It occurs on every straight road in Melody Lakes

5908 Hansen Road- People speed up and down the hill

5300 Benton Ave. Lack of stop signs, wide roads allow for people to accelerate through this area without regard for pedestrian traffic.

Grove St. west of Melody Lake park people cut through to Hanson at very high speed.

Near Tingdale and Benton, some cars pick up speed after making their turn. We have little kids that play on our driveway sometimes next to the that intersection.

Code Ave., between 60th and Benton. We often observe cars roaring up or down the hill in front of our house.

Our short 1-block segment of road, Eastview Dr, is used as a cut through. Speeds are frequently higher than appropriate for a purely residential street.

Hansen Road near Garden park- motorists go extremely fast, probably because it's a cut through street. My kids walk to that park and the only easy way to get there is on Hansen. There is no sidewalk on portions of Hansen, cars can park on either side of the street and are often not in the middle of the road as well. Roads and rules are not well marked.

5724 hansen road. constantly seeing cars drive 30MPH. Grove street is a T onto Hansen.. all winter we see cars slide down Grove street onto Hansen Road hoping that oncoming traffic on hansen doesnt hit them

People coming from the West on Benton Ave go to fast and also the stop sign in both directions at Tingdale and Benton, people fly through it without thinking of stopping. On average, we see probably 30-35% of people stop.

Corner of Hansen Rd & Benton Ave. 4-way stop intersection of two fairly busy roadways, however no sidewalks, many drivers blow through stop, and a residential area with yards right up to edge of the street.

Since there is no stop sign or speed bump between Benton and Vernon there are an excessive number of speeders (not just cars) going North down the hill from Benton. There are also speeders going South from Vernon to Benton but not quite as frequent. My understanding is that Hansen is a County Road and an alternate emergency route for emergency vehicles but something really needs to be done.

Many people speed between On Tingdale ave between Benton and Grove as they perceive there are very few residential driveways on that stretch of road.

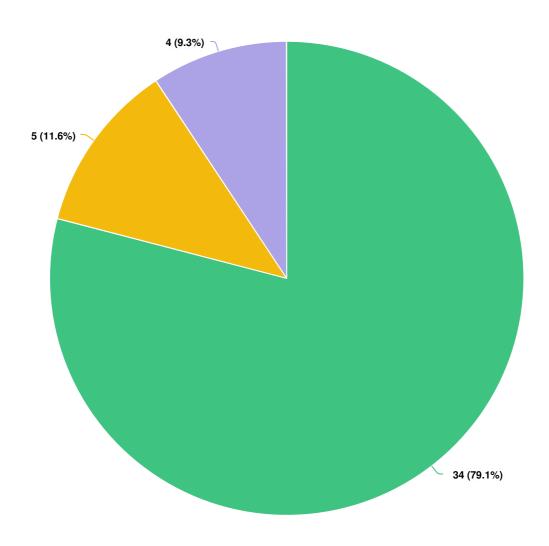

Tingdale Ave adjacent/along Tingdale Park. Many, many kids and families are present and vehicles frequently drive too fast with no regard to people in or near the park.

Grove Street - cars come flying through the intersection of Grove and Dale and there is no stop sign for the Grove traffic. Hanson has no sidewalk - it is also heavily used with lots of fast cars. It needs a sidewalk from Garden Park to Benton Ave so kids can safely traverse the neighborhood.

Tingdale & 59th run along the side of Tingdale Park so kids are riding their bikes to/from or running to the park. If either of those streets get narrowed and cars are parked on the curb, it will create a very dangerous situation.

Optional question (18 response(s), 25 skipped)

Q5 How concerned are you with the volume of traffic or number of vehicles in your neighborhood or on your street?

Q6 If concerned or very concerned, please enter the location(s) of concern and why you feel that way.

A lot of people use our road as a shortcut to 62

Non-residents use this street to cut through our neighborhood for access to major roads. Because they don't live here, they have little regard for speed limits and pedestrian traffic. 5300 Benton Ave.

Lots of cars cutting through from benton to Hanson

Too many people cut through neighborhood during rush hour traffic.

See response above (Hansen & Benton) - many drivers use these roads as a cut through to avoid traffic on crosstown 62 and hwy 100.

The number of waste trucks on garbage day is out of control!!! We need ONE garbage service provider and reduce the dozens of trucks on our streets each week. Ridiculous.

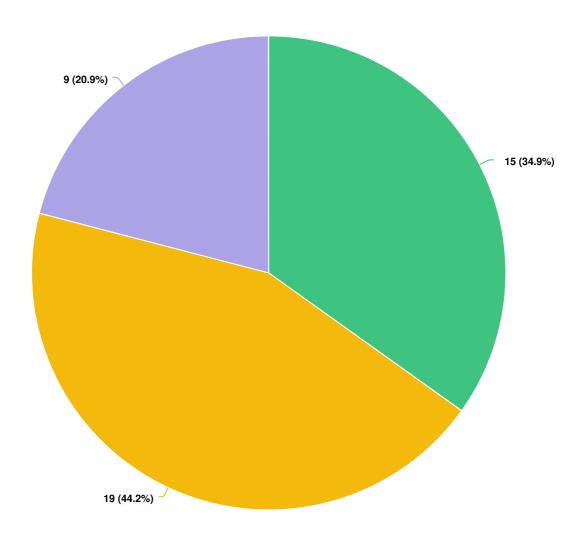

Because of the lack of traffic signs or signals I have concerns when I'm walking (daily) and my children biking.

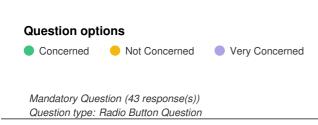

See answer to #3 - corner of Benton and Hanson very busy, and no sidewalk on Hanson or Benton make it hard for kids to traverse the neighborhood safely. Volume and Speed apply to this stretch of Hanson between Garden Park and Benton, and the intersection of Benton and Hansen.

Tingdale & 59th as both run along side Tingdale Park - see answer above.

Optional question (9 response(s), 34 skipped)

Q7 How concerned are you with motorist behavior in your neighborhood? (Examples of poor motorist behavior include speeding, rolling through stop signs, failing to yield, and driving aggressively.)

Q8 If concerned or very concerned, please enter the location(s) of concern and why you feel that way.

rolling stops at Benton & Tingdale; some people totally run the stop sign on Benton

Lots of people blow through stop sign on Benton at Tingdale.

People speed on Tingdale. We've always worried about the kids in the park, walkers, joggers etc.

People tend to roll through the stop signs at the intersection of Benton and Hansen. Bicyclists also NEVER stop at the stop signs along Benton Ave.

See comment above re:speed

Benton and Hansen is a pretty busy intersection and people speed through

5300 Benton Ave. speed is the largest issue. People aggressively drive on this street as a short cut to other roads.

They speed on our street

Above average loud music/honking at the benton/Hansen intersection

The intersection of Tingdale Ave & Benton Ave, cars run the stop signs driving along Benton Ave all of the time. Some speed up as they approach the stop sign.

Question 8 has an invalid answer. I am NOT concerned with motorist behavior and we drive/walk our neighborhood constantly for the past two decades. However, I had to select an answer to continue so that caused a bad response :(

Same as response above: often see motorists speeding in front of our house on Code Ave., between 60th and Benton.

Lots of rolling through the stop signs at Benton and Tingdale.

Speeding on Hansen, failing to yield to pedestrians or pay attention

hansen and grove street

Stop signs at Benton and Tingdale (West-East bound Benton traffic) A lot of traffic do not stop at these stop signs.

See response above (Hansen & Benton)

drivers constantly roll right through the four way stop at Benton and Tingdale. Mainly the cars on Benton.

Besides the excessive speed we also see many motorists don't pay much attention to the 4 way stop at Hansen and Benton and we're surprised there hasn't been more accidents there. An additional concern are the bikers who very rarely comply with the stop signs either. I also notice daily people looking at or talking on their phones.

The Benton Ave/ Tingdale intersection is notorious for drivers simply rolling through or not slowing down at the stop signs at all!!

At the Tingdale/Benton 4 way stop intersection people rarely stop and frequently blow through the intersection. Some hardly even slow down.

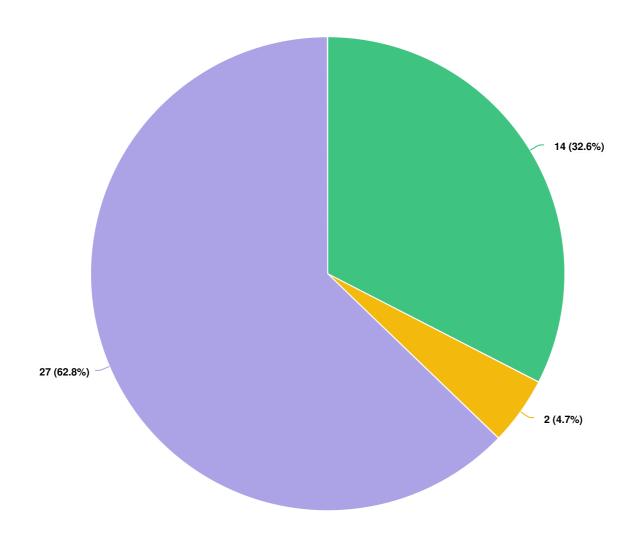

Drivers roll through the 3-way stop at Normandale Rd & Benton Ave. or do not take turns (the corners at the intersection are so far apart, they don't want to wait for people to go). Drivers also roll through the stop sign at Benton Ave & Tingdale Ave. making exiting off Eastview Dr onto Benton Ave difficult during rush hours. It also makes it hard to walk across Benton Ave.

Same issue - speed and no sidewalk in key parts of neighborhood.

Excessive speed and rolling through the stop sign at Tingdale and Benton.

Optional question (24 response(s), 19 skipped)

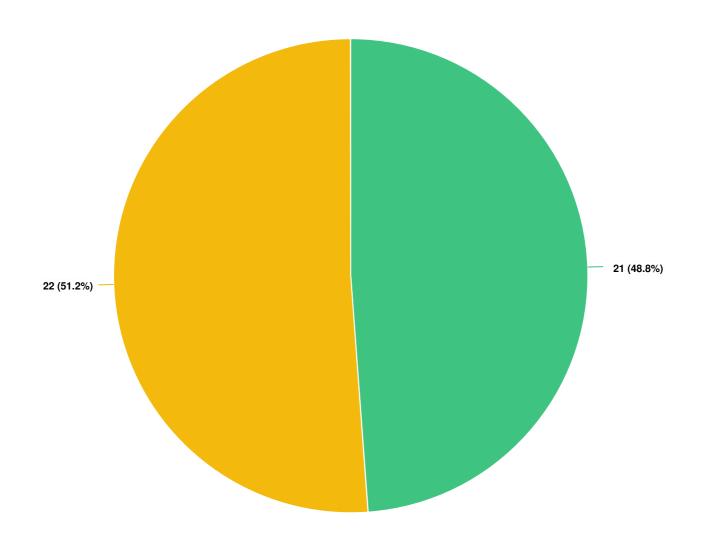

Q9 In general, these behaviors impact you most when you are:

Mandatory Question (43 response(s)) Question type: Radio Button Question Q10

Do you feel any intersection in your neighborhood is unsafe?

Mandatory Question (43 response(s)) Question type: Radio Button Question

Q11 Which intersection do you feel is unsafe?

Benton and Hansen Benton Avenue and Bernard Place Two Different Intersections: Intersection of Benton Ave & Benard Pl. Primarily turning east/left from Benard Place onto Benton (obstruction due to tree and often parked cars and Benton has faster moving vehicles). Intersection of Code Ave & 56th. For those cars at stop sign on 56th facing west, unable to see cars traveling North on Code Ave (due to large hill). Suggestion would be a 4-way stop. The corner of Bernard Place and Benton, heading south on Bernard Place. There is a significant blind spot looking east because of overgrown bushes and a power line pole. Tingdale Ave & Benton Ave Code and Benton for school age kids who catch the bus there. Bernard Place and Benton. Bushes are overgrown. Bernard Place and Benton Avenue hansen and grove Benton and Tingdale Hansen & Benton ALL of Benton Avenue between Hwy 100 and Countryside Elementary WITHOUT sidewalks! You force people to walk on a very busy road. Benton and Tingdale

Hansen and Benton, Hansen and Grove and Hansen and Vernon

Tingdale/Benton

Normandale Rd & Benton Ave

The bridge over Tracy Ave and 62W intersection crossing the road (Hanson Rd) over Tracy Ave. Very busy during school morning and afternoons, especially in the winter, cars sit and create black ice. In normal times it can feel like a very scary place to cross.

Hanson/Benton (no sidewalk) Dale/Grove (no stop sign for cars traveling on Grove)

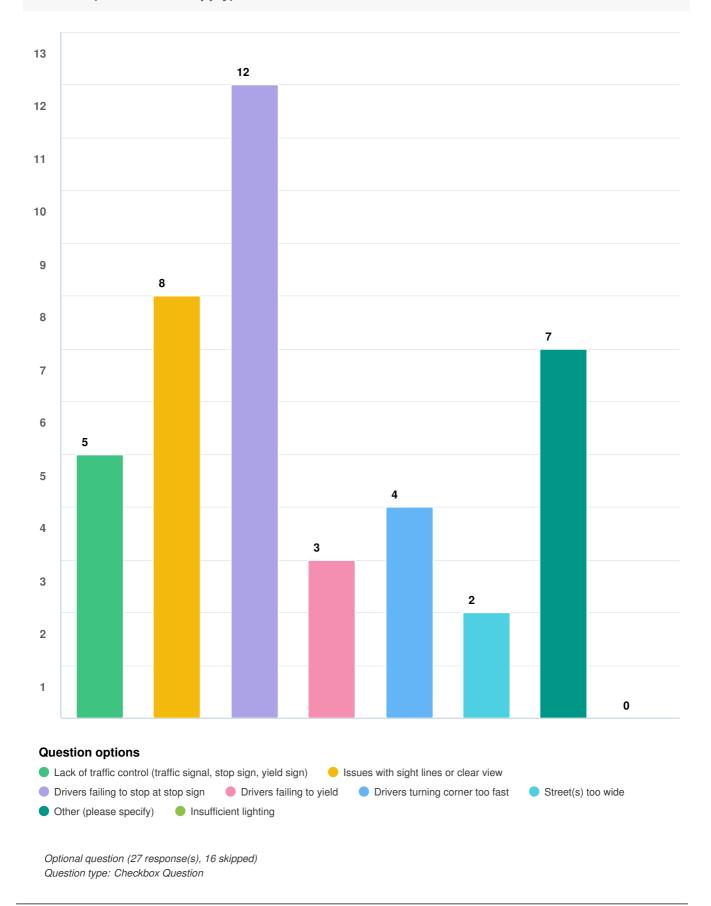

Exit off 100 and Benton

turning onto Benton from side streets with no stop sign

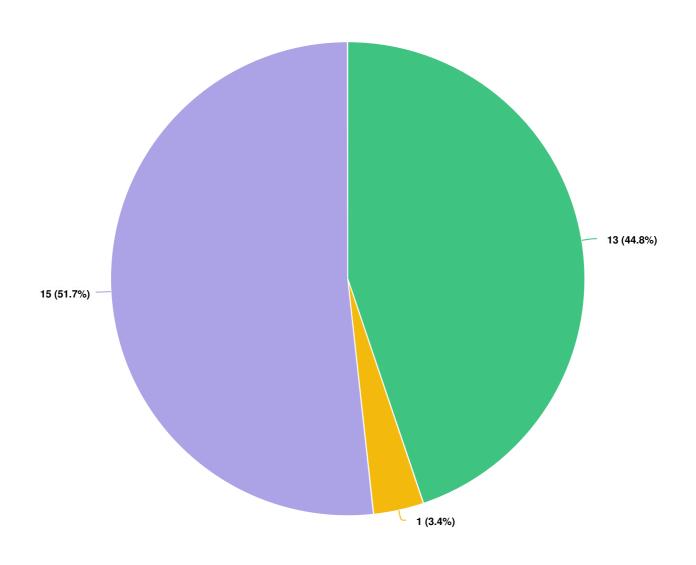

59th and Code - there are shrubs on the north east corner that make the sight lines difficult.

Optional question (21 response(s), 22 skipped)

Q12 Which, if any, of the following factors contribute to your feeling that the intersection is unsafe? (select all that apply)

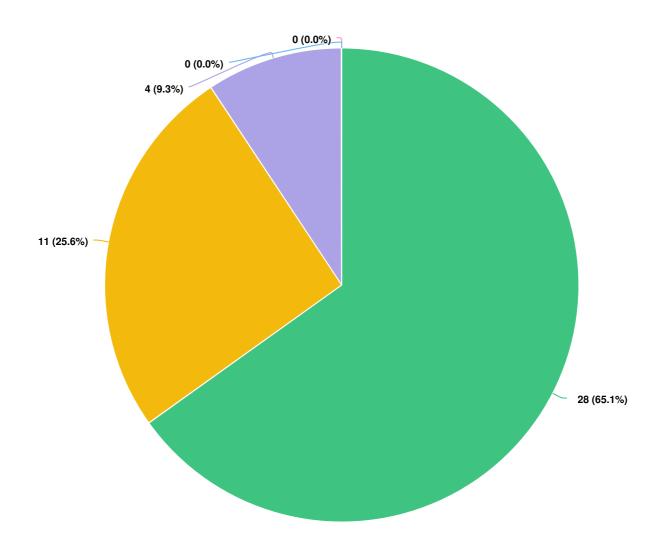

Q13 In general, the intersection feels most unsafe when you are:

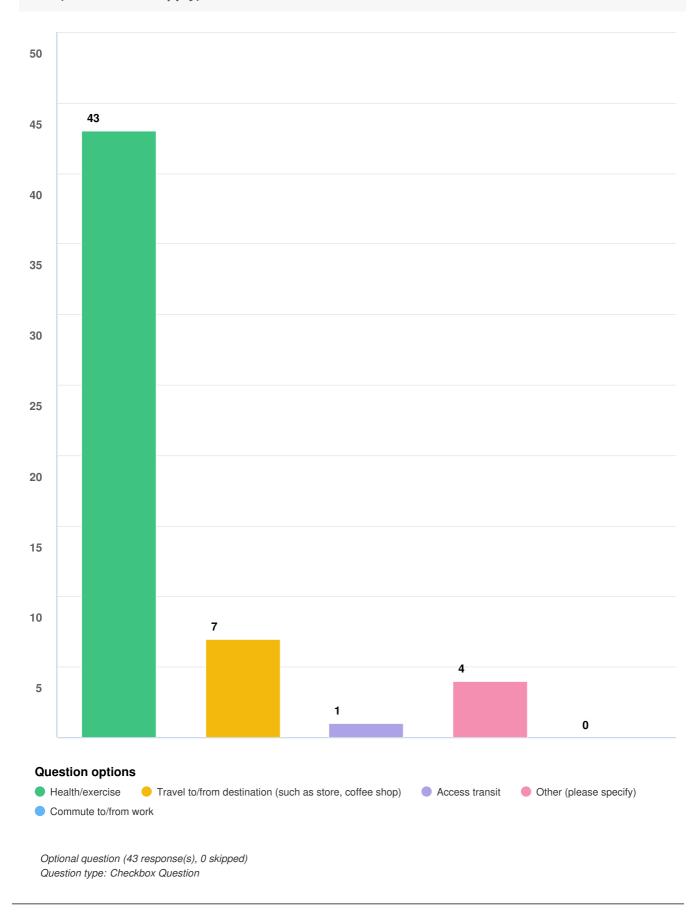

Q14 How frequently do you walk, jog, or run in your neighborhood?

Q15 If you walk, jog, or run in your neighborhood, what are your primary reasons for doing so? (select all that apply)

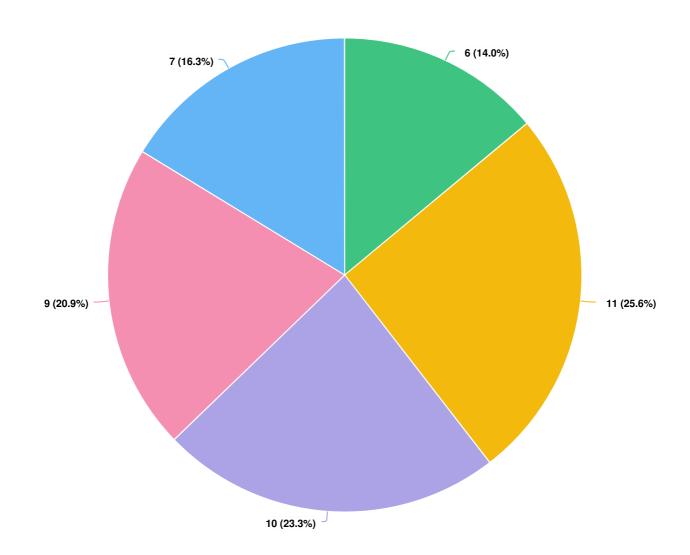

Q16 If you don't walk, jog, or run in your neighborhood as often as you would like, what reconstruction improvement might increase your walking, jogging, or running? Please list all that you can think of.

Sidewalks. Stop signs. Reduced speed limits.
Sidewalk on Hansen rd
More sidewalks or dedicated trails
Sidewalks
None. We don't need a sidewalk to exercise. When we want a path, we go to Bredesen.
We certainly don't need a sidewalk on Eastview
reconstruction projects will not cause us or others to exercise more.
Add a sidewalk, but still need to address stop sign at Benton-Tingdale intersection. Change to a lighted stop sign. Something to draw attention to all drivers.
More sidewalks!
I would LOVE a sidewalk on Benton, so we could walk to school.
Lack of sidewalks. Traffic doesn't slow down.
Add sidewalks where ever possible, improve the street in front of my house.
Sidewalks along Hanson from Garden Park to Benton

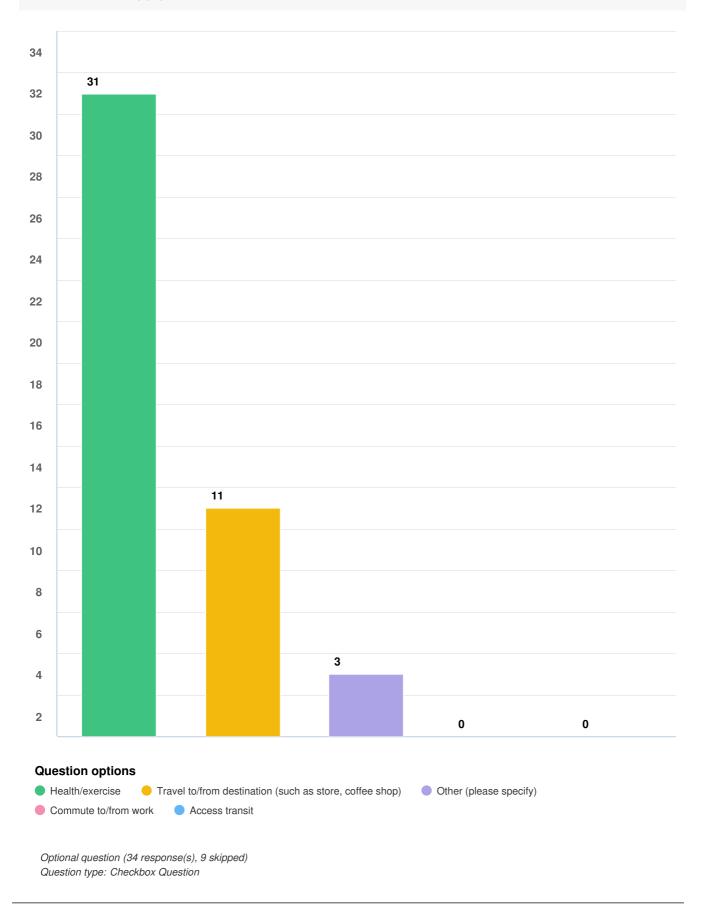

Optional question (13 response(s), 30 skipped)

Q17 How frequently do you ride a bicycle in your neighborhood?

Q18 If you ride a bicycle in your neighborhood, what are your primary reasons for doing so? (select all that apply)

Q19 If you don't ride a bicycle in your neighborhood as often as you would like, what reconstruction improvement might increase your bicycle riding frequency? Please list all that you can think of.

A sidewalk on one side of the street and a bike path on the other for Benton Ave could allow for more bike traffic. Reducing speed limits would also make the area more bike friendly. Smoother roads
Bike lanes
Our five kids ride/have ridden bikes in the neighborhood for two decades without problems or concerns other than completely avoiding Benton Avenue where there isn't a sidewalk.
Safe bike lanes
We certainly don't need a bike path on Eastview
minimize hills
horrible pot holes all over our neighborhood. fix those. No need for millions of dollars for special side walks for bike riding. lets not overcomplicate things and force a hand full of households to have to pay for sidewalks that everyone else uses
Add a bike lane.
Improved road conditions would make biking easier. There are many cracks in the roads nearby my house.
Connection to the bikeway at Bredeson Park.
Fear of traffic not seeing me- they drive too fast.

Keep roads clear of sand and other debris to avoid slipping on bikes.

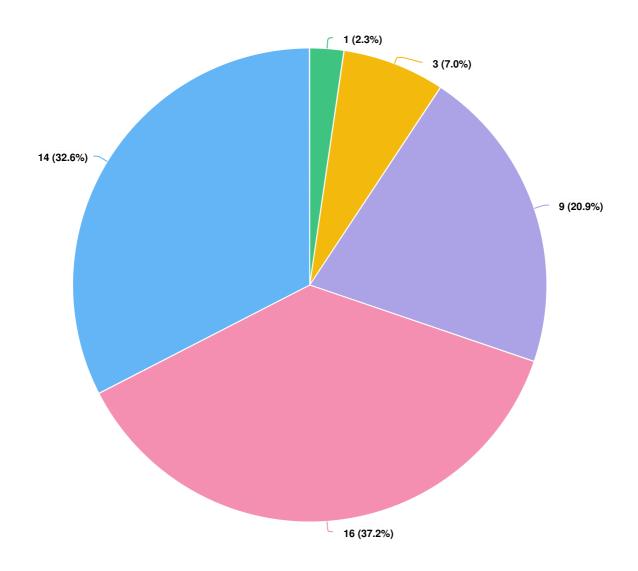

8/05/2020 08:29 AM

Personal motivation

Optional question (14 response(s), 29 skipped)

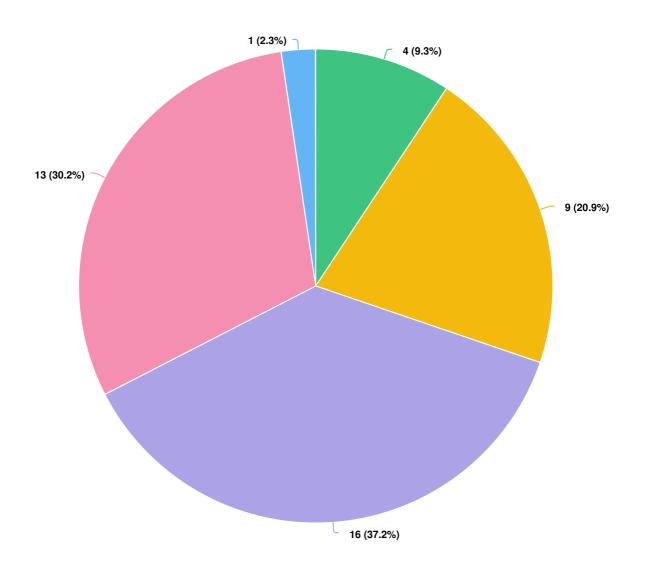

Q20

How frequently do you or a member of your household park on the street?

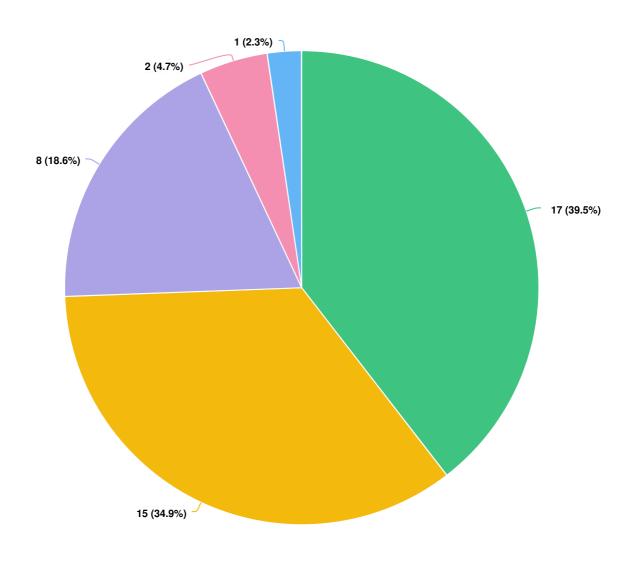

Q21 How frequently do visitors to your household park on the street?

Q22

How satisfied are you with the availability of on-street parking in your neighborhood?

Q23 Any additional comments about parking?

Since our street is only one-sided parking, it can get congested and on-street parking in front of our home can be unavailable.

Traffic speeds on Benton Ave are too high to comfortable park on the street.

no

I am VERY concerned with the possibility of the streets narrowing. Thankfully our kids are all older now but the reduced visibility around parked cars is significant on the narrower streets, where ours has always felt very open and safe. People can swing around a parked car with lots more margin for safety.

We wish on-street parking was not allowed overnight during the whole year.

I prefer if people do not park in the street for long periods of time. Visiting is fine but everyday is annoying and over night is annoying. Constant on street parking makes the street too narrow and less safe.

please don't create special cut outs for street parking.

Street parking is only on the West side of the street but people always park on the East side also but the no parking is never enforced. What is that?

some of the neighbors park in the street daily (59th) and if it gets narrowed it could create safety issue for kids going to the park.

Not sure street is wide enough

House behind us has insufficient space, so they park against pit side yard and sometimes go into the yard.

Optional question (11 response(s), 32 skipped)

Q24 Please tell us anything else you would like us to know about existing traffic or street conditions in your neighborhood.

The concrete street in front of house is in good shape. Seems like a waste to tear it up.

The streets are in horrible condition. The City should be embarrassed that it let the streets get so bad. Please make better plans for the future!

I would love if power/cable lines could be put underground.

The households on our street have always been active and have lots of visitors, so even though we are only a block long there are often a lot of cars. We have never felt our kids were unsafe in the front yard or on the street with their bikes and have relatively little thru traffic since there isn't really a reason for it. Our only concern is a narrower road that turns it into a one-lane street that allows little margin for error when passing kids on bikes or going around parked cars. Wyman Ave north of the 62 bridge is terrible with the NB lane turned into a parking space that often has a vehicle in it and only enough room to get one car through.

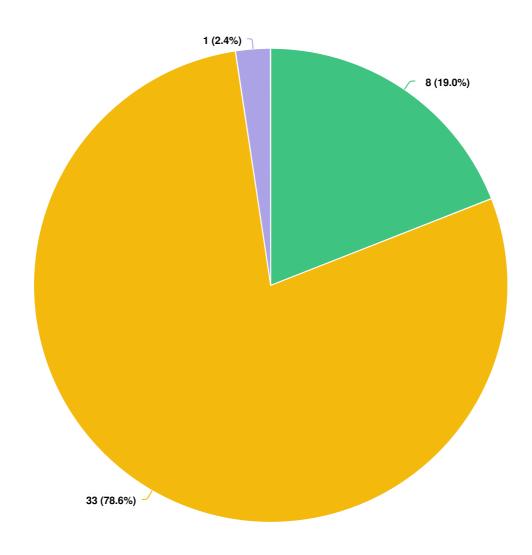

Storm drainage is not a significant issue, and would think a blended concrete apron would be as good as, and cheaper, and more aesthetically pleasing, than curb.

fix the curbs and the horrible pavement and everyone will be happy. add a stop sign to grove and hansen road intersecton

A sidewalk on our street would be welcome!!

Optional question (7 response(s), 36 skipped)

Q25 Do you favor improving streetlights in your neighborhood? (residential streetlights are funded by special assessment)

Q26 What is your street name?

Fraser Community Services 5617 Hansen Road Edina, MN 55436

Dear Property Owner,

Please take a moment to complete a Survey relating to parking along West 56th Street between Hansen Road and Dale Street. This survey will assist the City's design of West 56th Street associated with the Melody Lake A & Grandview A 2020 Neighborhood Roadway Reconstruction.

Your input is important to us! Please select one of the following two options regarding parking along West 56th Street and return this survey using the return envelope by Oct. 10.

Option A – Parking on only one side of West 56th Street. This option includes a 5' concrete sidewalk and will include removal of trees and landscaping along the residential side of the street.

Option B – No parking on either side of West 56th Street. This option includes a 5' concrete sidewalk and will minimize removal of trees and landscaping along the residential side of the street.

If you have questions or comments, please feel free to contact me at 952-826-0443 or aditzler@EdinaMN.gov.

Thank you,

Aaron Ditzler

2021 Projects

- Melody Lake A & B,
 Grandview A, Birchrest C –
 309 properties
- Creek Knoll A & B 113 properties

www.EdinaMN.gov 4-C

- Streets grouped into neighborhoods
 - Maximizes economics of scale
 - Extends pavement life
- Proactive Pavement Management Program
- Prioritized based on;
 - Pavement condition
 - Underground utility issues
 - Age of original construction

Why Reconstruct?

- Originally constructed in 1940s-1980s (40-80 years old)
- Utility issues to address beneath roadway
- More cost-effective than other maintenance strategies (mill & overlay, seal coat)

www.EdinaMN.gov 6-A

Existing Conditions - Roadways

- Pavement reaching end of useful life
- Some streets have curb and gutter, some do not
- Some properties already have concrete driveway aprons, some do not

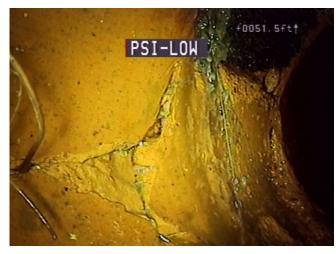

www.EdinaMN.gov 7-A

Existing Conditions - Utilities

- Watermain
 - Loss in pipe wall thickness
 - Main and service breaks
 - Undersized mains

- Sanitary Sewer
 - Cracks, breaks, sags, etc.
 - Inflow and infiltration

- Storm Sewer
 - Structure deficiencies
 - Undersized pipes
 - Curb and gutter failing

www.EdinaMN.gov 8-C

Existing Conditions – Right-of-Way

- Landscaping
- Outwalks/steps

- Mailboxes
- Irrigation systems and pet fences

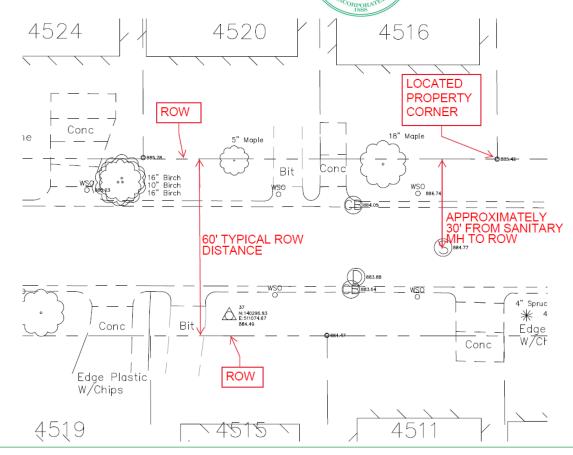

www.EdinaMN.gov 9-C

What/Where is the ROW?

- Surface and space above and below public roadways used for travel purposes and utilities
- Typically 60' width (MSA Streets 66')
- Property corners
 located during survey

The CITY of

Proposed Improvements - Roadways

- Replacement of curb & gutter (all or sections)
- Subgrade corrections as needed
- New roadbed and pavement surface

Living Streets Plan

- Approved by City Council in 2015
- Balances needs of motorists, bicyclists, pedestrians and transit riders
- Incorporates;
 - Minimum roadway design elements
 - Pedestrian and Bicycle Master Plan

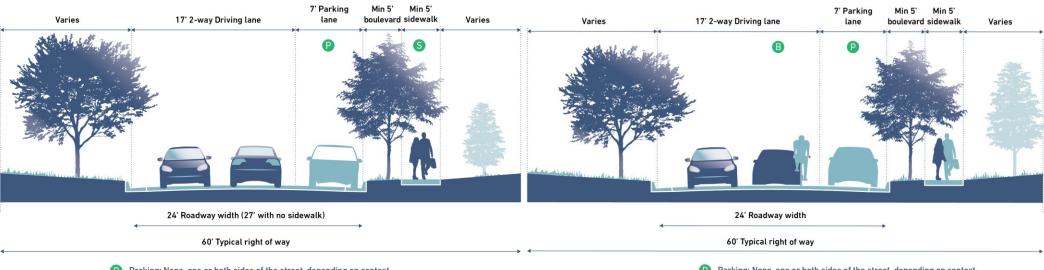

Living Streets Classifications

Living Streets: Local Street Type

Living Streets: Local Connector-Street Type

Parking: None, one or both sides of the street, depending on context

Sidewalk required on local streets when certain criteria are met.

Parking: None, one or both sides of the street, depending on context

B If an approved bike route, shared bicycle facilities are recommended

Proposed Improvements - Driveways

- Aprons will be replaced / installed to comply with City standards
- Special driveway materials
- Reimbursement Policy

Proposed Improvements - Utilities

- May include localized watermain and service replacements
- New fire hydrants and gate valves
- May include localized sanitary sewer repairs and rehabilitation
- Storm sewer upgrades

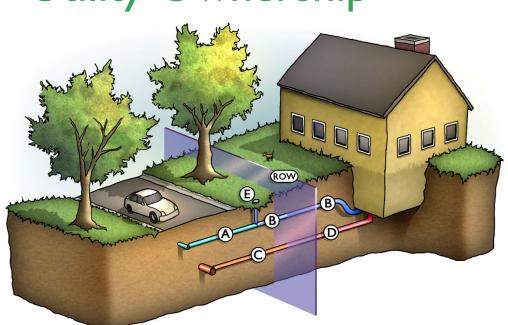

Proposed Improvements – Sump Drain

- Homeowners encouraged to connect to City Sump Drain
- Notification will be given when connecting is available
- Sump connection permit available thru City website

Utility Ownership

Resident Owned Utilities

B – Water Service

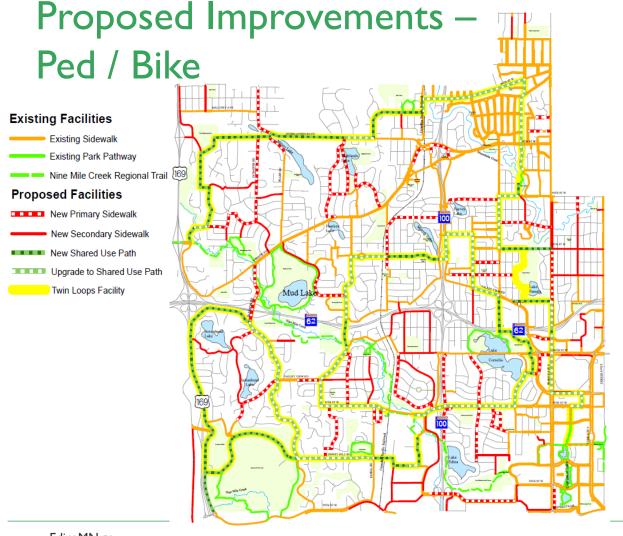

C & D – Sanitary Service

 Recommend inspecting private services prior to construction

Repairs/upgrades can be coordinated with street work

 Associated costs can be added to special assessment

- Based on Pedestrian and Bicyclist Master Plan
- Final design evaluated based on network consistency and construction conflicts

Private Utilities

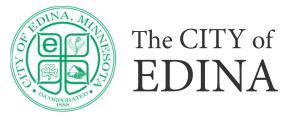

- Gas, Electric, Telephone, Cable may upgrade or repair their utilities before construction begins
- Potential City-required relocations
- Goal: streamline projects and minimize neighborhood disturbance
- Streetlight upgrades typically not included with project

www.EdinaMN.gov 20-A

- Dust, mud, noise, and vibrations
- Localized flooding during rainfall
- Occasional delays due to inclement weather
- Residents will be asked to limit water use occasionally
- Homes may be connected to temporary watermain

www.EdinaMN.gov 21-A

- Construction materials stored temporarily in ROW
- 5-10 feet of disturbance behind back of curb
- Construction equipment stored on streets
- Tree removals as necessary (property owners notified)

- Driveways and roads will be periodically inaccessible
- Driveways will be inaccessible for 7 days to allow driveways to cure

- Items within the City's right-ofway may be damaged
 - You can remove plants and other landscape features before the project
 - Irrigation and pet fences will repaired
- Disturbed areas will be seeded

- We will;
 - Provide opportunities for input
 - Keep you informed
 - Do our best to minimize inconveniences
- Our contractor will accommodate residents with special access needs

City Utility Funds

- Collection of utility service charges paid to the City
- Covers 100% of:
 - Storm sewer (curb and gutter, driveway aprons, sump drain pipe)
 - Sanitary sewer
 - Watermain

Pedestrian and Cyclist Safety (PACS) Fund

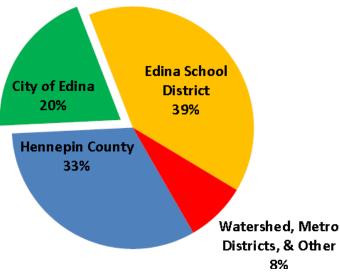

- Revenue from Xcel and CenterPoint Energy franchise fees
- Promotes non-motorized transportation throughout the City
- Covers 100% of:
 - Sidewalks /shared-use paths
 - Bike lanes
 - Associated signage and pavement markings

Do Taxes Cover Street Projects?

- ~20% of property taxes go to the City for expenses including Police,
 Fire, Parks, and Public Works
 - Snowplowing
 - Pothole repairs
 - Other street maintenance (sealcoating, overlays, patch repairs)
- Taxes do not pay for street reconstruction

Source: Hennepin County website 8/2/2016

www.EdinaMN.gov 28-A

Special Assessments

- Assigned to benefitting properties of public improvements
- Covers 100% of roadway costs (20% on MSA roadways)
 - Roadway and driveway removals
 - Subgrade materials
 - Asphalt pavement
 - Restoration
 - Indirect Costs engineering, finance, soil investigations, mailings

Residential Equivalent Units

- Assessments distributed based on REUs
 - Factor used to compare properties to a single-family residence

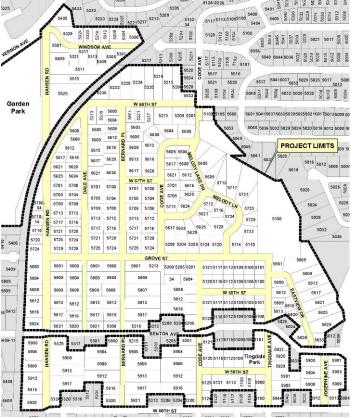

Scenario	Land Use Class	REU Factor
Α	Single-Family Residential	1.0
В	Multi-Family Residential - Duplex	0.8
С	Multi-Family Residential - Apartment/Condos	0.5
I	Institutional - Places of Worship	0.2*

Additional factors for commercial, industrial, and public-use properties

Project Details – Melody Lake A & B Grandview A, and Birchcrest C

- 309 properties (303.02 REUs)
- 3.88 miles of road
- Full replacement of watermain, water services
- Full replacement/installation of curb & gutter
- 5' sidewalk on Hansen Rd and W. 56th St.

www.EdinaMN.gov 31-A

Project Details - Creek Knoll A & B

- 113 properties (114.60 REUs)
- I.3 miles of road
- Full replacement/installation of curb & gutter
- Installation of 5' sidewalk on Beard Avenue
- Localized watermain improvements

Preliminary Assessments

Neighborhood	Estimated Assessment Range per REU*	# of REUs	Square Yards of Paving	Square Yards of Paving per REU
Melody Lake A & B Grandview A, and Birchcrest C	\$17,700 - \$24,200	303.02	53,324	176.0

Creek Knoll A & B Neighborhood Roadway Reconstruction

Creek Knoll A & B Neighborhood Roadway Reconstruction updates will be hosted on this project page. Check back for updates!

This project, scheduled for construction in 2021, includes:

- Complete reconstruction of the pavement
- New concrete curb and gutter on streets that currently do not have curb and gutter and spot or full replacement of curb and gutter on all other streets
- Improvements to the watermain, sanitary sewer, and storm sewer systems
- · Construction of a 5-foot boulevard-style concrete

sidewalk along Beard Avenue between West 54th Street and Minnehaha Creek.

The City of Edina is coordinating West 54th Street improvements with the City of Minneapolis.

APPENDIX J

Correspondence from Residents

November 23, 2020

City Council and Engineering:

Merry Christmas to you too. We didn't think that 2020 could get any worse but you have proved us wrong. There is nothing like receiving a \$24,200 assessment during a pandemic.

We would like to know how you came up with the numbers, what the breakdown is, and how you can pare down the project.

Windsor Avenue (where we reside) is a quaint on-block avenue that doesn't have anything to do with the sidewalks and retaining wall you are proposing. Most of the people on our block are retired or young families just starting out. We are not a block of mansions and mini-mansions like so many other Edina neighborhoods and yet our assessment is comparable to the White Oaks Neighborhood done a few years ago.

We are retired, on a fixed income and have lived here for 30 years. We were planning on staying in our small rambler home but now it looks like we will get taxed out of it.

As far as we are concerned, you could skip the entire project or postpone it for 15-20 years so we can all save enough money to afford it.

Again, Merry Christmas. Unlike us, we hope you receive good news this Holiday Season.

The Van Putten Family

Subject: Future Roadway Reconstruction 2019-2020 **Date:** Friday, September 29, 2017 3:19:37 PM

Hello Mr. Schulze

I was not able to attend the Monday meeting but wonder if you could respond to some questions. I live on Bernard PI in Melody Lake Area

- 1. Am I correct that the Melody Lake project will be in 2020. Any chance that could change?
- 2. How are the individual property assessments calculated?
- 3. Some of the existing roadway is concrete and some is asphalt. Will these properties be assesed the same?
- 4.Do the residents have a choice on contractors or do you just take the lowest bid. ? i.e. the contractor who did the eastern section of Melody Lake (Code to Frontage road) a few years ago did a very poor job and took forever.
- 5. Some projects seem to take a very long time i.e. Birchcrest this year. Others that I have seen in past years only take 3 months. Why do some take so long and is there anything residents can do to help speed the process.?
- 6. How does the city monitor communication between contractor and residents. I have heard some very good reports and some awful situations.?
- 7. I don't have gutters now. Do I assume gutters will be placed on all streets or is this subject to vote. I have lived at this address for 43 yards and have no problems being gutterless?

Thanks in advance for your reply.

Hi Aaron,

I am the home owner at 5127 W. 56th Street.

I am 100% strongly opposed the STUPID project being proposed to add a unneeded sidewalk and greatly reduce the width of the roadway. I will stand up to opposed this in every way possible. I sincerely hope the city is actually going to take into account what the homeowners on this street have to say about this... or will it be like everything else that it is just crammed down pocket book and more money wasted by the city?

Thank you Jana Hoffmann From: Heather Lund

Subject: Melody Lakes road construction proposal
Date: Monday, November 4, 2019 12:51:06 PM

EXTERNAL EMAIL ALERT: This email originated from outside the City of Edina. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hello-

I am an Edina resident and have lived at 5213 Grove Street for 19 years and wanted to reach out regarding the proposed construction project for the Melody Lakes neighborhood.

My concern is regarding the split of our neighborhood for the upcoming road construction project that would result in significant construction in our neighborhood for TWO consecutive summers. I live near the corner of Grove & Code and the proposal shows Grove Street as the dividing line so the roads across the street on Code would be under construction in 2020 and Grove Street would be completed in 2021.

As a long time Edina resident, I have visited family and friends who live in neighborhoods where this construction has previously been completed and I am well aware of the significant impacts it has on families and day-to-day activities. The construction greatly impacts the qualify of life for families including noise, detours, dust, safety for children riding bikes, walking dogs, parking challenges and enjoying any outdoor activity in our yards or decks during the project.

I understand that this project needs to be completed but my concern is regarding the split of the neighborhood and therefore creating significant inconveniences for two summers in a row. Benton Avenue is a much more logical border for this project as Melody Lakes neighborhood is North of Benton and therefore the entire neighborhood could be completed in one summer, not two.

As we all know, Minnesota summers are short and we attempt to enjoy our porches, decks, yards, sidewalks, parks and neighborhoods as much as possible. The current proposal will impact a significant number of families from enjoying our beautiful neighborhood for two consecutive years.

Please consider revisiting the current proposal and taking into consideration alternative options.

I am happy to discuss further if you have time to connect with me.

Thank you-Heather Lund

 RE: 56th Street

Date: Friday, October 5, 2018 10:21:16 AM

Jon,

Here is the typical process for determining a project area's assessment:

- 1. Calculate the number of Residential Equivalent Units (REUs) within the project limits, taking into account corner lots, non-residential properties and City properties as the Special Assessment Policy describes (in the case of this project, the railroad property would not be included in this calculation).
- 2. Determine the scope and total cost of roadway improvements based on, among other things, street widths, lengths and existing soil conditions.
- 3. Divide the total roadway cost by the calculated number of REUs within the project area.

At this point, we do not know whether improvements will be made at the railroad crossing or what the scope of those improvements would be; I expect we will be having those conversations with the railroad in the coming years and determining how those improvements would be funded.

Staff will be proceeding with the design under the assumption that the railroad property will not be assessed for the roadway improvements, as we have done in other projects. Any direction otherwise would have to come from City Council. If this is a concern of yours, I would recommend reaching out to Council or to City Manager Scott Neal so they can consider and review with our City Attorney.

From: Jonathan Engman MD [mailto: Sent: Thursday, October 04, 2018 7:03 PM

To: Andrew Scipioni **Subject:** Re: 56th Street

Andrew,

Thanks for your speedy reply.

Since the policy does not explicitly address who pays for the portion of the railway's property, how can I find out what will happen with our project's assessment?

I would argue that in this case the railway should be assessed some portion and the city should be assessed some portion similar to park property. The railway has to cross the road and that portion will cost more to put in I'm sure. It wouldn't be fair, certainly, to increase our assessments to pay for the railway property. I would appreciate a response that clarifies the plan for the portion of the road. If someone else is more appropriate for handling this question, please feel free to forward my email to them.

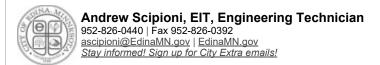

Thanks again!

Jon

To: Andrew Scipioni **Subject:** 56th Street

Hi Andrew,

A question for you. I understand that the railroad isn't typically assessed during street projects. I live on 56th street and a long portion of it is bordered by the railroad. I want to be sure that we as residents in the project area don't end up paying an unfair amount for the railroad's share of the road. Is there a policy in place that the city will be assessed for the railroad's share of the road, like it will for the area bordering Garden Park?

Thanks for your help,

Jon Engman 5236 W 56th Street From: Andrew Scipioni

Subject: RE: 2020 & 2021 Neighborhood Roadway Reconstruction

Date: Wednesday, September 26, 2018 11:36:22 AM

Attachments: Final Special Assessment Policy.pdf

RuthAnn,

The City will be assessed for the properties we own within the project limits in accordance with our Special Assessment Policy (attached).

Historically, the City has not assessed properties associated with the railroad because it is our position that those properties do not receive a benefit from roadway improvements. The most recent example of this was the Birchcrest A/Countryside B reconstruction project in 2017. For the Melody Lake A/Grandview A project, staff will not be proposing to assess the railroad properties unless directed by City Council.

Regarding your concern about heavy equipment being parked along W 56th Street, City Ordinance prohibits on-street parking for more than 6 hours and restrictions vehicle loads on residential streets. If you are concerned about vehicles being parked for more than 6 hours, I'd suggest contacting the Edina Police Department on their non-emergency number (952-826-1600); for concerns about overloaded vehicles, you can contact Edina Public Works (952-826-0376).

Subject: 2020 & 2021 Neighborhood Roadway Reconstruction

Andrew,

Here is another question/concern from one of my neighbors:

• Much of the Melody Lake A area is bordered by parks and railroad. That means there are that many fewer residential units to divide the cost. We need to be sure that the city is paying their share for the long section of Hansen and we also want to be sure that the railroad will be assessed. They have to cross the roads and use them at times also so are benefiting from the upgrade like we are. Plus the railroad parks their heavy equipment along 56th St. just east of Hanson Road, Will the City of Edina & the railroad company pay their fair share of the assessments?

Thank you for your clarification. RuthAnn Metzger

Aaron. Thanks for the reply. I suggest you or someone spend a hour or two watching the turns at the corner of Hanson and 56th. Its a tight turn made difficult by the angle. There are often cars (from the Fraser house) parked on 56th which makes it even more difficult. Often when soccer/football/baseballgames are being played at Garden park cars park on 56th for a quick getaway rather than using the parking lot.

Those of us who live close by and make that turn are very cautious. We often have to take turns. If the street is made more narrow because of the sidewalk the turn will become even more hazardous than it is now. I just don't think a sidewalk that narrows the present width is good plan. Someone from engineering really needs to study what goes on at that corner now before making a final decision.

THanks for hearing my input.

Pat Finley

Pat,

Our plan is to install a sidewalk along W. 56 St., including the portion between Hansen and Dale. Our standard street section is 24 feet wide where a 5' wide sidewalk is proposed to be installed. However, it's highly unlikely a 24 feet wide street will fit in that narrow corridor. Therefore, we'll look at a narrower street section (to be determined width) with a 5' wide sidewalk this fall.

Thank you.

Hi Aaron.

I missed the meeting on the 2020 Road construction but looked at the presentation on Better Together Edina.

I notice the plan to add sidewalks on w 56th. The street between Dale and Hansen is already very narrow. To add the sidewalk you will need to take several feet of property from the owners on that stretch. Is that really the plan? or will the sidewalk stop at Dale?

I live on Bernard so just wondering how that will play out.

Thanks

Subject: RE: 2020 roadwork questions

Date: Thursday, August 22, 2019 10:57:32 AM

Mark,

Here are the answers to your questions.

- 1. Questionnaire Please complete online by 8/30/19 using the link below (one per household)
 - a. https://www.surveymonkey.com/r/MelodyGrandview
- 2. Utility Services lines Contractor list for inspecting your services can be found using the link below. This is <u>not</u> required, but recommended since your service lines may be nearing the end of their useful life. Probably best for you to call me if you have specific questions.
 - a. https://www.edinamn.gov/DocumentCenter/View/824/List-of-Plumbers-PDF?bidId=
- 3. Irrigation Systems Likely will be damaged during construction. The contractor will repair the systems. Nothing needs to be done prior to or during construction. There will be some property owner coordination immediately after the irrigation repair to confirm the system is functioning appropriately.
- 4. Concrete work Bulkhead style curb (Design B618) will be installed as well as aprons as referenced in the links below. Sidewalk is proposed along Hansen Rd and W. 56th St. Sidewalk is <u>not</u> proposed on Melody Lake Drive. The proposed sidewalk locations can be seen in the Pedestrian Master Plan on page 63.
 - a. https://www.edinamn.gov/DocumentCenter/View/854/500---Concrete-Curb-and-Gutter-PDF
 - b. https://www.edinamn.gov/DocumentCenter/View/856/400---Residential-Driveway-Aprons-PDF
 - c. https://www.edinamn.gov/DocumentCenter/View/5433/Final-Master-Plan-Report-PDF
- 5. Driveway / Road Design If your driveway has positive drainage from the garage to the street before the project and will have negative slope after the project we would meet with you in Spring 2020 to discuss it and how we would prevent stormwater from drainage into your garage. Having said that, it would be unusual for us to need to design the street that way. Our street design occurs in the winter prior to construction.

Thank you.

EXTERNAL EMAIL ALERT: This email originated from outside the City of Edina. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hi Aaron-

We were out of town for the 8/12 meeting but downloaded the presentation and have a couple questions, please respond with answers or if it's easier just call my cell at and let's talk or leave me a message. Thanks, Mark Razidlo (5616 Melody Lake Drive)

- -We didn't see/fill out the questionnaire and want to, so can you send one via email or can I pick one one at City Hall?
- -Your presentation mentions timing services (sewer upgrades, connecting to the city sump drain, etc.), did you get into more detail on that in the meeting? Anything to share, or will that be discussed again in meetings coming in December?
- -You also mentioned reimbursement for things like damaged irrigation (which we will have), assume that will be discussed/dealt with next year once the work is started and the scope of damage in known, so nothing to worry about now, correct?
- -Looks like there will be curbs and possibly sidewalks added. Is it a straight or sloped curb? And do you know which side of our street will have the sidewalk added?
- -Finally, we have a question about the height of the new roadway relative to what it is now. We have a very low grade on our 70-foot driveway from our garage door to the road, so low that if the new road is higher we are concerned that the water might actually flow back from the road and flood our garage. I've talked with the survey guys and they say new roads are usually put in slightly lower than the old surface for exactly that reason, but wondering if you can confirm that.

Look forward to hearing from you, thanks, Mark

Subject: Hansen Rd - 5325 Benton Ave

EXTERNAL EMAIL ALERT: This email originated from outside the City of Edina. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Aaron,

Thank you so much for meeting and discussing the Hansen Rd project with me yesterday morning.

I wanted to document a few things from our conversation:

- 1) As we are closing off the Hansen Rd entrance to our drive this year, we won't complete all the plantings near the curb, as it's our understanding the contractors will remove the drive cut in when the road is repaved next year. In addition, we'd like to have the thin stone retaining wall extended across some or much of the drive entrance as far as it makes sense in front of the stop sign.
- 2) we are still exploring potentially extending the width of the Benton Ave driveway. Our current

driveway opening is around 10-12 feet. We are potentially opening it another 2 feet. Based on our conversation this was acceptable. Our driveway contractor will be out this week to assess. As we previously discussed, we will already be doing a new curb cut and apron as the current apron and curb cut are in bad shape.

3) id really like to discuss the need to keep the mature oak trees and sumac that are along side the Hansen Rd portion of our property. These trees provide much shade and privacy for our yard and are extremely mature trees that are healthy and thriving. We'd really like to discuss options here when the paving project gets closer.

Thanks again!

Subject: RE: Melody Lake 2020 Project

Date: Wednesday, October 10, 2018 11:08:10 AM

Greta,

Thank you for the feedback. The best method to express your opposition to the proposed sidewalk is to submit a petition to City Council (https://www.edinamn.gov/367/Petition). This standard form is typically used to ask Council to consider a public improvement project, but can also be used to ask Council not to consider a project.

A petition can be submitted at any time; however, because this project is still 2 years away, I would suggest submitting sometime between June and November of 2019. During this time, Engineering staff will be determining the scopes of the 2020 projects in much more detail and will be submitting proposals to the Council in November. If you decide to submit your petition earlier, Council may decide to act on it or they may decide to table it until later in 2019 and discuss along with the project proposals submitted by Engineering.

Until such time that Engineering is given explicit direction otherwise from Council, we will proceed with incorporating the West 56th Street sidewalk into the Melody Lake A reconstruction project, as is recommended by the Pedestrian and Bicycle Master Plan (https://www.edinamn.gov/494/Pedestrian-Bicycle-Master-Plan).

If you have further questions or concerns about the proposed reconstruction project, feel free to contact me directly or the Engineering Department at 952-826-0371. If you have questions about the petition process, you can contact City Clerk Deb Mangen at 952-826-0408 (I apologize, the second page of the petition form has the wrong phone number).

Good morning,

I live in the melody lake neighborhood and am writing in strong opposition to the sidewalk on 56th from Hanson to code. It is completely against what the neighborhood wants and opinions voiced at previous meetings. It would lead no where and the area would be better served with one on Hanson or Benton. It costs more and takes up more yards. We don't want it. How do we go about getting it removed?!

Thanks Greta Santori From: <u>Aaron Ditzler</u>
To: <u>Jen Stack</u>

Subject: RE: Melody Lake Project

Date: Monday, July 27, 2020 8:14:42 AM

Jen,

It's true that Benton Avenue is <u>not</u> included in the proposed 2021 street reconstruction project. Benton Ave is a municipal state aid (higher volume collector) and these are reconstructed separately from local streets.

Because Benton Ave was overlayed with new pavement in 2017, it won't be in the street reconstruction program for at least seven years. Pedestrian or shared use path improvements are proposed along Benton Ave in conjunction with future street reconstruction.

Thank you.

Hi Aaron,

I hope you are having a good summer. We spoke last winter about the Melody Lake/Grandview/Birchcrest Project. My neighbors and I thought that Benton Ave was included in the project. We thought that a sidewalk was being put in to keep pedestrians and bicyclists safe from Eastview Dr to Hansen Rd From the project map, it looks like Benton Ave is being left out. is this true? If so, when will Benton be repaired?

thank you!

Thanks. I thought Benton would be reconstructed. If it isn't then I agree with you. That will be the escape route for most people. For me I will still you W 56th St when I can.

Patrick Finley

In a message dated 10/27/2020 2:40:16 PM Central Standard Time, ADitzler@EdinaMN.gov writes:

Patrick,

Because Benton Ave will not be reconstructed in 2021, Benton will be a favorable east / west paved access road in and out of the project area. For that reason I'm not concerned about the entire sidewalk being installed in 2021 from Hansen Rd to Normandale Road.

Thank you.

Hi Aaaron

We have communicated about this project earlier. There seems to be much opposition to the sidewalk proposal for W 56th. Earlier the plan was to add the sidewalk from Code to Hansen as part of the 2021 project with the plan to add the sidewalk from Code to Frontage road at a later time. Now apparently that plan has changed so that the complete sidewalk will be installed in 2021.

I live at 5603 Bernard PI. To leave my immediate neighborhood my neighbors use either Hansen or W 56th. to go up to the commercial stores on Vernon or to access Hwy 100.

Since Hansen will be under reconstruction if the sidewalk on W 56th is installed simultaneously traffic snarls will be most difficult. Therefore I recommend that the sidewalk (from Code to Frontage) be delayed to another year(This was the original plan). This will allow a much better and safer traffic flow because most residents will avoid Hansen and use W 56th to exit the area.instead. This will put even more congestion on W 56th and with the sidewalk installation will make the exit very congested and unsafe.

I strongly urge the city to delay the W 56th sidewalk to a later year.

Thank you

Patrick Finley

Aaron

Thank you for your prompt and complete reply to my questions. The videos are excellent so I think I am well informed on the process and what I need to know. The list of contractors is great to have also. I appreciate all your help and input.

Pat Finley

In a message dated 9/8/2020 2:17:11 PM Central Standard Time, ADitzler@EdinaMN.gov writes:

Pat.

Thanks for you questions.

- 1. It's optional to insert a liner into your sanitary sewer service line. If you choose to do this, you can reach out to the contractors on the attached list for a guote.
- 2. If you choose to do the water line, you can reach out to the contractors on the attached list for a quote. They should be able to televise it and share the results with you. Optional water line replacements should be done next spring / early summer before concrete curb and gutter and asphalt paving are complete.
- 3. Coordinate the work with our street reconstruction project. Don't do the work

before concrete curb and gutter and asphalt paving are complete or we'll damage the new driveway. You can reach out to the contractors on the attached list for a quote. You should select a contractor to do the work next spring and share with them our schedule. Once the concrete curb has been installed by the City's contractor, contact your contractor to have your new driveway installed. This way there will be no driveway "seam" between the City's work and your new driveway. Your contractor may want to remove your existing driveway before or after the new curb has been installed.

- 4. We'll mail you a letter before construction begins next spring. That letter will have contact information for the project inspector. Reach out to the inspector regarding access and we can work with your navigation needs.
- 5. We recommend getting more than one quote for the utility and driveway work.

Thank you.

Hello

Could you answer a few questions please.

1. My sewer line was inspected and is in good shape. However, I understand that I should insert a liner during the reconstruction. Is this mandatory or optional? Does the city make the arrangements to do this? 2. I am not clear on the water line. I understand the ownership cut-off etc. My house/line is 48 years old. Who /how does the water line inspection and when should it be done? and who do you recommend? 3. I probably should replace my asphalt driveway. Because the city will be installing a concrete apron should I wait until after the work is complete or would I be better served if I replace it now.? 4. My wife and I are both physically limited with old age and arthritis. Are there special arrangements for help during the days we are unable to navigate the street. Thanks for your reply Pat Finley 5603 Bernard PI Edina, Mn 55436

Holly,

Thanks for the note and comments. We did receive a petition from residents of the neighborhood. The graphic attached shows who signed it. Staff considered budgets, workload, impacts to residents over two years, etc. and recommended to the city council to delay until 2021. This would allow the entire neighborhood to be done in one year and reduce the impacts to the residents along the border streets. The council accepted the recommendation to delay until 2021.

Thanks, Chad

Hello Chad,

There is some chatter on Nextdoor.com regarding the road construction in our neighborhood being pushed back to 2021.

I hope this is not the case for our street, it's in very bad shape and my neighbors and I were looking forward to a new street that we can ride our bikes on. Our address is 5724 Melody Lane.

I hope the opinions of a few neighbors did not push this project back for everyone.

Thank you! Holly Guth

Phillip,

The estimated assessment range at the informational meeting on 8/12/19 was \$13,000 to \$19,900. See the attached excerpt from the presentation. We did not present one estimated assessment amount because the project was postponed in fall 2019.

Below average soil conditions exist under the pavement and gravel base throughout the neighborhood. Estimated assessments include costs for replacement of poor soils with more stable soils. We are estimating a larger volume of soil replacement for streets on the south half of the neighborhood when compared to the north half, hence the primary reason for the increased estimated assessment amount.

Thank you.

Hi Arron,

I am a resident at 5728 Dale Ave on the corner of Grove and Dale. Regarding the 2021 project, the costs were estimated at \$24200 per REU. If memory serves me correctly, when the project was considered for 2020, the estimated cost was \$13000-14000. Was that estimate correct? If so why is the projected cost so much higher for 2021?

I look forward to your response.

EXTERNAL EMAIL ALERT: This email originated from outside the City of Edina. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Andrew,

We spoke Monday evening at the streets meeting.

Two quick things. Could you send me the questionnaire that was sent out earlier? I checked with my wife and she hasn't seen it either. We'd like to offer our support for the sidewalk that's been proposed along 56th Street.

Also, I mentioned the state of the overgrown vegetation within the spiral of the pedestrian bridge east of highway 100 and north of the community center. I've been involved in two near misses while biking since it's impossible to see bikers or pedestrians rounding the other side. The situation is made worse by tree branches forcing riders and pedestrian into the same path.

I've attached a few photos.

Could you please forward to the appropriate person? I'd hate for someone to get hurt needlessly.

Thank you!

Subject: RE: More questions about the 2020 Roadway Reconstruction for Melody Lake A

Date: Friday, October 19, 2018 5:01:29 PM

RuthAnn,

I apologize for the delay in my response. Here is my answer to your recent question:

As you mentioned, this ordinance specifically applies to demolition permits, subdivision applications and building permits. If the trees you mentioned are located entirely on your property, then they are very unlikely to be impacted by our roadway reconstruction. If they are partially or completely located within the right-of-way, then they may be impacted. We won't know for certain until later next summer when our surveyors perform a topographic survey of the neighborhood. Generally, we try to protect mature trees when we can, but sometimes our proposed improvements require them to be removed. In those cases, we reach out to the property owners to discuss tree replacement options.

Here are my responses to your previous questions:

Examples of streets that were recently reconstructed to a 24' width with a 5' sidewalk (as is currently recommended on W 56th St) are as follows:

- W 60th St from School Rd to Concord Ave (Concord neighborhood, reconstructed in 2018)
- Valley View Rd from Tracy Ave to Hansen Rd (Birchcrest neighborhood, reconstructed in 2017)
- Hansen Rd from Valley View Rd to W 60th St (Birchcrest neighborhood, reconstructed in 2017)
- Maddox Ln from Hansen Rd to Mildred Ave (Birchcrest neighborhood, reconstructed in 2017)
- Olinger Rd from Vernon Ave to Olinger Blvd (Countryside neighborhood, reconstructed in 2017)
- Concord Ave from Southview Ln to Lexington Ave (Golf Terrace neighborhood, reconstructed in 2016)
- Beard Ave from W 62nd St to W 60th St (Strachauer Park neighborhood, reconstructed in 2016) Once you have a completed petition, you can either drop it off at City Hall for the City Clerk, mail it to City Hall (c/o City Clerk), or email it to mail@EdinaMN.gov and it will be forwarded to the City Clerk and Council. Since this project will not be considered by City Council until December 2019, I would suggest the best time to submit would be July-October 2019. During this period, Engineering staff will be determining the full scope of the project and preparing cost estimates. Typically, Council will ultimately decide whether or not to proceed with the sidewalk at the Public Improvement Hearing in December. You can certainly submit a petition earlier than the time frame I've suggested, but Council may decide not to act on it until the project is officially brought before them in December 2019.

We do realize that more sidewalks may result in additional salt usage; however, we attempt to offset this impact by making reductions to the overall roadway surface (narrowing the streets) so as to reduce the City's total area of impervious surfaces. Unfortunately, this is a situation where two of the City's long-term objectives are somewhat at odds with each other; we do want to reduce salt usage, but we also want to expand our network of pedestrian facilities to improve mobility for all types of users.

Both properties you mentioned are currently zoned as Single-Family Residential, and as such, would be subjected to the same assessment rate as any other single-family home within the project area. The current assessment policy does not factor taxes paid per individual property.

Subject: Re: More questions about the 2020 Roadway Reconstruction for Melody Lake A

Andrew,

I hope you are working on getting answers to my 10/13/18 email's questions below. When can expect to receive answers?

This week I read Edina's tree ordinance which went into effect 7/1/15 for demos & building permits and want to verify that my elm tree in the backyard & locust tree in the front yard will be protected as this ordinance states during the 2020 Roadway Reconstruction. Will they? What about the redbud that I had planted around 2000?

Looking forward to your reply with answers to my questions from today & from my 10/13/18 email below. If I have not heard from you by the end of Oct, I will be contacting someone at City Hall to verify that you are still on the Roadway Reconstruction projects. Thanks.

RuthAnn Metzger

On Oct 13, 2018, at 12:07 PM, RuthAnn Metzger < Andrew.

Could you please tell me a street which has had a sidewalk added to it like we will get along 56th St.?

wrote:

Once I have the signed petitions against the sidewalk being added to 56th St who should I submit them to & by what date?

Has anyone at City Hall realized that by adding more sidewalks to Edina, homeowners will be using more salt on the added sidewalks? I thought the City was trying to reduce salt usage. Since I live between two group homes (one on the corner of Hansen Road & 56th St. at 5617 Hanson Road and the other one on the corner of 56th St & Dale Ave at 5313 56th St.), I want to make sure that they are being assessed the same that I will be for the 2020 Roadway Reconstruction — are they? They will get the same benefits that I will plus definitely use the streets more than I do. Plus do they pay the equivalent property taxes like I do? Thank you for your previous answers & hopefully the clarifications on my latest questions. RuthAnn Metzger

On Sep 25, 2018, at 3:02 PM, Andrew Scipioni <<u>AScipioni@EdinaMN.gov</u>> wrote: RuthAnn,

I'm sorry my last name's a little difficult, but I'm glad you were able to reach me! Attached is the presentation from last night, as well as the maps that were displayed.

To answer your questions below:

- As of now, the plan would be to only construct the sidewalk within the project limits (from Hansen Road to Code Avenue). The current Pedestrian Facilities Map shows that this sidewalk will eventually extend all the way to Normandale Road. Since the neighborhood to the east of Code Avenue (Melody Lake C) was reconstructed in 2012, we are not certain when the sidewalk between Code Avenue and Normandale Road would be constructed.

Ideally, we would install new pedestrian and bicycle facilities as part of street reconstruction projects; however, since this sidewalk was added to the plan after the neighborhood was reconstructed, that opportunity has passed. At this point, I see three events that could affect the construction of the sidewalk between Code Avenue and Normandale Road:

- o Council may direct staff to construct all of the W 56th Street sidewalk as part of the Melody Lake A/Grandview A reconstruction project in 2020 (Council made a decision for the Valley View Road sidewalk as part of the Birchcrest A reconstruction project in 2017)
- o Residents on W 56th Street or in the Melody Lake C neighborhood may petition the City to construct this sidewalk segment
- o Staff may recommend installing this sidewalk segment as part of a future roadway maintenance project, like a mill and overlay (the tentative maintenance schedule for Melody Lake C is an overlay in 2035)

Both the attached Pedestrian Facilities Map and Bicycle Facilities Map are part of the City's Pedestrian and Bicycle Master Plan (https://www.edinamn.gov/494/Pedestrian-Bicycle-Master-Plan). For more information on this plan and the process that went into creating it, I'd suggest contacting Mark Nolan, who's contact information can be found in this page.

- Here is the link to the City's official petition form: https://www.edinamn.gov/367/Petition. Generally, this form is used to advocate for a public improvement project, but can certainly be used to advocate against one. One the third page of this form, there are check boxes to indicate which improvement you are petitioning for. There is also a box for "other" which can be used to petition against an improvement.
- The same form can be used to petition the City to plow the W 56th Street sidewalk, if the decision is made to proceed with construction (under "other," I would suggest calling it "sidewalk maintenance" to differentiate it from new sidewalk construction)

For all of the 2020 project areas, the next steps in the design process are as follows:

- Spring/early summer 2020: Engineering and Public Works staff will evaluate existing infrastructure to determine the scope of improvements
- June 2020: resident questionnaire will be mailed to all properties within the project limits
- -July 2020: Engineering will host an informational meeting to discuss specific scope of each project and provide estimated range of special assessments
- July-October 2020: Engineering will prepare an engineering study for each project area, explaining the proposed improvements and funding sources
- December 2020: Engineering will hold a Public Hearing before the City Council and recommend approval of the project (all properties within the project area will receive notice of this hearing per state statues)

If there's any other information I can provide, please let me know. Please feel free to share my contact information with your neighbors if they have questions or comments about the project.

Neighborhood Roadway Reconstruction plus questions

Date: September 25, 2018 at 1:39:09 PM CDT

To: asciponi@EdinaMN.gov

Cc: Ra < Kevin Bohrer < Katie

Lewis < Kristin Engman <

Andrew,

Please send me the Powerpoint & maps from 9/24/18 6 PM presentation on 2020 2021 Neighborhood Roadway Reconstruction.

Also here are some additional questions I would like answered:

- How far east will the sidewalk on 56th St. go from Hanson Road? Since 56th St. east of Melody Lake A was done several years ago & **no sidewalk** was added the their portion of 56th St. what is the objective of adding a sidewalk to my portion? Please also include a link to the walkability/bike-ability study referenced last night.
- I would like the **no sidewalk** petition format that you mentioned exists.
- Also if the decision is made to move ahead with a sidewalk along 56th with this project, I want to know how to get the City of Edina to maintain it. There is **no way** during a typical or bad winter that I will be able to keep a sidewalk clear since I can barely keep my driveway open with these new big & fast snowplows that bury me each time they come thru.

Thank you so much for reminding us at the presentation that we can add coverage for service lines in & out of our house to our homeowners insurance. I did that today since my homeowners renewal is on Fri!

Please keep me in the loop especially about 56th St since I have a corner lot at 56th & Dale Ave.

Thanks.

RuthAnn Metzger

Kristin — I do not have Jon's email address so please share this email with him. Since he was at the meeting last night also, I thought he might like to see what my questions are for the presenters. Looks like we have a new battle to fight!

Alissa,

The City does have long-term plans to install a sidewalk on W 56th St between Code Ave and Normandale Rd; however, staff is not recommending constructing this segment in 2020. At the time this area was reconstructed (2012), the City was still funding new sidewalks through special assessments to adjacent property owners. Starting in 2013, sidewalks are now entirely funded by the Pedestrian and Cyclist Safety (PACS) Fund, which is generated through private utility franchise fees. With the creation of this fund, and subsequent network planning efforts (such as the Pedestrian and Bicycle Master Plan), the City has decided to take a more proactive approach to improving conditions within the City for those who walk or bike.

While I agree that a painted facility on the street would be less costly and easier to maintain, there is no precedent for such a facility in Edina. Our recent engagement efforts indicated a strong desire among those who walk and bike in the City to be more separated from motor vehicle traffic. This sentiment is reflective of the general consensus within the industry; that people feel safer and are more likely to walk or bike when they are provided a facility separated from motor vehicles. In my opinion, a painted lane on the roadway would not be considered sufficiently safe or comfortable to most people who walk or bike.

When the City identifies the best opportunity in the future to install this remaining portion of sidewalk (Code to Normandale), staff will reach out to affected property owners to discuss construction limits and impacts. All associated costs at that time will be covered by the PACS Fund. As of now, this segment is not in the City's 5-year Capital Improvement Plan. Given our other priorities across the City, I would generally place this segment in the 10-15 year timeframe; however, that schedule is purely speculative and subject to change.

Thanks,

Hi Andrew, Thank you for your email. I just want to clarify that there is not a proposal for a sidewalk from code to the frontage road on west 56th? The map shows that there is. Also are there any instances in Edina where instead of putting a sidewalk in there has been a painted bike lane used instead? This seems like a more cost effective solution that requires less maintenance from the city and home owners?

I would also appreciate if the planning committee reviewed the input from the homeowners on w. 56th street when the street reconstruction was originally completed. We were surveyed and there was little interest in sidewalks or street lamps. Thank you!

Alissa,

Thank you for your email; I'm happy to provide some additional information.

At the October 24 meeting, the Transportation Commission was presented the draft engineering studies for the 2020 roadway reconstruction projects. One of these projects is Melody Lake A/Grandview A, which includes a proposed sidewalk on the south side of W 56th St between Hansen Rd and Code Ave. This sidewalk is recommended in the City's Pedestrian and Bicycle Master Plan (https://www.edinamn.gov/494/Pedestrian-Bicycle-Master-Plan), which was approved by City Council in 2018. The development of this plan included significant public engagement throughout 2017, including online materials and surveys, open houses, meetings with the Transportation and Planning Commissions and finally, a City Council public hearing. In general, the network of sidewalks, trails and bike facilities recommended by this plan is intended to provide connections to schools, parks, between neighborhoods and to other popular amenities and destinations.

As the draft engineering study stated, staff is currently only proposing to construct the W 56 St sidewalk between Hansen Rd and Code Ave in 2020 (within the project limits of the roadway reconstruction project). The south side of the street was selected after evaluating impacts within the right-of-way, including trees, landscaping and utility poles. While the Plan ultimately recommends continuing the sidewalk further east to the frontage road, staff understands that retrofitting a sidewalk in an area that was recently reconstructed comes with significant challenges and impacts. If the sidewalk east of Code Ave is not proposed for construction in 2020, it would remain a recommended facility per the Pedestrian and Bicycle Master Plan. This means that staff would consider installing it a later time; most likely, in conjunction with a future overlay project or if the City were to receive a petition from adjacent property owners.

The meetings of the Transportation Commission are no longer televised, so there are no

videos since October 2016 for you to view. However, the final meeting minutes can be found here - https://edina.novusagenda.com/agendaintranet/. The Commission will meet again Thursday, November 21 at 6:00, but they will not be discussing this project as part of their agenda. You are certainly welcome to attend, however, to voice your comments and concerns, or you could use the online Correspondence Submission form (https://edinadocs.edinamn.gov/Forms/contact) to share your feedback with the entire commission. The next public meeting where the Melody Lake A/Grandview A project will be discussed is at the City Council public hearing on December 9, 2019 at 6:00. At this meeting, staff will present their recommendations, residents will be permitted to provide comments or questions, City Council will discuss and vote to approve the project.

If you have additional questions, please let me know.

Thanks,

Andrew Scipioni, Transportation Planner

How did you find us?	Other
Message	This is for transportation planning: I looked over the minutes from Oct 24 and was surprised to see that our street (w 56th street) is recommended for sidewalks on the south side. Please give me some background to this decision. Why were homeowners not notified of this proposal prior to the meeting? This decision lacks transparency. I was unable to see any transportation meeting videos (the last one was from Oct 2016). Please include a link so I can watch the meeting.
	From my prospective it seems inefficient to install sidewalks when the streets were recently reconstructed meaning the aprons will be redone along with sod again. In addition why would the sidewalks be installed on the south side? The snow melts much faster on the north side making them easier to clear in the winter. Would you please include the date of the next meeting that will be discussing this project? Thank you for answering my questions! Alissa Movern

Subject: RE: Proposed sidewalk Melody lake

Date: Wednesday, October 30, 2019 5:54:02 PM

Mary Jo,

I wanted to follow up with a couple clarifications.

- Engineering staff has not recommended a sidewalk be constructed in 2020 between Code Avenue and Normandale Avenue.
- Engineering staff will recommended a sidewalk be constructed at an opportune time in the future, either as part of a scheduled roadway maintenance or utility project.

Thank you.

Subject: RE: Proposed sidewalk Melody lake

Mary Jo,

Thanks for your input. The best way to provide feedback on the Pedestrian and Bicycle Master Plan is to reach out to the City Council. The next decision point for the W. 56th Street sidewalk will be at the Public Improvement Hearing in the Council Chambers on December 9, 2019 at 6 PM.

Historically sidewalks and shared use paths are separate from the roadway per the referenced Living Streets Plan.

Hi there,

I see there is a proposed sidewalk on W. 56th street from the frontage road to Hansen Rd. Part of the streets from the frontage road to Code Ave. had new streets installed seven years ago. Code Ave. to Hansen road will be getting new streets next year.

I propose that instead of sidewalks being installed an upgrade to a "shared use path/bike lane" would be a better option. Our streets are wide enough to accommodate this. Installing sidewalks in the area that had the new streets installed already would be a costly option. Sidewalks were decided against at the time of the street installation. The use of a "shared use path/bike lane" would avoid the costs of ripping up and repairing the driveways, sod, irrigation systems, and curbs again. Another advantage would be that the street department would be plowing the road curb to curb in the winter so they would always be maintained. Additionally there are two houses close to Hansen road that have their backyards back up to W. 56th street. They actually live on Dale Ave. I'm guessing they will not walk through their backyard or down the street and around the corner to maintain the sidewalk.

If the city feels a need to install sidewalks with the area getting new streets next year I suggest a "shared use path/bike lane" from the frontage road to Code Ave. and sidewalks from Code Ave to Hansen road. That would avoid all the costs mentioned above and any potential damage to the streets that were already installed from the heavy equipment needed. A "shared use path/bike lane" would be a very cost effective option.

Thank you, Mary Jo Palmer From: Andrew Scipioni

Subject: RE: Question Melody Lake Reconstruction

Date: Tuesday, November 5, 2019 12:32:33 PM

Patrick,

To clarify, the dividing line between the 2020 and 2021 project areas is Grove St between Hansen Rd and Tingdale Ave (see image below from the City's Anticipated Roadway Reconstruction map, 2019-2024). Benton Ave lies between Melody Lake B and Birchcrest C, which are both proposed for 2021 reconstruction.

Benton Ave itself will not be included in either of these projects as it was resurfaced in 2017, but it may be subjected to short-term closures in 2021 for watermain or other improvements at the intersections. No additional work on Benton Ave is anticipated in the City's 5-year Capital Improvement Plan.

Andrew

Earlier you responded to my question about W 56th St. Now another question.

Some residents are concerned about the back to back projects 2020 and 2021 which will impact travel for 2 years in Melody Lake area.

My question:

BentonAve. has recently been resurfaced. It is the dividing line for the two projects. Will it be open (Frontage road to Tracy) during the whole 2 year period or is more work scheduled. If so which year?

Thanks in advance for your reply.

Patrick Finley 5603 Bernard Pl

In a message dated 10/30/2019 4:26:27 PM Central Standard Time, ascipioni@EdinaMN.gov writes:

Patrick,

Yes, the sidewalk on W 56th St between Hansen Rd and Code Ave is still being recommended for construction in 2020. The roadway between Hansen Rd and Dale Ave is proposed to be reconstructed to 20' wide with a 5' sidewalk on the south side. Staff has asked the adjacent properties along this segment about the need for on-street parking and will be recommending no on-street parking between Hansen Rd and Dale Ave. This will allow for adequate space for traveling vehicles and allow the City to construct the roadway and sidewalk within the existing 40' public right-of-way.

From staff's perspective, this roadway reconstruction project is the appropriate opportunity to construct the sidewalk between Hansen Rd and Code Ave. Combining these projects allows the City to minimize property impacts and reduce costs compared to installing the

sidewalk by itself. The 2020 project gives the City the opportunity to install about half (1,400' of 2,725') of the total proposed sidewalk on W 56^{th} St, which we feel is a worthwhile investment into the City's sidewalk network. The remaining length will be installed at an opportune time in the future, either as part of a scheduled roadway maintenance or utility project or if petitioned by the adjacent property owners.

EXTERNAL EMAIL ALERT: This email originated from outside the City of Edina. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Andrew

I understand that the sidewalk on W 56th east from Code to frontage road is now deferred to later date.

However the sidewalk from Code to Hansen will be installed as part of the 2020 project. Is this correct.?

As you know the roadway from Dale to Hansen is very narrow and is restricted by the RR tracks. I have seen several survey crews in that area and I am wondering if in fact the plan will include sidewalk for that block?

If so how? Proper street width is more important for traffic safety and should be paramount over sidewalk.

If not, does it really make sense just to do the two blocks from Code to Dale? Why not wait and do the whole sidewalk from the frontage road to the west when the time is right.?

- 1	I wonder if you could comment and enlighten me on the sidewalk plan. I know several neighbors are confused also.

Andrew

Thanks for the prompt reply and clarification on the issue. That one block will be narrow. The City will need to bring in some fill because there is a low spot that floods about the middle of the block. The other issue is that visitors to the Fraser house on the corner often park on 56th. The no parking is a good solution but visitors will need to now park on Hansen.

The other concern is the visitor parking on 56th at the corner of Dale(The South- East corner). A second Fraser house is there. The street curves and the cars parked on 56th are a hazard.. Cars are parked there most of the day. Cars traveling East cannot see around parked cars. So if a car is coming down 56th traveling west the east bound car can't see it. Adding the sidewalk and narrowing the street will make it more dangerous. You might consider no parking there as well. Fraser visitors and workers would be required to park on Dale or in the house driveway.

I hope it all works out

I will share the information with neighbors. Thanks again.

Subject: RE: Question Re: Melody Lake A & B, Birchcrest Roadway Reconstruction

Date: Monday, September 14, 2020 11:52:21 AM

John,

The project will likely begin in April 2021, but not on every street. Some streets may not be started until August / September. We won't know the sequence of construction until next spring, since that's up to the contractor.

Generally local low volume streets are not closed during construction. Generally, you can get in and out of your driveway each morning and evening during construction with some exceptions like concrete installation. There may be instances during the day that you will be asked to park on an adjacent street for the day while they work in front of your driveway.

It's important that you contact our construction inspector when you know your private contractors schedule so coordination can occur with the City's contractor.

Thank you for the positive feedback.

Hello Aaron,

First, I want to thank you and your department for doing what I consider to be an excellent job of communicating and updating the residents regarding the upcoming road reconstruction. I attended two of the meetings and I thought the presentation was well done.

Here is my question:

Several of us experienced hail damage a few weeks ago and need our roofs replaced. I would like to have my chimney repaired before I have the roof re-

shingled, and the soonest I can get that done would be early next spring (temperatures permitting). Do you have an approximate idea of when access to our homes by contractors would be restricted? I see that construction will begin sometime in April, but I don't know how that would affect my situation. At what point would our street actually be closed?

Thank You,

Lucinda,

You're very welcome. I agree that there will be some challenges as the project moves forward, but we sincerely hope the sidewalks are seen as a benefit to everyone in the neighborhood; improved access to Garden Park, more connections between neighborhoods, and better opportunities for active living. Of course, we are always open to hear the perspectives of the residents and take that into consideration. In the end, each of these projects is a balancing act between the desires of the current residents and the visions Council has for the future of Edina.

Thanks for your reply Chad and thank you all for addressing this much needed issue of sidewalks on W 56th. I appreciate you disclosing public dissemination of our correspondence, yes I am just fine with it being disclosed.

Here is my (and my wife's) formal response to opposition of sidewalk / petitioning, via nextdoor.com:

Hi Jeff, My name is Judith Hawley and I live at 5013. I am working with Alissa Movern (5005) to try and convince the city council to maintain and repair the proposed sidewalk. We need to submit a petition containing our reasons and the signatures of affected homeowners. Please let me know if you are interested in discussing and/or signing the petition. Thanks! Judith

You

Hello Judith - I appreciate you reaching out relative to neighboring sidewalk concerns. Though I understand and respect where fellow neighbors are coming from, with regard to maintenance and repair, I'm of the position that maintaining and repairing a sidewalk is largely a byproduct of "life in the big city." I understand it is viewed and perceived by many as: an unfunded liability to homeowners, but I feel the benefits outweigh the costs. My \$.02 is that the sidewalk should be oriented on the north side of the street, so as to harness the power of suns heat in winter to aid in melting sidewalk snow and ice. Naturally the sidewalk would need to terminate its western run once it encroaches upon railroad land but; the simple work around is to have a sidewalk transition to the southside of 56th at that juncture. Additionally, I view the "walkability" of the neighborhood as hampered by a lack of sidewalks. West 56th is the only through-street in the neighborhood and consequently promotes a thoroughfare attitude from motorists. I have witnessed on numerous occasions, vehicles traveling up

and down 56th upwards of 50mph. I believe a sidewalk, which invariably narrows the street also engenders a stronger sense of community. For me, it has many more positive externalities than negative, especially as the neighborhood appears to have an uptick in young children. I'm an advocate for collaboration, so I want to keep an open mind. I'm not necessarily saying "no" to a petition regarding maintenance and repair but I would hate to see the sidewalk initiative be derailed entirely. Do you know if city maintained repairs of sidewalks is a common request from neighbors / neighborhoods in general? Thank you, Jeff Waychoff

Hi Aaron

I was recently informed by a neighbor that there's a proposed plan for a sidewalk on the south side of West 56th.

Our street was reconstructed several years ago so we have not been noticed about the upcoming project.

Just a friendly piece of advice...if you are going to build the sidewalk on the entire street I would suggest you notice the whole street. I could be wrong but I don't think we have ever received anything and if a sidewalk through my front yard is part of the plan I would strongly encourage you to publicly notify the whole street.

I follow City issues pretty close so if I have been noticed I apologize.

Thanks Chris 5037 West 56th Edina MN 55436

SMG/NML/pjk

REPORT/ Edina, City of, Hansen Road Wall Option Report, Edina, MN

Stephen M Gale Math tuly

1.0 <u>INTRODUCTION</u>

We understand that the City of Edina is planning to reconstruct Hansen Rd. adjacent to Garden Park and the CP railroad tracks as part of an area wide street reconstruction plan. The proposed project includes replacement of an existing retaining wall that supports the roadway along approximately 350ft of the alignment south of the at-grade CP rail crossing. According to the City's survey files and the original roadway construction plans, the existing wall contains both a single and two (2) tier timber faced retaining structure with tie-back timber anchors. The wall is shown to have a maximum height of approximately 8ft. An approximately 2H:1V, 15ft tall, heavily wooded slope exists below a portion of the wall base, including where it is at its maximum height of 8ft. The wall also serves as the grade separator between Hansen Road and a driveway for the residence at 5700 Hansen Road. At this location, the wall contains two tiers with landscaping.

The City survey drawings indicate that the retaining wall face is approximately 8-12ft back from the Hansen Rd curb and that existing underground utilities (water main and fiber optic) run along the curbline. Where the wall contains a single tier, it is located approximately 12ft from the Hansen Rd curb. Where the wall contains two (2) tiers, it is located 8ft back from the curbline with a 4ft wide bench between wall tiers. The base of the wall is located approximately 12ft back from the Hansen Rd curbline along the entirety of the wall alignment.

The City has indicated that the timber wall is scheduled to be replaced as part of a Hansen Road improvement project scheduled for the 2021 construction season.

The City has requested that we evaluate wall reconstruction options that would reduce disturbance to the existing utilities, the adjacent residences and the wooded hillside slope at the bottom of the existing wall. This report was prepared in substantial accordance with our agreement dated September 3, 2020.

2.0 SUBSURFACE CONDITIONS

Subsurface Investigation Procedure

Two (2) soil borings were drilled from the level bench area adjacent to Hansen Rd along the retaining wall alignment. The soil boring locations were located in the field by Gale-Tec Engineering, Inc. The approximate locations are shown on the Soil Boring Location Diagram included in the Appendix.

The subsurface exploration was performed on September 16, 2020. Soil borings were advanced with a truck-mounted CME 75 drill rig. Gopher State One Call was contacted prior to drilling for utility clearance.

The two (2) soil borings were drilled to a depth of 25 ft. Soil borings were advanced with a hollow stem auger. Soil samples were collected at 2-1/2 ft. intervals using the split-spoon sampling procedure to a depth of 10 ft and then at 5 ft. intervals to a depth of 30 ft. In the split spoon method the number of blows required to drive the sampler into the ground in 6-inch increments is recorded. The sampling spoon is driven into the ground with a 140-

pound hammer falling a distance of 30 inches. Soil samples were placed in glass jars and delivered to our office for examination and classification. The depth to groundwater and any aggregate base thicknesses were recorded during drilling operations. The borings were backfilled with grout upon completion.

As required by State of Minnesota – Department of Health, a sealing record of the two boreholes was prepared (Record No. 373870) and submitted to the Department of Health. A copy of the record is included in the Appendix.

The surface elevations at the two (2) boring locations were not obtained at the time of drilling. Based on the survey files obtained from the City, we estimate soil boring ground surface elevations of approximately 939ft.

2.1 Soil and Groundwater Conditions

At both boring locations an approximately 6 inch thick layer of clayey sand topsoil was encountered at the ground surface. Beneath the topsoil layer an approximately 8ft thick layer of loose to medium dense silty sand to silty clayey sand fill layer was encountered that was likely placed when the retaining wall was initially constructed. The bottom of fill elevation, approximately ele. 931ft, corresponds to the bottom of the retaining wall elevation along the majority of the wall alignment.

Beneath the fill layer, native soils consisted of a stiff to very stiff sandy to silty clay soil layer. This soil layer contained a penetrometer estimated undrained shear strength of 2.0-3.0 tons per square foot (tsf). This stiff clay layer was encountered to the termination depth at both boring locations. This stiff layer, if undisturbed, would be an adequate base for the new retaining wall.

Groundwater was not encountered in the boreholes either while drilling (WD) or after the boring was completed (AB). Boreholes were backfilled with grout shortly after boring completion. Given the clay type soils present at this location, an extended period of time is required for ground water to seep and equilibrate in the boreholes. The installation and monitoring of a piezometer would be required to identify the long term ground water table, though the indications are that the groundwater table was below a depth of 25ft at the time of the exploration.

3.0 POTENTIAL WALL RECONSTRUCTION OPTIONS

The City has indicated that the proposed retaining wall would be constructed along approximately the same alignment as the existing timber wall alignment. The City has also indicated that a replacement retaining wall type should: reduce impacts to the adjacent residence, reduce impacts to the existing utilities beneath the Hansen Road curbline and reduce impacts to the existing trees and vegetation along the hillside slope.

Our preliminary analysis indicates that a fill type retaining structure containing geogrid reinforcement, or another type of tieback reinforcement, will be required to maintain retaining wall stability due to the steep sloping toe at the base of the retaining wall along a portion of its alignment. Along the portion of the wall alignment where a sloping toe is <u>not</u> present, such as the wall alignment adjacent to the residential property, a gravity wall type could be considered.

Cut type retaining structures, such as a sheet pile wall, or soldier pile wall would require either a vibratory hammer to install sheeting or pile driving for soldier pile installation. Construction of these wall types would likely cause significant vibrations and potential structural distress to the adjacent residential structures and adjacent underground utilities. These wall types would also likely be more expensive than other fill type wall options due to the amount of steel materials required.

Fill wall types containing geogrid reinforcement could be economical wall options that could be designed to reduce the impacts to adjacent residence and the downslope hillside. Wall types that could be considered include: 1) Precast Modular Block wall with geogrid reinforcement (PMBW or Big Blocks), 2) "dry cast" Modular Block Wall (MBW) and 3) 1H:2.75V (70 deg.) Reinforced Soil Slope (RSS).

Option 1 – Gravity/Geogrid Reinforced Big Block Wall

One potential wall type could be a precast modular blocks (Big Blocks) that could be constructed as a gravity type wall along a portion of the wall alignment where no sloping toe is present. At locations where a sloping toe exists at the retaining wall base, geogrid reinforcement would be required. At the sloping toe location, preliminary global stability analyses indicate that the geogrid reinforcement length would need to extend approximately 10ft back from the block face, which is approximately 100% of the PMBW wall height. Also, it is recommended that the PMBW be embedded approximately 3-4ft at the sloping toe locations. Normally a 2ft embedment is recommended.

At locations where geogrid reinforcement will be required behind the block wall face, 24 inch wide retaining wall blocks could be utilized along with geogrid reinforcement extending approximately 10ft back from the front face of the wall. At locations outside of the sloping toe area, such as where the wall is located adjacent to the existing residence, a preliminary wall stability analysis indicates that a 60 inch wide retaining wall block with no geogrid reinforcement will be required. At both wall locations and assuming a 1H – 1.5H:1V excavation backslope, the wall excavation limits will likely expose the existing water main and fiber optic utilities located beneath the Hansen Road curbline. These utilities would likely need to be relocated prior to wall reconstruction. A portion of the Hansen Road driving lane pavement section would also need to be removed and replaced as part of wall excavation.

Most of the "Big Block" manufacturers have several options for facing textures that have been approved by MnDOT for applications adjacent to roadways where salt spray can occur. However, MnDOT has special PMBW requirements where these walls can only support CSAH or TH roadways if geogrid reinforcement is included. Since this is NOT a CSAH or TH roadway, MnDOT standards would not need to be followed, though they are good practice. Plans and Specifications would need to be created such that a salt resistant concrete block product is specified. Several similar gravity Big Block retaining walls have

been constructed for recent City of Edina projects, including: W. 70th St, Garden Park, and Interlachen Blvd.

GTE has previously designed this wall type on projects throughout Minnesota and the Upper Midwest.

The top wall course would be 24 inches in depth and a rail or fence could be installed on this block at the top of the wall. Internal and external retaining wall stability analyses should be performed as part of retaining wall final design to determine the required block widths for the gravity structure and the geogrid reinforcement strength and run-out lengths for the reinforced section.

The PMBW geogrid reinforced section will require a granular reinforced fill material (the fill material placed behind the wall within the reinforcement zone) that meets the requirements of a MnDOT Select Granular Material (Spec. 3149.2B). This material should contain a friction angle of at least 35 degrees. This material would need to be imported as the soil borings indiate clay soils on-site. The wall would need to be supported on a leveling pad that would need to extend approximately ½ to 1 foot beyond the front and back of the block. The leveling pad should consist of a MnDOT Spec. 3138 Class 5 or Class 6, virgin or recycled material, supported over a recompacted subgrade.

Additionally, a one (1) foot thick gravel drainage layer would need to be placed between the back of the block and the wall backfill. The drainage rock should consist of a ³/₄ inch clear crushed rock and include a filter fabric wrap. A drainage pipe that includes several outlets through the wall should also be placed at the wall base.

We estimate the installed cost of a Big Block wall to be approximately \$60/SF of wall face. A more accurate construction cost could be estimated by reviewing the recent past City of Edina wall projects mentioned previously. We estimate the reconstructed retaining wall (350ft long by 8ft tall) to be approximately 2,800 SF of wall facing. For comparison purposes only, a wall reconstruction cost of \$170,000 is estimated at this time. This cost does <u>not</u> include removal of the existing wall, importing granular fill, pavement replacement or guardrail replacement.

We estimate an approximately six (6) week Big Block retaining wall construction time. This would include two (2) weeks for deconstruction and excavation of the existing timber wall and four (4) weeks for wall construction, fence/guardrail placement and pavement reconstruction.

Option 2 – Modular Block Wall (MBW) with Geogrid Reinforcement

A second wall type that could be considered would be a "dry cast" modular block wall with geogrid reinforcement placed along the entirety of the wall alignment. A "standard" modular block unit weighs approximately 80 lbs, is 1ft in depth and covers one (1) square foot of wall face.

Commercial dry cast modular blocks can be susceptible to degradation from salt and freeze-thaw cycles. Several block manufacturers have developed more durable modular block units that are resistant to this degradation. MnDOT has developed a block resistance test and has a prequalified list of block types/manufacturers that can provide the salt tolerant blocks. We recommend that this type of block be used for this project, if an MBW is selected.

A current MnDOT Technical Memo (14-03-MAT-01) includes design guidance that does not allow for dry cast modular block walls to support CSAH or TH roadways. The City would not have to follow this guidance, as previously discussed in the PMBW wall section.

Preliminary stability analyses indicate that a 8 foot exposed MBW with an additional 1-2ft embedment depth would require geogrid reinforcement that would need to extend into the wall backfill a length of approximately 8-10ft. Where the wall is less than 8ft in total height, then the geogrid reinforcement would need to extend approximately 6ft back behind the wall face. The stability analysis indicates that the geogrid reinforcement would need an allowable tensile strength (Tal) of at least 2500 lb/ft and be placed at a maximum of 2ft vertical intervals along the height of the wall. Modular block wall internal and external stability analysis would need to be performed as part of the retaining wall final design.

Similar to the geogrid reinforced PMBW wall section, the modular block wall reinforced fill (the fill material placed behind the wall within the reinforcement zone) would need to consist of a granular fill material that meets the requirements of a MnDOT Select Granular Material (Spec. 3149.2B). This material should contain a friction angle of at least 35 degrees. This material would need to be imported or the existing retaining wall backfill material could be reused if it meets the requirements of a MnDOT Select Granular Material.

For a modular block wall with a total height of 8-10ft, we estimate a total excavation width of approximately 22ft behind the wall face will be required. This excavation width assumes an 10ft wide geogrid length and an 1H:1V excavation backslope, which is a typical backslope angle as required by OSHA for cohesive soils. Similar to the Big Block wall option, we estimate that this wall excavation will expose the exiting utilities located beneath the Hansen Road curbline and they will likely need to be relocated. A portion of the Hansen Road driving lane pavement section would also need to be removed and replaced as part of wall excavation.

We estimate the installed cost of a modular block wall to be approximately \$45/SF of wall face. For comparison purposes only, we estimate a 350ft long by 8-10ft high MBW would cost \$140,000. This price would <u>not</u> include the demolition of the existing timber wall, importing granular fill or pavement, utility and guard rail construction. The modular block wall construction time would be similar to that of the Big Block Wall.

Option 3 – 1H:2.75V (70 Deg.) RSS

A third cost effective wall type that could be considered would be a vegetated face 1H:2.75V Reinforced Soil Slope (RSS). This type of grade separation structure is allowed

by MnDOT to support roadways. Unlike concrete walls, RSSs, are "flexible" structures which can tolerate some settlement without suffering a loss of structural capacity. MnDOT has a standard template for a 70° (1H:2.75V) RSS, however this template could <u>not</u> be used for this project due to the 2H:1V sloping toe that would be present at the wall base. An actual RSS design would be required. 1H:2.75V RSSs consist of Select Granular backfill and multiple layers of geogrid reinforcement, typically installed at 2-3ft vertical increments at horizontal lengths typically equal to 80-120% of the RSS height. Similar to the other wall options, the geogrid length requirement would likely require encroachment and relocation of the existing utilities and removing and then replacing the pavement section.

The face of a 1H:2.75V RSS is formed using a tiered face, which typically consists of a series of vertical elements, successively stacked at a given horizontal offset to form tiers. The vertical elements typically consist of geocells or geotextile mesh/turf reinforcement mat wrap within metal wire basket forms. The wire basket face approach is shown in Figure No.1, while the geocell face approach is show in Figure No. 2. Vegetation establishment along the horizontal tiers is important to reduce slope face erosion potential over the long term.

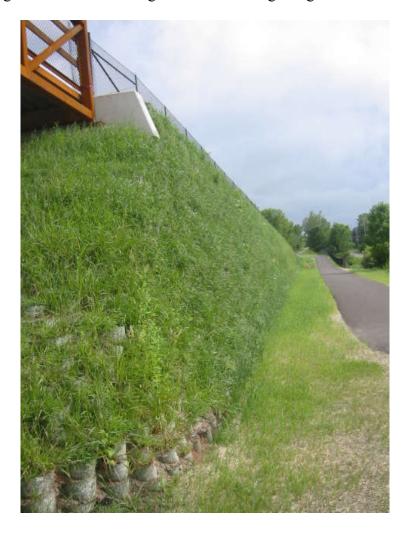

Figure No. 2: RSS Facing Constructed using Geogrid and Geocells

Vegetation establishment on the RSS slope face is a critical component of the RSS design and construction. A specialty topsoil, seed and fertilizer mix that promotes rapid, thorough vegetation establishment should be used. On past projects, GTE has required that the seed and fertilizer be pre-mixed prior to installation along the slope face. Frequent watering and potentially hydroseeding or re-seeding during and post construction will also be required to promote vegetation establishment.

We estimate the installed cost of a 1H:2.75V RSS to be approximately \$20/SF of face. For comparison purposes only, we estimate a 350ft long by 10ft high RSS to cost about \$70,000. This price would <u>not</u> include the demolition of the existing timber wall. The RSS construction time would be similar to that of Options 1 and 2 with additional long term maintenance potentially required to maintain vegetation.

4.0 **SUMMARY**

We believe that there are several types of grade separation structures that could be used for this project. Each wall type would require geogrid reinforcement along at least a portion wall alignment where the sloping toe is located at the wall base. An RSS or Modular Block Wall (MBW) would require geogrid reinforcement along the entirety of the wall alignment.

Regardless of the wall type selected, the existing fiber optic and water main located beneath the Hansen Rd curbline will be exposed by the wall excavation and would either need to be relocated prior to construction or continually supported in the open excavation.

A cost effective wall option could be a 1H:2.75V RSS. This wall type may require additional maintenance beyond initial construction, in the form of watering and seeding for vegetation establishment. The construction time for all wall types should be similar.

Once a wall reconstruction option has been determined, then we can work with the City to develop a final design including plans and specifications.

5.0 GENERAL QUALIFICATIONS

This report has been prepared in order to aid in the evaluation of proposed retaining wall reconstruction project and assist the City of Edina in the design of this project. The scope is limited to the specific project and location described herein, and our description of the project represents our understanding of the significant aspects relevant to soil and foundation characteristics. In the event that any changes in the design, as outlined in this report, are planned, we should be informed so that changes can be reviewed and the conclusion of this report modified or approved in writing. As a check, we recommend that we be authorized to review project plans and specifications to confirm that our report recommendations have been interpreted in accordance with our intent. Without this review, we will not be responsible for misinterpretations of our data, or analysis and/or our recommendations nor how these are incorporated into the final design.

The analysis and recommendations are based on the data obtained from soil borings performed at the locations indicated in this report. This report does not reflect any variations which may occur between these borings. In the performance of subsurface explorations, specific information is obtained at specific locations and at specific times. It is a well-known fact that variations in soil conditions occur in most sites between boring locations. The nature and extent of the variation may not become evident until the course of construction. If variations appear event during foundation installation or RSS construction, it will be necessary for a re-evaluation of the recommendations of this report after performing on-site observations during the construction period and noting the characteristics of any variations.

WATER LEVEL MEASUREMENT SYMBOLS:

WL : Water Level
WCL : Wet Cave In
DCL : Dry Cave In
WS : While Sampling
WD : While Drilling

BCR : Before Casing Removal ACR : After Casing Removal

AB : After Boring

Water levels indicated on the boring logs are the levels measured in the boring at the times indicated. In pervious soils, the indicated elevations are considered reliable ground water levels. In impervious soils, the accurate determination of ground water elevations is not possible in even several days of observation, and additional evidence of ground water elevations must be sought.

GRADATION DESCRIPTION & TERMINOLOGY

Coarse Grained or Granular Soils have more than 50% of their dry weight retained on a #200 sieve; they are described as: clays or clayey silts if they are cohesive, and silts if they are non-cohesive. In addition to gradation, granular soils are defined on the basis of their relative in-place density and fine-grained soils on the basis of their strength or consistency, and their plasticity.

Danasistica Tassa(a)

		<u>Descriptive Term(s)</u> (Of Components Also Present	
Major Component of Sample	Size Range	in Sample)	Percent Dry Weight
Boulders	Over 8" (200mm)	Trace	1 – 9
Cobbles	8" to 3" (200mm to 75mm)	Little	10 – 19
Gravel	3" to #4 sieve (75mm to 2mm)	Some	20 – 34
Sand	#4 to #200 sieve (2mm to 0.074mm)	And	35 – 50
Silt	Passing #200 sieve (0.074mm to 0.005mm)		
Clay	Smaller than 0.005mm		

CONSISTENCY OF COHESIVE SOILS:

RELATIVE DENSITY OF GRANULAR SOILS:

Unconfined Comp. Strength,			
Qu, tsf	Consistency	N – Blows / ft.	Relative Density
<0.25	Very Soft	0 – 3	Very Loose
0.25 - 0.49	Soft	4 – 9	Loose
0.50 - 0.99	Medium (Firm)	10 – 29	Medium Dense
1.00 – 1.99	Stiff	30 – 49	Dense
2.00 - 3.99	Very Stiff	50 – 80	Very Dense
4.00 - 8.00	Hard	80+	Extremely Dense
>8.00	Very Hard

RE: Public Hearing Notice for 5100 to 5113 Grove Street Melody Lake A & B, Birchcrest C and Grandview A Neighborhood Roadway Reconstruction

Dear Resident:

Staff has recently discovered that while the addresses of 5100 to 5113 Grove Street within the Melody Lake A & B, Birchcrest C and Grandview A Neighborhood Roadway Reconstruction Area received the legally required mailed notice of the public hearing conducted on December 7, 2020, your property was excluded from the list of properties to be assessed. The 5100 to 5113 Grove Street properties will be included in the area to be assessed the cost of the proposed improvement. Mailed notice was sent, on November 20th, to properties within the project area and a public hearing was conducted.

Council did not decide about the preliminary assessments following that public hearing but instead ordered staff to bring back more information. Staff has 6 months to bring back more information to assist council in making a final decision about preliminary assessments and whether to authorize the project for 2021 construction.

Please find this letter and notice as an invitation to provide public testimony in regard to the project. Staff already provided council with a lengthy presentation on the project on Dec. 7, 2020. Instead of repeating the presentation on the April 6, we would like to make you aware that you can view the recording and discussion of the public hearing at https://www.edinamn.gov/746/Watch-a-City-Meeting.

Project specific information including the Preliminary Engineering Study can be found here: https://www.bettertogetheredina.org/melodybirchcrest.

NOTICE OF PUBLIC HEARING ROADWAY IMPROVEMENTS PROPOSED IMPROVEMENT NO. BA-457 MELODY LAKE A & B, BIRCHCREST C AND GRANDVIEW A NEIGHBORHOOD ROADWAY RECONSTRUCTION

The Edina City Council will meet virtually, on Tuesday, April 6, 2021, at 7:00 p.m., to consider the public hearing on roadway improvements for Melody Lake A & B, Birchcrest C and Grandview A Neighborhood Roadway Reconstruction. This hearing is being conducted under the authority granted by Minnesota Statutes, Chapter 429.

This hearing has been called as a recommendation from staff. The proposed project would be constructed in the summer of 2021 with the assessment hearing occurring in the fall of 2022. The estimated cost is \$7,214,575.00 and is funded by special assessment. The estimated cost per assessable lot is \$24,200.00 per residential equivalent unit. The assessment can be divided over a fifteen-year period with interest accumulating on the unpaid balance.

The area proposed to be assessed the cost of the proposed improvement includes the following:

5109 to 5313 West 56th Street, 5100 to 5121 West 58th Street, 5105 to 5125 West 59th Street, 5044, 5100, 5124, 5200, 5300 and 5324 West 60th Street, 5100, 5101, 5120, 5121, 5200, 5201, 5215, 5216, 5300 and 5325 Benton Avenue, 5600 to 5921 Bernard Place, 5600 to 5916 Code Avenue, 5600 to 5821 Dale Avenue, 5800 to 5833 Eastview Drive, 5100 to 5113 Grove Street, 5114 to 5213 Grove Street, 5405 to 5920 Hansen Road, 5900 to 5913 Josephine Avenue, 5712 to 5733 Melody Lane, 5604 to 5637 Melody Lake Drive, 5809 to 5905 Tingdale Avenue, 5300 to 5328 Windsor Avenue

A public hearing was conducted on December 7, 2020 for all the listed properties except <u>5100 to 5113</u> **Grove Street**. The council delayed a decision on assessments for up to 6-months for staff to bring back more information. This public hearing is for the <u>5100 to 5113 Grove Street</u> that were missed with the original public hearing notice and public hearing.

Your receipt of this notice is an indication that property whose ownership is listed to you is among those properties which are considered to be benefited by the improvement.

The City Council can authorize the proposed project immediately upon the close of the hearing.

Staff's recommendations to City Council are:

- New 5-foot concrete sidewalk on the west side of Hansen Road and the south side of West 56th Street
- Hansen Road reconstructed to 24-feet wide south of CP Railroad crossing
- West 56th Street reconstructed to 24-feet wide; all other streets reconstructed to 27-feet wide
- One-sided parking on the west side of Hansen Road south of the railroad tracks and on the south side of West 56th Street east of Dale Avenue. No parking on West 56th Street between Hansen Road and Dale Avenue
- New concrete curb and gutter on all streets
- New bituminous pavement on all streets.
- Full replacement of underground watermain, water services, hydrants and valves

- Construction of a new retaining wall along the west side of Hansen Road.
- Spot repairs of the sanitary sewer main
- Storm sewer improvements to resolve local drainages issues and installation of sump drains where feasible

The Engineering Study will be available online as part of the April 6 City Council meeting agenda at http://bit.ly/2y3wCOo; under Meeting Type select City Council Meeting, click Search and you will see the April 6 Agenda.

To comment, you may:

- Write to City of Edina, Attention Engineering, 7450 Metro Boulevard, Edina, MN 55439.
- **Visit and comment** www.BetterTogetherEdina.org/melodybirchcrest
- Watch the virtual public hearing online or on Edina TV and call in to offer comments, leave a voicemail in advance or submit your comments online. Ways to participate are included in this mailing.

How to Participate in a Public Hearing

MEETING PROCEDURE:

The Mayor of Edina has determined that an in-person meeting is not practical or prudent because of the COVD-19 health pandemic.

Because of the health pandemic, it has been determined that physical presence at the regular meeting location by members of the public is not feasible.

Because of the health pandemic, it has been determined that physical presence at the regular meeting location by at least one member of the body, chief legal counsel or chief administrative officer is not feasible.

Therefore, the City Council will be participating in the meeting remotely.

How to Participate:

Public hearing input can be provided in a variety of ways to the City Council. Options 1 & 2 are available now:

- 1) Better Together Edina Website (www.BetterTogetherEdina.org/melodybirchcrest)
- 2) Voicemail (952-826-0377)

Options 3 & 4 are available the night of the meeting:

- 3) Watch the meeting
 - a. Edina TV (Comcast Channels 813 or 16)
 - b. Facebook.com/EdinaMN
 - c. EdinaMN.gov/LiveMeetings
- 4) Call in to provide live testimony at 1-800-374-0221. The conference ID number for the City Council meeting will be posted online closer to the public hearing date.

JOHN W OIEN & SHEILA A OIEN 5109 GROVE ST EDINA, MN 55436

RE: Public Hearing Notice for 5100 to 5113 Grove Street Melody Lake A & B, Birchcrest C and Grandview A Neighborhood Roadway Reconstruction

Dear Resident:

Staff has recently discovered that while the addresses of 5100 to 5113 Grove Street within the Melody Lake A & B, Birchcrest C and Grandview A Neighborhood Roadway Reconstruction Area received the legally required mailed notice of the public hearing conducted on December 7, 2020, your property was excluded from the list of properties to be assessed. The 5100 to 5113 Grove Street properties will be included in the area to be assessed the cost of the proposed improvement. Mailed notice was sent, on November 20th, to properties within the project area and a public hearing was conducted.

Council did not decide about the preliminary assessments following that public hearing but instead ordered staff to bring back more information. Staff has 6 months to bring back more information to assist council in making a final decision about preliminary assessments and whether to authorize the project for 2021 construction.

Please find this letter and notice as an invitation to provide public testimony in regard to the project. Staff already provided council with a lengthy presentation on the project on Dec. 7, 2020. Instead of repeating the presentation on the April 6, we would like to make you aware that you can view the recording and discussion of the public hearing at https://www.edinamn.gov/746/Watch-a-City-Meeting.

Project specific information including the Preliminary Engineering Study can be found here: https://www.bettertogetheredina.org/melodybirchcrest.

If you have any questions in regards to the project or the public hearing, feel free to reach out to me at 952.826.0318 or cmillner@EdinaMN.gov or Aaron Ditzler at 952.826.0443 or aditzler@EdinaMN.gov.

RE: Public Hearing Notice for 5100 to 5113 Grove Street Melody Lake A & B, Birchcrest C and Grandview A Neighborhood Roadway Reconstruction

Dear Resident:

Staff has recently discovered that while the addresses of 5100 to 5113 Grove Street within the Melody Lake A & B, Birchcrest C and Grandview A Neighborhood Roadway Reconstruction Area received the legally required mailed notice of the public hearing conducted on December 7, 2020, your property was excluded from the list of properties to be assessed. The 5100 to 5113 Grove Street properties will be included in the area to be assessed the cost of the proposed improvement. Mailed notice was sent, on November 20th, to properties within the project area and a public hearing was conducted.

Council did not decide about the preliminary assessments following that public hearing but instead ordered staff to bring back more information. Staff has 6 months to bring back more information to assist council in making a final decision about preliminary assessments and whether to authorize the project for 2021 construction.

Please find this letter and notice as an invitation to provide public testimony in regard to the project. Staff already provided council with a lengthy presentation on the project on Dec. 7, 2020. Instead of repeating the presentation on the April 6, we would like to make you aware that you can view the recording and discussion of the public hearing at https://www.edinamn.gov/746/Watch-a-City-Meeting.

Project specific information including the Preliminary Engineering Study can be found here: https://www.bettertogetheredina.org/melodybirchcrest.

If you have any questions in regards to the project or the public hearing, feel free to reach out to me at 952.826.0318 or cmillner@EdinaMN.gov or Aaron Ditzler at 952.826.0443 or aditzler@EdinaMN.gov.

Sincerely,

Chad A. Millner, PE Director of Engineering

NOTICE OF PUBLIC HEARING ROADWAY IMPROVEMENTS PROPOSED IMPROVEMENT NO. BA-457 MELODY LAKE A & B, BIRCHCREST C AND GRANDVIEW A NEIGHBORHOOD ROADWAY RECONSTRUCTION

The Edina City Council will meet virtually, on Tuesday, April 6, 2021, at 7:00 p.m., to consider the public hearing on roadway improvements for Melody Lake A & B, Birchcrest C and Grandview A Neighborhood Roadway Reconstruction. This hearing is being conducted under the authority granted by Minnesota Statutes, Chapter 429.

This hearing has been called as a recommendation from staff. The proposed project would be constructed in the summer of 2021 with the assessment hearing occurring in the fall of 2022. The estimated cost is \$7,214,575.00 and is funded by special assessment. The estimated cost per assessable lot is \$24,200.00 per residential equivalent unit. The assessment can be divided over a fifteen-year period with interest accumulating on the unpaid balance.

The area proposed to be assessed the cost of the proposed improvement includes the following:

5109 to 5313 West 56th Street, 5100 to 5121 West 58th Street, 5105 to 5125 West 59th Street, 5044, 5100, 5124, 5200, 5300 and 5324 West 60th Street, 5100, 5101, 5120, 5121, 5200, 5201, 5215, 5216, 5300 and 5325 Benton Avenue, 5600 to 5921 Bernard Place, 5600 to 5916 Code Avenue, 5600 to 5821 Dale Avenue, 5800 to 5833 Eastview Drive, 5100 to 5113 Grove Street, 5114 to 5213 Grove Street, 5405 to 5920 Hansen Road, 5900 to 5913 Josephine Avenue, 5712 to 5733 Melody Lane, 5604 to 5637 Melody Lake Drive, 5809 to 5905 Tingdale Avenue, 5300 to 5328 Windsor Avenue

A public hearing was conducted on December 7, 2020 for all the listed properties except <u>5100 to 5113</u> **Grove Street**. The council delayed a decision on assessments for up to 6-months for staff to bring back more information. This public hearing is for the <u>5100 to 5113 Grove Street</u> that were missed with the original public hearing notice and public hearing.

Your receipt of this notice is an indication that property whose ownership is listed to you is among those properties which are considered to be benefited by the improvement.

The City Council can authorize the proposed project immediately upon the close of the hearing.

Staff's recommendations to City Council are:

- New 5-foot concrete sidewalk on the west side of Hansen Road and the south side of West 56th Street
- Hansen Road reconstructed to 24-feet wide south of CP Railroad crossing
- West 56th Street reconstructed to 24-feet wide; all other streets reconstructed to 27-feet wide
- One-sided parking on the west side of Hansen Road south of the railroad tracks and on the south side of West 56th Street east of Dale Avenue. No parking on West 56th Street between Hansen Road and Dale Avenue
- New concrete curb and gutter on all streets
- New bituminous pavement on all streets.
- Full replacement of underground watermain, water services, hydrants and valves

- Construction of a new retaining wall along the west side of Hansen Road.
- Spot repairs of the sanitary sewer main
- Storm sewer improvements to resolve local drainages issues and installation of sump drains where feasible

The Engineering Study will be available online as part of the April 6 City Council meeting agenda at http://bit.ly/2y3wCOo; under Meeting Type select City Council Meeting, click Search and you will see the April 6 Agenda.

To comment, you may:

- Write to City of Edina, Attention Engineering, 7450 Metro Boulevard, Edina, MN 55439.
- **Visit and comment** www.BetterTogetherEdina.org/melodybirchcrest
- Watch the virtual public hearing online or on Edina TV and call in to offer comments, leave a voicemail in advance or submit your comments online. Ways to participate are included in this mailing.

How to Participate in a Public Hearing

MEETING PROCEDURE:

The Mayor of Edina has determined that an in-person meeting is not practical or prudent because of the COVD-19 health pandemic.

Because of the health pandemic, it has been determined that physical presence at the regular meeting location by members of the public is not feasible.

Because of the health pandemic, it has been determined that physical presence at the regular meeting location by at least one member of the body, chief legal counsel or chief administrative officer is not feasible.

Therefore, the City Council will be participating in the meeting remotely.

How to Participate:

Public hearing input can be provided in a variety of ways to the City Council. Options 1 & 2 are available now:

- 1) Better Together Edina Website (www.BetterTogetherEdina.org/melodybirchcrest)
- 2) Voicemail (952-826-0377)

Options 3 & 4 are available the night of the meeting:

- 3) Watch the meeting
 - a. Edina TV (Comcast Channels 813 or 16)
 - b. Facebook.com/EdinaMN
 - c. EdinaMN.gov/LiveMeetings
- 4) Call in to provide live testimony at 1-800-374-0221. The conference ID number for the City Council meeting will be posted online closer to the public hearing date.

Assessment Policy Final

Staff Presentation

STAFF REPORT

Date: April 6, 2021

To: Mayor and City Council

From: Chad A. Millner, P.E., Director of Engineering

Subject: Approve Revision to Assessment Policy

Information / Background:

The Street Funding Task Force recently completed their work and presented two recommendations to fund street reconstruction. Along with the funding recommendations, they also recommended removing subcuts and public retaining walls immediately from street reconstruction assessments. This topic was also discussed at the March 13, City Council Retreat.

At the retreat, in additional to facilitating a discussion on how street reconstruction is funded, staff presented the schedule and assessment concerns for the 2021 street reconstruction projects. The projects are Melody Lk and Creek Knolls. Staff voiced concerns that without removing subcuts and public retaining walls now, the street reconstruction program would have to be delayed until a decision is made on street funding. If council supports removing subcuts and public retaining walls now, the 2021 street reconstruction projects could most likely continue if we receive reasonable bids.

Staff reinforced that a decision is required on a permanent funding solution this summer otherwise the street reconstruction program would be paused. Council shared additional information they would need to continue the permanent funding discussion and decide.

Finance recently completed an analysis of debt refinancing associated with street reconstruction. With the restructuring of debt, there are sufficient cash funds to cover the cost of removing subcuts and public retaining walls for the 2021 street reconstruction projects. These funds are limited and can only be used for street reconstruction.

Staff has redlined the Assessment Policy dated December 4, 2018 with the changes related to subcuts and public retaining walls. Staff recommends these changes be applied to the upcoming 2021 street reconstruction projects located in Melody Lake and Creek Knolls.

CITY OF EDINA SPECIAL ASSESSMENT POLICY

December 4April 6, 20218

POLICY PURPOSE:

Establish a special assessment policy for public improvements for local and MSA roadways, alleys, sound walls, water service utility lines, sanitary sewer service utility lines, street lights, sump pump removal or redirection, garbage and debris removal, aquatic weeds, weed mowing, tree removals, and maintenance districts.

DEFINITIONS:

- 1. Municipal State Aid Roadway (MSA): MSA refers to roadways that are enrolled in the MSA system and is eligible for State Aid funding.
- 2. Local Roadway: All other roadways without an MSA designation.
- 3. Public Retaining Walls: Retaining walls installed by the City to support streets, alleys or sidewalks.
- 2.4. Subcut: Excavation and replacement of unsuitable subgrade soils under the proposed roadway pavement and aggregate base section with suitable load bearing soils.

POLICY:

<u>Assessable Costs:</u> Assessable costs shall be assessed to the benefitting properties of the public improvement, based on a Residential Equivalent Unit formula or an alternate methodology described below. Assessable costs include all project costs not allocated to other funding sources <u>or otherwise excluded by this policy</u>. Assessable costs include the following: mobilization, direct construction costs, construction finance costs, City and contracted engineering costs, scientific and technical consulting costs, printing and mailing, legal and other project related costs. <u>Assessable costs do not include subcut or public retaining walls.</u> Construction finance costs are the cost of funds used to finance the project construction until the adoption of the resolution imposing the special assessment. Costs are assessed as follows:

- 20% of the costs for MSA roadways.
- 100% of the costs for local roadways.
- 100% of the costs specific to a single benefitting property, elected to be assessed by the property owner for the following:
 - Sanitary Sewer Service Utility Line
 - Water Service Utility Line
 - Sump Pump Removal or Redirection
 - Tree Removal
- 100% of the costs for alleys.
- 100% of the costs for streetlights.
- 100% of the costs for sound walls unless partially financed by another agency.
- 100% of the costs for designated Maintenance Districts.
- 100% of the costs for garbage and debris removal, aquatic weeds, and weed mowing.

<u>Residential Equivalent Unit (REU):</u> REU is an equivalency factor used to determine assessment amounts for MSA, local roadway and alley improvements. REU is based on traffic generation of one residential lot,

regardless of lot size or amount of street frontage. REU's shall be calculated according to the following table:

Scenario	Land Use Class	REU Factor	Notes
Α	Single Family Residential – Single Family Detached	1.0	1
В	Multi-Family Residential – Single Family Attached	0.8	1
С	Multi-Family Residential – Multi-Family	0.5	1,4
D	Industrial and Utility	0.5	2,3
E	Commercial – Office and Retail	1.5	2,4
F	Institutional – City Owned Buildings	0.9	2,5
G	Institutional – City Owned Open Space	See Note	2,6
Н	Institutional – Schools – Public and Private	0.2	2
I	Institutional – Places of Worship	0.2	2
J	Mixed Use	See Note	4

Notes: 1. Per Unit

- 2. Per 1000 SF Gross Floor Area from the Assessing Department
- 3. All uses allowed in Planned Industrial Development (PID) except offices and retail.
- 4. Mixed Use Properties A combination calculation by Land Use Class (generally mixes of C and E from data held in the Assessing Department).
- 5. Facilities associated with the production or distribution of water, sanitary, or storm water shall not be assessed. These include, but are not limited to: parcels with well houses, lift stations, water towers, water treatment facilities.
- 6. REU calculations shall be based on the placement of like-sized lot lines of nearby properties on developable space. These are for only the first layer of potential properties directly adjacent to the open space. Areas of wetlands, floodway, or other non-developable space will not be considered in the calculation.

<u>REU for Corner Lots:</u> If a corner lot is subject to multiple roadway assessments on adjacent streets, the total assessable cost shall be equal to one (1) REU after all streets are improved. A partial REU shall be determined by dividing the number of improved streets by the number of adjacent streets.

In a typical corner lot on the boundary of an improvement project, this will result in a 0.5 REU per street assessed in two separate projects, totaling 1 REU. Corner lots subject to a previous street reconstruction assessment under the previous corner lot methodology that paid a 2/3 REU will be assessed 1/3 REU.

Other Costs: Other costs are improvement costs paid for by other funding sources such as the Utility Fund, Pedestrian and Cyclist Safety Fund (PACS), MSA, or other funding sources described in an agreement. Other costs include the following public improvements:

- 80% of the costs for MSA roadway
- The costs of curbs, gutters and other storm water management improvements are paid from the Utility Fund.
- The costs of the publicly-owned portions of underground water, sanitary sewer, or storm sewer utility lines are paid from the Utility Fund.

 The costs of sidewalks, trails, and pedestrian/cyclist related safety improvements are paid from PACS.

<u>Payment and Interest:</u> Assessment methodology, repayment, and interest are described in the table below, and are subject to the following provisions:

Project Type	Assessment Methodology	Payment Period	Interest Rate
MSA or Local Roadway	REU	15 years	Net Interest +1%
Sanitary Sewer Service Utility Line	Direct Costs	15 years	Net Interest +1% or 6.5%*
Water Service Utility Line	Direct Costs	15 years	Net Interest +1% or 6.5%*
Street Lighting	REU	5 years	Net Interest +1%
Alleys	REU	5 years	Net Interest +1%
Sound Wall	Benefit Determination	15 years	Net Interest +1%
Sump Pump Removal and Redirection	Direct Costs	5 years	6.5%
Maintenance District	Direct Costs	1 Year	6.5%
Garbage and Debris Removal	Direct Costs	1 Year	6.5%
Tree Removal under \$500	Direct Costs	1 Year	6.5%
Tree Removal \$500-\$1000	Direct Costs	2 Year	6.5%
Tree Removal over \$1000	Direct Costs	3 Year	6.5%

^{*6.5%} if not done with roadway improvements.

- Assessment Interest Rate The interest rate for a special assessment shall be paid based on the "net interest" rate of the bonds to be issued for the project, plus an interest rate premium described in the table above. If a bond is not issued for a project then the net-interest rate shall be the net interest rate of the most recent bonds sold by the City prior to ordering the public improvement.
- 2. Senior Deferral Program: The City makes available an option for residents over age 65 or who have a permanent disability and meet eligibility standards to defer special assessment. The Senior Deferral Program is described in Resolution 2005-78 (Appendix 1).
- 3. Prepayment: The City will accept both partial pre-payments and full pre-payments on assessments before certifying the assessment to Hennepin County. A minimum of 25% of the assessable cost must be paid as a partial prepayment.
- 4. Payment Periods: Payment period vary depending on the purpose for which the assessment was levied. Payment periods and terms shall be amortized using a level annual payment schedule.

CITY OF EDINA SPECIAL ASSESSMENT POLICY April 6, 2021

POLICY PURPOSE:

Establish a special assessment policy for public improvements for local and MSA roadways, alleys, sound walls, water service utility lines, sanitary sewer service utility lines, street lights, sump pump removal or redirection, garbage and debris removal, aquatic weeds, weed mowing, tree removals, and maintenance districts.

DEFINITIONS:

- 1. Municipal State Aid Roadway (MSA): MSA refers to roadways that are enrolled in the MSA system and is eligible for State Aid funding.
- 2. Local Roadway: All other roadways without an MSA designation.
- 3. Public Retaining Walls: Retaining walls installed by the City to support streets, alleys or sidewalks.
- 4. Subcut: Excavation and replacement of unsuitable subgrade soils under the proposed roadway pavement and aggregate base section with suitable load bearing soils.

POLICY:

Assessable Costs: Assessable costs shall be assessed to the benefitting properties of the public improvement, based on a Residential Equivalent Unit formula or an alternate methodology described below. Assessable costs include all project costs not allocated to other funding sources or otherwise excluded by this policy. Assessable costs include the following: mobilization, direct construction costs, construction finance costs, City and contracted engineering costs, scientific and technical consulting costs, printing and mailing, legal and other project related costs. Assessable costs do not include subcut or public retaining walls. Construction finance costs are the cost of funds used to finance the project construction until the adoption of the resolution imposing the special assessment. Costs are assessed as follows:

- 20% of the costs for MSA roadways.
- 100% of the costs for local roadways.
- 100% of the costs specific to a single benefitting property, elected to be assessed by the property owner for the following:
 - Sanitary Sewer Service Utility Line
 - Water Service Utility Line
 - Sump Pump Removal or Redirection
 - Tree Removal
- 100% of the costs for alleys.
- 100% of the costs for streetlights.
- 100% of the costs for sound walls unless partially financed by another agency.
- 100% of the costs for designated Maintenance Districts.
- 100% of the costs for garbage and debris removal, aquatic weeds, and weed mowing.

<u>Residential Equivalent Unit (REU):</u> REU is an equivalency factor used to determine assessment amounts for MSA, local roadway and alley improvements. REU is based on traffic generation of one residential lot,

regardless of lot size or amount of street frontage. REU's shall be calculated according to the following table:

Scenario	Land Use Class	REU Factor	Notes
Α	Single Family Residential – Single Family Detached	1.0	1
В	Multi-Family Residential – Single Family Attached	0.8	1
С	Multi-Family Residential – Multi-Family	0.5	1,4
D	Industrial and Utility	0.5	2,3
E	Commercial – Office and Retail	1.5	2,4
F	Institutional – City Owned Buildings	0.9	2,5
G	Institutional – City Owned Open Space	See Note	2,6
Н	Institutional – Schools – Public and Private	0.2	2
1	Institutional – Places of Worship	0.2	2
J	Mixed Use	See Note	4

Notes: 1. Per Unit

- 2. Per 1000 SF Gross Floor Area from the Assessing Department
- 3. All uses allowed in Planned Industrial Development (PID) except offices and retail.
- 4. Mixed Use Properties A combination calculation by Land Use Class (generally mixes of C and E from data held in the Assessing Department).
- 5. Facilities associated with the production or distribution of water, sanitary, or storm water shall not be assessed. These include, but are not limited to: parcels with well houses, lift stations, water towers, water treatment facilities.
- 6. REU calculations shall be based on the placement of like-sized lot lines of nearby properties on developable space. These are for only the first layer of potential properties directly adjacent to the open space. Areas of wetlands, floodway, or other non-developable space will not be considered in the calculation.

REU for Corner Lots: If a corner lot is subject to multiple roadway assessments on adjacent streets, the total assessable cost shall be equal to one (1) REU after all streets are improved. A partial REU shall be determined by dividing the number of improved streets by the number of adjacent streets.

In a typical corner lot on the boundary of an improvement project, this will result in a 0.5 REU per street assessed in two separate projects, totaling 1 REU. Corner lots subject to a previous street reconstruction assessment under the previous corner lot methodology that paid a 2/3 REU will be assessed 1/3 REU.

Other Costs: Other costs are improvement costs paid for by other funding sources such as the Utility Fund, Pedestrian and Cyclist Safety Fund (PACS), MSA, or other funding sources described in an agreement. Other costs include the following public improvements:

- 80% of the costs for MSA roadway
- The costs of curbs, gutters and other storm water management improvements are paid from the Utility Fund.
- The costs of the publicly-owned portions of underground water, sanitary sewer, or storm sewer utility lines are paid from the Utility Fund.

• The costs of sidewalks, trails, and pedestrian/cyclist related safety improvements are paid from PACS.

<u>Payment and Interest</u>: Assessment methodology, repayment, and interest are described in the table below, and are subject to the following provisions:

Project Type	Assessment	Payment	Interest Rate
	Methodology	Period	
MSA or Local Roadway	REU	15 years	Net Interest +1%
Sanitary Sewer Service Utility	Direct Costs	15 years	Net Interest +1% or 6.5%*
Line			
Water Service Utility Line	Direct Costs	15 years	Net Interest +1% or 6.5%*
Street Lighting	REU	5 years	Net Interest +1%
Alleys	REU	5 years	Net Interest +1%
Sound Wall	Benefit Determination	15 years	Net Interest +1%
Sump Pump Removal and	Direct Costs	5 years	6.5%
Redirection			
Maintenance District	Direct Costs	1 Year	6.5%
Garbage and Debris Removal	Direct Costs	1 Year	6.5%
Tree Removal under \$500	Direct Costs	1 Year	6.5%
Tree Removal \$500-\$1000	Direct Costs	2 Year	6.5%
Tree Removal over \$1000	Direct Costs	3 Year	6.5%

^{*6.5%} if not done with roadway improvements.

- 1. Assessment Interest Rate The interest rate for a special assessment shall be paid based on the "net interest" rate of the bonds to be issued for the project, plus an interest rate premium described in the table above. If a bond is not issued for a project then the net-interest rate shall be the net interest rate of the most recent bonds sold by the City prior to ordering the public improvement.
- 2. Senior Deferral Program: The City makes available an option for residents over age 65 or who have a permanent disability and meet eligibility standards to defer special assessment. The Senior Deferral Program is described in Resolution 2005-78 (Appendix 1).
- 3. Prepayment: The City will accept both partial pre-payments and full pre-payments on assessments before certifying the assessment to Hennepin County. A minimum of 25% of the assessable cost must be paid as a partial prepayment.
- 4. Payment Periods: Payment period vary depending on the purpose for which the assessment was levied. Payment periods and terms shall be amortized using a level annual payment schedule.

Assessment Policy Revision

City Council Meeting

April 6, 2021

Schedule

- March 2, 2021 Task Force Presented Final Recommendations
- March 13, 2021 Council Retreat Discussion
- April 6, 2021 CC Mtg Update to Assessment Policy
 - Public Hearing is not legally required to revise the policy
- April 20, 2021 Decide Assessments & Award Melody Lk Contract
 - Recall: delayed decision 6 months for staff to bring back more information

www.EdinaMN.gov 2

Task Force Recommendations

- 1. Presented Council with 2 Funding Options
- 2. Remove Subcut and Public Retaining Walls from Assessments

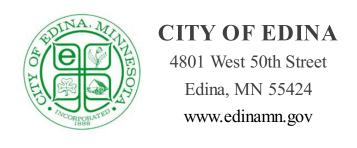

Staff Recommendation

- Step I:Approve removing subcuts and public retaining walls
 - Takes affect with 2021 Street Reconstruction Projects
 - Funds from refinancing street reconstruction debt to cover cost in 2021
 - Funds will not cover long term financing
- Step 2: Revisit final street funding decision with 2022/2023 Budget
 - Change policy for 2022 Projects
 - June 1:Work Session is scheduled.

\$44,000.00

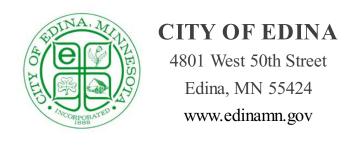

Information/Background:

In 2020, Hennepin County awarded the City of Edina \$326,349.00 in SCORE grant funds to help increase citywide organics recycling participation through 2021. Access to the compost generated from Edina's curbside collection program is frequently requested. While the compost is available for purchase at the SMSC public facility, this project will return the compost in neatly packaged and portable bags to our residents. These I cu ft bags will be distributed at city events throughout the year. These events include Arbor Day, the Pumpkin Smash and the Shred It events. The purpose is to showcase how valuable the product is and bring the program full circle for our residents, from their kitchens to their gardens.

To defray the costs of program supplies at the individual household level, each of the 13,647 households will be given a year's supply of compostable bags. These supplies will be provided along with continuing educational materials. The supplies are purchased from a local, minority-owned vendor which also serves to support our green industries in the state.

Additionally, to help mitigate the cost of this program at the household level, the monthly organics recycling fee will be reduced by \$1.00 per month for twelve months. This reduces the monthly cost to \$4.50 per month per household.

These projects will meet the criteria of the grant funds and address three of the most frequently voiced concerns by Edina residents: costs of supplies, cost of program, and lack of value.

Agenda

Energy and Environment Commission City Of Edina, Minnesota VIRTUAL MEETING

This meeting will be held electronically using Webex software. The meeting will be streamed live on the City's YouTube channel, YouTube.com/EdinaTV or you can listen to the meeting via telephone by calling 1-415-655-0001, access code 177 444 2905.

Thursday, January 14, 2021 7:00 PM

I. Call To Order

Vice Chair Horan called the meeting to order at 7:00 PM

II. Roll Call

> Answering roll call were Commissioners Horan, Hussain, Lanzas, Manser, Seeley, and Student Commissioners Mans and Ana Martinez.

Late: Commissioner Dakane, arrived at 7:55PM

Absent: Chair Martinez and Student Commissioner Densmore

III. Approval Of Meeting Agenda

Motion by Melissa Seeley to Approve Meeting Agenda. Seconded by Bayardo Lanzas. Motion Carried.

- IV. Approval Of Meeting Minutes
 - Minutes: Energy and Environment Commission December 10, 2020 Meeting Minutes

Motion by Richard Manser to Approve December 10, 2020 Meeting Minutes. Seconded by Melissa Seeley. Motion Carried.

- V. Special Recognitions And Presentations
 - A. Staff presentation: Morningside Flood Infrastructure Project Update
- VI. Reports/Recommendations
 - A. 2021 Work Plan Updates

Initiative #2: Develop recommendation by February meeting or continue development with working group.

Initiative #5: Created survey for feedback from businesses.

B. 2021 Workplan Action: Approve Climate Action Plan Working Group Charge

Student commissioners Martinez and Mans presented the Climate Action Plan Working Group Charge.

Motion by Melissa Seeley to Approve Working Group Charge. Seconded by Bayardo Lanzas. Motion Carried.

C. Clean Cars Minnesota

Commissioner Horan presented an advisory communication for City Council to adopt standards of Clean Cars Minnesota.

Motion by Richard Manser to Approve Clean Cars Minnesota Advisory Communication. Seconded by Melissa Seeley. Motion Carried.

VII. Chair And Member Comments

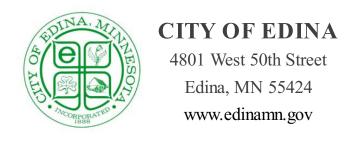

VIII. Staff Comments

Staff is working on a resolution of support for Xcel Energy's latest IRP.

IX. Adjournment

Motion by Bayardo Lanzas to Adjourn. Seconded by Melissa Seeley. Motion Carried.

The City of Edina wants all residents to be comfortable being part of the public process. If you need assistance in the way of hearing amplification, an interpreter, large-print documents or something else, please call 952-927-8861 72 hours in advance of the meeting.

I. Call To Order

• Chair Martinez called the meeting to order at 7:03 PM.

Roll Call II.

Answering roll call were Chair Martinez, Commissioners Horan, Manser, Seeley, and Student Commissioners Mans and Ana Martinez.

Absent: Commissioners Hussian, Lanzas, and Dakane and Student Commissioner Densmore

III. Approval Of Meeting Agenda

• No action taken, not enough voting members.

Approval Of Meeting Minutes

- No action taken, not enough voting members.
- Minutes: Energy and Environment Commission January 14, 2021

V. Reports/Recommendations

2021 Work Plan Updates

- Initiative #2 First rough draft of advisory communication is complete. Stakeholder meetings will be held next week and emails have been sent to restaurants inviting them.
- B. Workplan Item Report: Green Business Recognition Program
 - Presented results from the survey sent to businesses.
 - Discussed ways to get recognition out there.

Workplan Item Report: Climate Action Plan Working Group

- Only 12 applications for working group
- Consultant looking to find a more diverse group of applicants
- Blue Dot is being recommended as the consultant for the Climate Action Plan

D. Clean Cars Minnesota

• Clean Cars Resolution sent to council. Will be on Feb 17th meeting consent agenda.

VI. Chair And Member Comments

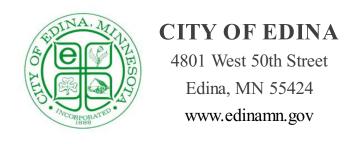

VII. Staff Comments

• Staff Liaison Hancock discussed the process of selecting a consultant for the Climate Action Plan.

VIII. Adjournment

• No action taken, not enough voting members.

The City of Edina wants all residents to be comfortable being part of the public process. If you need assistance in the way of hearing amplification, an interpreter, large-print documents or something else, please call 952-927-8861 72 hours in advance of the meeting.

I. Call To Order

Chair Richman called the meeting to order at 6:01 p.m.

II. Roll Call

Answering roll call were Commissioners Ahler, Johnson, Kane, Lafferty, Plumb-Smith, Richman, Atri, Clark Khariwala.

Staff present: Transportation Planner Andrew Scipioni, Traffic Safety Coordinator Nick Bauler

III. Approval Of Meeting Agenda

Motion was made by Commissioner Plumb-Smith and seconded by Commissioner Lafferty to amend the agenda by moving Annual Elections to Item A under Reports/Recommendations. All voted age. Motion carried.

Motion was made by Commissioner Kane and seconded by Commissioner Ahler to approve the amended agenda. All voted aye. Motion carried.

IV. Approval Of Meeting Minutes

Motion was made by Commissioner Johnson and seconded by Commissioner Plumb-Smith to approve the January 21, 2021 meeting minutes. All voted aye. Motion carried.

V. Reports/Recommendations

A. Annual Elections

Commissioner Lafferty nominated Commissioner Johnson as Chair. Motion was seconded by Commissioner McCarthy. All voted aye. Motion carried.

Commissioner Ahler nominated Commissioner Plumb-Smith as Vice Chair. Motion was seconded by Commissioner Plumb-Smith.

Ayes: Ahler, Johnson, McCarthy, Plumb-Smith, Richman

Nays: Kane, Lafferty **Motion carried.**

B. 2020 Traffic Safety Summary Report

Traffic Safety Coordinator Nick Bauler presented the 2020 Traffic Safety Summary Report. Comments from Commissioners included:

• The year-to-year breakdown is helpful to see, could help identify growing problems or track progress in certain areas.

- More requests might mean more people are reporting a problem rather than the problem getting worse.
- It would be helpful to see a breakdown and A-, B- and D-items by quadrant to see if there are patterns in what gets approved. It's also worth noting that one or two quadrants are more diverse than others.
- The mechanisms by which requests come in are also important to track. Differences in mechanisms used by quadrant may indicate a difference in access to the submission tools. Maybe the City can promote the submission tools better.
- Staff Liaison Scipioni clarified that the Transportation Commission only reviews and comments on the Traffic Safety Reports, not approves.
- It is interesting to see how many more requests are made in the northeast quadrant; this seems to be a consistent trend over the last few years. Staff should consider tracking requests per resident in each quadrant.
- The northeast quadrant was buzzing with activity this year; it is not surprising to see more requests in this area given the density and observed activity.
- Coordinator Bauler clarified that the members of the Traffic Safety Committee are himself,
 Transportation Planner Andrew Scipioni, Director of Engineering Chad Millner, Traffic Safety
 Specialist Save Snaza, Public Works Director Brian Olson, Assistant City Planner Emily Bodeker,
 and Police Sergeant Nate Mandel.

C. Traffic Safety Report of January 26, 2021

The Commission reviewed the Traffic Safety Report of January 26, 2021.

Commissioner Plumb-Smith left at 6:59.

D. 2020 Pedestrian and Cyclist Safety Fund Summary Report

Liaison Scipioni presented the 2020 Pedestrian and Cyclists Safety Fund Summary Report. Comments from Commissioners included:

- Staff clarified that the City's Conservation and Sustainability Fund also contributed to the City
 Hall improvement project and that the new electric vehicle charging stations are meant for
 visitors and city vehicles.
- It is disappointing not to see anything proposed for 2021 or 2022 on Valley View Rd under Highway 62. Staff explained that MnDOT has a bridge redeck project scheduled for 2026 and that the City is advocating for improved pedestrian and bicycle facilities under the bridge.
- Staff clarified that the City regularly repairs pavers at 50th & France and assesses the costs back to the business district.
- The variation in cost per lineal foot from project to project seems extreme. Staff explained that there are several factors that impact project cost, including scope, topography, when the project is bid and whether is it combined with similar projects. Commissioners suggested that staff include a comment with each project to explain the costs that were included.
- Staff explained that the equity criteria will be applied later this year.

E. 2021 Work Plan Updates

- **#I Organized Trash Collection** Kick-off meeting with the VANTAGE team is tentatively schedule for the first week in March.
- #2 Street Funding Task Force Commissioner Scherer resigned from the Commission and
 will conclude his work with the Task Force next month when the final recommendations are
 presented to City Council. Two options will be recommended to Council; replacing 50% or
 100% of assessment costs with City taxes. The Task Force will also recommend that subcut and
 retaining walls costs no longer be assessed.
- #3 CloverRide No update.
- #4 Traffic Safety Reports Commission commented on the 2020 summary report.
- #5 Capital Improvement Projects Commission commented on the 2020 annual report.
- #6 Traffic Impact Studies & TDM Staff is awaiting studies for projects at 4917 Eden Ave, 4040 W 70th St and 4660 W 77th St. The project application for 6600 France Ave was withdrawn.

VI. Chair and Member Comments

Commissioner Ahler thanked Commissioner Richman for her years of service as Chair.

Commissioner Johnson noted that there are some benefits to virtual meetings and that a hybrid model should be considered if Commissions go back to in-person meetings.

Commissioner Kane thanked Commissioner Richman for her service as Chair. Kane noted that it is great that the Commission is open to serious discussions. Kane congratulated Commissioner Plumb-Smith on being elected Vice Chair and lamented Commissioner Scherer's resignation.

Commissioner Lafferty noted that the virtual meetings have been very effective but has no comparison to inperson meetings. Lafferty also appreciates that the Commission is discussing costs.

Commissioner McCarthy thanked Commissioners Richman and Johnson for their leadership and looks forward to working with Commissioners Johnson and Plumb-Smith.

Commissioner Atri thanked Commissioners Richman and Johnson for serving as Chair and Vice Chair.

Commissioner Khariwala thanked Commissioners Richman and Johnson for serving as Chair and Vice Chair.

Commissioner Richman thanked all of the Commissioners and looks forward to working with new leaders. Richman noted that she received the first dose of the COVID-19 vaccine and thanked Liaison Scipioni for his assistance with the Commission.

VII. Staff Comments

- City Council approved staff's recommended approach for lowering local speed limits last night. Staff will begin preparing an implementation plan with Police, Public Works and Communications.
- Chris Brown was appointed to the Transportation Commission last night and will begin serving in March. An alternate will be selected to fill Commissioner Scherer's seat.
- Hennepin County has an overlay scheduled on France Ave between W 50th St and Excelsior Blvd in 2022 and is interested in adding bike lanes.
- The next meeting is Thursday, March 18.

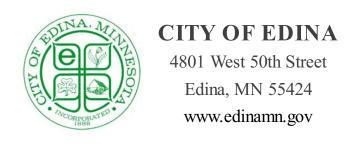

VIII. Adjournment

Motion was made by Commissioner Johnson and seconded by Commissioner Kane to adjourn the February 18, 2021 meeting at 7:49 p.m.

Ayes: Ahler, Johnson, Kane, Lafferty, McCarthy, Richman

Absent: Plumb-Smith **Motion Carried.**

2.23.21 HRRC Minutes

Minutes City of Edina, Minnesota Human Rights & Relations Commission

Virtual Meeting, WebEx, Feb 23, 2021, 7 p.m.

I. Call To Order

Chair Beringer shared information for virtual meeting guidelines for Commissioners and those watching or listening in to the meeting.

Chair Beringer called the meeting to order at 7:01 p.m.

II. Roll Call

Answering Roll Call: Chair Beringer, Commissioners Edwards, Epstein, Felton, Ross, Stringer Moore and Student Commissioner Mirza

Staff Present: Heidi Lee, Race & Equity Coordinator and Risi Karim, City Management Fellow

Absent: Student Commissioners Lichtenberger and Borene

Late: Commissioner Ismail

III. Approval of Meeting Agenda

Motion by Commissioner Ross to approve the February 23,2021 meeting agenda, seconded by Commissioner Nelson. Roll call vote. Motion carried.

IV. Approval of Meeting Minutes

Commissioners indicated the following changes to the draft minutes:

None

Motion by Commissioner Felton to approve the January 26, 2020 meeting minutes, seconded by Commissioner Epstein. Roll call vote. Motion carried.

V. Reports/Recommendations

A. Human Rights & Relations Commission 2020 Work Plan

• The Commission discussed the Work Plan with the following updates:

#6 Bias Offense Review

- The subcommittee has completed the task of creating definitions to differentiate the differences between bias offenses and bias incidents. The Bias Offense plan has been sent to all commissioners.
- Commissioner Edwards brings attention to a typo in the Bias Offense Plan. The first bullet under the section purpose will be corrected to read:

 To establish a procedure for appropriate and timely local responses to bias offenses thus

Draft Minutes□
Approved Minutes⊠
Approved Date: 3/23/21

- showing strong community support for people targeted and showing zero <u>community tolerance</u> within the boundaries of the City of Edina.
- Commissioner Ross brings attention to the statement under the partnership section of the Bias Offense Plan. Commissioner Ross suggests a change be made to the paragraph to embody a more inclusive stance; the statement will be corrected to read:

 The HRRC will partner with <u>individuals</u> and organizations in the community to provide timely and meaningful support to those who have experienced a bias offense.
- Members of the subcommittee have agreed that the following changes be made to the below statements from the Bias Offense plan:
 - 3. If a complaint is made to the City other than through the Police Department, the complaint shall first be forwarded to the City Manager <u>and Police Chief</u>, who shall forward it to the Police Department to be investigated.
 - 6. The City Manager, Chief of Police, Race & Equity Coordinator, HRRC Chair and <u>yearly designated subcommittee</u> will meet to determine the appropriate level of community response. Community response options include contacting appropriate members of the Community Resources Network to inform them of a bias offense, requesting their support and development of a response plan, meeting with the victim or representatives of targeted groups to determine appropriate restorative measures by the City, and such other responses deemed appropriate under the circumstances.
 - 7. The Race & Equity Coordinator will record and track when and where the bias offenses occurred and will provide an annual report to the Commission. The City will also inform the Minnesota Attorney General, the FBI and the Minnesota Department of Human Rights of the bias incident.

*Staff Liaison Lee will be doing follow up research on the last line of statement 7 to ensure proper procedures and guidelines are being followed.

Motion by Commissioner Epstein to Approve the changes made to the Bias Review Plan, motion seconded by Commissioner Nelson. Motion carried.

- o #4 Artwork and Décor Assessment Rubric for City Owned Facilities
 - Staff Liaison Lee shared with the Commission that due to City Hall construction there will be a delay on sending out the video. Construction at City Hall is scheduled to be completed by mid-March and upon its completion Staff Liaison Lee will then share the video with the public

B. 2021 Human Rights & Relations Commission Work Plan

- The Commission discussed the Work Plan with the following updates:
- #I Days of Remembrance
 - Commissioner Stringer Moore shared with the Commission that she has received a response from Manny Gabler and he has communicate that he is still available to speak at the event.
 - Staff Liaison Lee has shared with the subcommittee a timeline that can be used to plan the event within the city's scheduling timeline.
 - The subcommittee will be meeting soon to begin working on the logistics for the event.
- #6 Review and comment on staff proposed plan to identify barriers for participation and reach communities of color through different modes and feedback.
 - Staff Liaison Lee shares with the Commission that city staff have begun reaching out to neighboring cities such as Brooklyn Park who have conducted a community wide survey to gain feedback about their process.

C. Chair & Vice Chair Nomination and Selection

- Motion by Commissioner Nelson to nominate and select Commissioner Epstein as Chair of the HRRC, seconded by Commissioner Edwards. Motion carried.
- Motion by Commissioner Nelson to nominate and select Commissioner Stringer
 Moore as Vice Chair of the HRRC, seconded by Commissioner Ross. Motion carried.

D. Edina Community Council

 Commissioner Felton has volunteered to serve on the Edina Community Council on behalf of the HRRC.

VI. Chair and Member Comments

- Chair Beringer says her final goodbye to the Commission. Chair Beringer has served on the Commission for the past 3 years and has enjoyed her time working with Commissioners, community members and city staff.
- Commissioner Epstein thanks Chair Beringer for her time and commitment to the HRRC.
- Commissioner Nelson Shares with the Commission that the new sign for Yancey Park is now on display. Commissioner Nelson also says his goodbyes to the Commission.
- Commissioner Stringer Moore thanks both Chair Beringer and Commissioner Nelson for their time and commitment to the HRRC.
- Commissioner Edwards shares with the Commission the Equality Act has entered the Senate and asks that others support the bill.
- Commissioner Felton thanks both Chair Beringer and Commissioner Nelson for their time and commitment to the HRRC. Commissioner Felton also goes on to congratulate Commissioner Epstein as the new chair of the HRRC.
- Commissioner Ross thanks both Chair Beringer and Commissioner Nelson for their time and commitment to the HRRC, and looks forward to continuing working with the Commission.
- Student Commissioner Mirza thanks the entire Commission for being welcoming to the Student Commissioner and sends his best wishes and farewell to both Chair Beringer and Commissioner Nelson.
- Commissioner Ismail thanks both Chair Beringer and Commissioner Nelson for their time and commitment to the HRRC

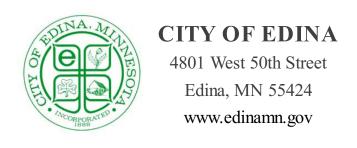

VII. Staff Comments

- Staff liaison Lee shares the following:
 - The City Council has approved the days of significance list for city recognized observances. At the request of Council Member Jackson and approved by the entire City Council, Days of Remembrance will also be added to the city's days of significance list.
 - The new sign for Yancey Park has been installed and further conversations are happening within the city to plan a formal unveiling of the sign.
 - Newly elected Chair Epstein and Vice Chair Stringer Moore will officially start serving in their new roles at the beginning of March.
 - Thanks both Chair Beringer and Commissioner Nelson for their time and commitment to the HRRC
- Beginning with their term in March, the HRRC will have 3 new members added to the Commission: Leticia Guadarrama, Joni Bennett, and Mamie Segall

VIII. Adjournment

Motion by Commissioner Felton to adjourn the meeting, seconded by Commissioner Ross. Roll call vote. Motion carried.

Meeting adjourned at 7:57 p.m.

Q4 2020 Race & Equity Work Plan

2020 Prelim Budget Report

Maintain service levels that best meet community needs

Plan for connected and sustainable development

Foster an inclusive and engaged community

DEFINITIONS

Budget Goal

Describes the broad outcomes that must be achieved through the budget.

Budget Objective

Defines the measurable results that need to be achieved to meet the goals.

Strategy/Action

Details the specific actions to be taken this budget to meet the objectives.

Goal I: Maintain Physical Assets & Infrastructure

It is crucial to maintain City infrastructure including streets, facilities, buildings, equipment and public spaces. Deferred maintenance can lead to costly unplanned repairs and replacements with decisions based on short-term implementation costs, vs. long-term maintenance costs. Properly maintained facilities, streets, water main, sanitary sewer and storm sewer systems provide reliable and efficient operations while lessening the City's carbon footprint.

ONGOING OBJECTIVES:

- Incorporate financial, societal and environmental costs into decision-making processes.
- Incorporate lifecycle and maintenance costs and climate adaptation design practices to allow more informed decision making.
- Provide funding to maintain and replace City facilities, assets and equipment in a manner that avoids deferred maintenance, prevents emergency repair and replaces assets at the most cost-effective time.

Q4 2020 Update Page 1 of 9

- Manage the City's facilities, operations, equipment and capital investments in a manner that
 increases energy efficiency, reduces the City's carbon footprint and GHG emissions and
 meets sustainability goals.
- Design and build for resiliency in the infrastructure that reduces flooded structures, improves water quality (drinking and surface) and increases filtered drinking water production.

2020-2021 BUDGET OBJECTIVES

- As debt levies expire, increase the CIP Levy to establish reliable funding for ongoing building maintenance, replacement and capital improvements.
- Capture the Southdale TIF tax capacity for 2022 CIP.
- Reduce the City operations' total electricity GHG emissions by 5 percent, 893,000 kWh each year, through implementation of energy management plans, ongoing facility maintenance, capital improvements and operational behavior change.
- Implement Green Fleet Policy recommendations to meet goal of 30 percent emission reduction mpg and gas usage by 2025.
- Improve security and safety in City facilities for public and staff.

	2020-2021 Strategy/Action:	Dept Lead	Quarterly Updates
1	Approve architectural option and complete construction of Water Plant #5. (Q4 2021)	Engineering	Q4—Project move to 2026 in CIP and looking for potential opportunities to partner with a developer
2	Create a green building policy for City facilities incorporating sustainability principles into evaluation, design and construction of City capital projects. (Connected with project 3-2).	Engineering	Q4— Moving to 2021 workplan
3	Determine interim park and recreational uses of Fred Richards Park. Update cost plan estimate prior to CIP process. (Q2 2020)	Parks & Rec	Q4—Master plan cost estimates updated for LOST proposal, uses identified and current implementation for art center use.
4	Identify funding source and timeline for implementation for Braemar Park Master Plan by Q3 2020. Prioritize master plan components for future implementation. Ensure that master plan costing is updated prior to CIP process. (Q3 2020)	Parks & Rec	Q4—Master plan cost estimates updated for LOST proposal and CIP review.
5	Consider options for using alternative funding methods for park improvements and determine next steps. (Q2 2020)	Finance	Q4— Move to 2022 workplan. Staff will continue to track legislative updates. The House Property and Local Tax Division's bill effectively imposed a moratorium on new local sales taxes during the 2021 legislative session. It also

Q4 2020 Update Page 2 of 9

			creates a working group tasked to develop a list of capital projects that may qualify as projects of regional significance. This report is due by Nov. 1, 2021.
6	Develop a master plan for addressing City Hall deferred maintenance, energy efficiency, security and service needs in a cost-effective manner. (Q3 2020)	Facilities	Q4—Security improvements completed, City Hall Master Plan in CIP for 2021, energy management plan scheduled for early 2021.
7	Implement decision (to be made in 2019) regarding street assessment financing and transition plan if applicable. If local option sales tax is selected, seek State legislative approval to request that voters approve a local option sales tax for regional park improvements and MSA street improvements. (Q2 2020 [state approval], Q4 2021 [referendum])	Finance	Q4 - Task Force completed work March 2021. Decision needed by council by Q3 2021
8	Approve a water quality strategy for Lake Cornelia. (Q2 2021)	Engineering	Q4—No update. Moving to 2021 workplan after completing Morningside Work.
9	Upgrade the communication equipment (SCADA) that monitors and ensures delivery of safe potable water and improve our ability to have a reliable storm and sanitary sewer system. (Q4 2020)	Public Works	Q4—In progress. Design complete. Bidding process in Q1 of 2021.
10	Develop and begin implementation of the street lighting system and maintenance plan that balances sustainability, public safety, and quality of life goals, including increasing energy efficiency, ensuring safely lit community, and minimizing light pollution. (Q4 2020)	Engineering	Q4—ON HOLD due to budget adjustments made in response to COVID-19 Pandemic.
11	Prepare for possible conversion of Centennial Lakes from Enterprise fund to General fund in 2022-23 budget cycle. (Q2 2021)	Finance	Q4—Will be considered during the preparation of the 2022-23 Budget.

Goal 2: Maintain Service Levels that Best Meet the Needs of the Community

The City delivers a variety of services, including police and fire response, water and sewer, snow plowing and building inspections, that are essential for the safety and wellbeing of those who live, work or visit Edina. In addition, amenities and services including recreation facilities, parks and programs contribute to the overall quality of life within the community. To deliver reliable service, the City needs to recruit and retain a strong workforce that has the resources and technology needed to effectively and efficiently perform their work.

Q4 2020 Update Page 3 of 9

ONGOING OBJECTIVES

- Comply with legal and safety standards.
- Maintain adequate response times.
- Provide high-quality services in an efficient manner that demonstrates respect for the public.
- Promote an engaging and respectful work culture that values employee quality of life and work/life balance.
- Provide competitive employee compensation and benefits to attract and retain a skilled and high-performing workforce.
- Provide staffing, tools, equipment, resources and training to meet expectations for service delivery.
- Utilize effective technology to easily maintain and locate data for the public, reduce risk and provide better data for informed decision-making by elected officials and staff.
- Ensure that limited resources (money, equipment and time) are deployed in an equitable and sustainable manner.

2020-2021 BUDGET OBJECTIVES

- Increase integration of disparate City data systems, (e.g., Financial, Human Resources and Geographic Information Systems) for better decision-making and easier access.
- Maintain adequate work-life balance for employees with an increased focus on employee quality of life, stress management, physical and mental well-being.
- Provide adjustments to employee compensation to maintain position with market.
- Provide benefit increases to and design changes to maintain affordability.

	2020-2021 Strategy/Action:	Dept Lead	Quarterly Updates
1	Implement Enterprise Resource Planning (ERP) System, including: Project hierarchy and metrics (Q4 2020) "Go-live" new finance and HR software (Q1 2021) Begin implementation of UB software (Q1 2021) "Go-live" new UB system (Q3 2021)	Finance	Q4—Finance and HR software went live Q1 2021. UB implementation underway.
2	Determine long-term plan for future of Art Center, including: ogram evaluation of community service needs for the Art inter. Issure critical repairs are made to Art Center to properly ntinue existing operations in current building for at least 10 ars.	Parks & Recreation	Q4—Completed infrastructure analysis and reviewing alternate site analysis locations. Reviewed business options with City Council at annual retreat. Moving forward with plans for pottery, decentralized programming.

Q4 2020 Update Page 4 of 9

			1888
	 Conduct feasibility and infrastructure analysis on existing Art Center building prior to the CIP process. (Q2 2020) Conduct alternative site analysis and business plan modeling for relocation of the Art Center operations. (Q2 2021) 		
3	Implement rental housing license and inspection program. (Q1 2020)	Health	COMPLETE . Rental Housing staff are in place and inspections have begun.
4	Implement Police-Worn Body Cameras. (Q4 2020)	Police	Q4—Policy has been developed and cameras have been ordered. On track for Q4 completion. Body Camera Implemented during the last week of December.
5	Replace Public Safety Computer-aided Dispatch (CAD) and Record Management System (RMS) (Q4 2020 research and select vendor; Q4 2021 to implement system)	Police	Q4—Have met with two potential vendors in Q1. No additional progress due to COVID-19 Pandemic.
6	Decision, finance method and plan for relocating OR expanding Fire Station 2 in order to accommodate 24-hour operations with one fire apparatus, two ambulances and support vehicle. (Q4 2020)	Fire	Q4 – Met with Economic Development Manager and developed a list of 5 or 6 potential locations for the FS2 relocation. Q3 – No significant progress in the SE quadrant. General discussion with Economic Development Manager on potential sites in SE Quadrant Q1. Included some estimated costs for fire station in proposed CIP. No further progress due to COVID-19 Pandemic.
7	Determine finance method and plan for Fire Station 3 in the Northeast Quadrant of the City. This station would be of such size to accommodate 24-hour operations with one fire engine, ambulance and support vehicle. (Q4 2020)	Fire	Q4 – developed working conceptual plans for FS3 and identified 3 possible sites for consideration. Q3 – working with Five Bugles Design on refining Station 3 layout and location. Report due end of November
8	Conduct first presidential primary under new state legislation. (Q1 2020)	Administration	complete. Voter turnout was 43 percent (6 percent for absentee voting). Turnout was 10 percent lower than estimated by Hennepin County and may have been impacted by the requirement for voters to select a party ballot. Staff is expecting \$56,500 in reimbursements from the State.
9	Develop long-term plan for elections absentee voting and storage. (Q1 2020)	Administration	Q4—Kept absentee voting at City Hall for 2021.

Q4 2020 Update Page 5 of 9

	Remodeling space in fire
	station basement for storage
	was put on hold to focus on
	COVID-19 Pandemic.

Goal 3: Plan for Connected & Sustainable Development

Redevelopment and renewal of commercial and residential real estate is essential to the vibrancy of the community. Redevelopment will play an integral part of providing an inclusive, high quality of life that the Edina community expects. It is important to ensure plans and policies are relevant today and flexible for tomorrow. Incorporating sustainability principles and standards during redevelopment with the goal of reducing the community's carbon footprint will be critical to human health and safety. Creating sustainable redevelopment requires forward thinking and preparing for the future.

ONGOING OBJECTIVES

- Determine, track and meet sustainability goals for metrics such as energy, transportation, water and waste.
- Connect neighborhoods, businesses and open spaces.
- Support the continued high quality of life offered to residents and those who work in Edina.
- Promote affordable lifecycle housing.
- Demonstrate resiliency to changing climate and future community needs.

2020-2021 BUDGET OBJECTIVES

- Continue installation of sidewalks and shared-use paths (e.g., Twin Loops implementation).
- Launch residential curbside organics and recycling (define numbers and goals).
- Create affordable/workforce housing (1,220 units by 2030).

	2020-2021 Strategy/Action:	Dept Lead	Quarterly Updates
1	Continue development and implement a strategy to create affordable housing units with revenue from the Affordable Housing Policy and from Southdale II TIF District special authority.	Community Development	Q4—Still in progress. Initial thoughts/action so far: Affordable Housing Trust Fund Expansion of Homes With Reach Land Trust Program (\$850,000 over two years Housing Rehab Program approved by HRA in Q1 2021. Documents being drafted for Q2 approval. Continuation of 4D program (funds already set aside). No interest.

Q4 2020 Update Page 6 of 9

			I888
			Gap financing for Dugan Plaza (dead) Southdale 2 TIF 4040 W. 70 ^{th s} ite acquisition for up to 118 units of affordable housing. Scattered site rental single-family housing in partnership with Metro HRA Land acquisition for future affordable housing sites Acquisition of NOAH property (in partnership with affordable housing owner/manager) - in radar and will pursue if opportunities arise.
2	Create and implement a green building policy to incent sustainable building and operational practices for new development and redevelopment. (Connected with 1-2)	Engineering	Q4— Moving to 2021 workplan
3	Develop waste reduction goals and implementation plan for residential organics recycling for April 2020 launch.	Health	COMPLETE. Program began in June. There are 100 tons of organics per month diverted from the waste stream. And a 30 percent participation rate in the organics recycling program.
4	Implement Energy Benchmarking ordinance.	Engineering	Q4—70 percent of the required buildings have submitted their data. Continuing next phase of ordinance in 2021
5	Decide on future of redevelopment of the former Public Works site in the Grandview area by Q2 2021.	Community Development	Q4—With direction from HRA, staff is working with Frauenshuh and United Properties to explore proposal for medical office and senior cooperative housing. Engineering Dept is preparing plans for public improvements along Eden, Brookside and intersections. On track for decision-making in Q2 2021.
6	Develop a Climate Action Plan for the City. (Q4 2021)	Engineering	Q4— Moving to 2021 workplan.
7	Complete study of expanding public parking at 44 th and France and explore a strategy to create district parking in the 44 th and France Area per the 44 th and France Small Area Plan, including parameters that balance current transportation needs and sustainability goals. (Q4 2021)	Community Development/ Finance	Q4 – Initial meetings with property owners in Q2, Q3 and Q4. Key owners focused on pandemic recovery and unable to focus on this in 2020. Will move to 2021.
8	Develop Travel Demand Management Policy. (Q4 2020)	Engineering	Q4—Moving to 2021 workplan.
9	Prepare a District Plan for the Cahill Industrial Park by Q4 2021.	Community Development	Moved to 2021-22.

Q4 2020 Update Page 7 of 9

10	Work with Edina School District to	Engineering	Q4—On hold with COVID-19
	develop and implement Safe Routes to		Pandemic and as School District

	Schools program. (Q4 2021)		until further notice. MnDOT grant
			program still going forward to
			create preliminary studies at
			Cornelia, Highlands and Creek
			Valley Elementary Schools.

Goal 4: Foster Inclusive and Engaged Community

It is important that the City helps to foster a community that is welcoming and inclusive to all who live, work and spend time in Edina. The City wants to ensure that it works for all of the community. Efforts to engage the community will utilize multiple platforms, be informative, transparent, responsive and involve volunteers and City Commissions.

ONGOING OBJECTIVES

- Ensure City policies and practices do not have disparate impacts based on race, color, national origin, creed, religion, age, sex, sexual orientation, gender expression, familial status or disability.
- Conduct clear and meaningful community engagement where:
 - o The decision to be made and decision-making process is clearly defined.
 - o Individuals understand how and when they can participate.
 - The City communicates what feedback is used and why.
 - o Inclusive engagement methods provide a variety of ways for the public to participate in the decision-making process and ensure all voices are heard.
 - Residents are satisfied with the process, even if they disagree with the outcome.

2020-2021 BUDGET OBJECTIVES

- Increase participation in Better Together Edina online engagement website.
- Implement racial equity measures to provide accountability of work.
- Strengthen leadership and support for city-wide racial equity work.
- Better leverage Boards and Commissions.
- Reduce barriers to public participation.
- Increase diversity of boards, commissions, task forces and staff.

	NEW 2020-2021 Strategy/Action:	Dept Lead	Quarterly Updates
1	Continue implementation of Racial Equity Implementation Plan and provide quarterly reports to City Council and HRRC. (Q4 2020)	Administration	Q4– COMPLETE (ONGOING). Race & Equity Work Plan progress will be provided to HRRC

Q4 2020 Update Page 8 of 9

		1	quarterly, which aligns
			with timeline to City Council.
2	Continue to evaluate and further refine community engagement standards and protocols based on IAP2 model. (Q4 2020)	Administration	COMPLETE: Promo video done, BTE updates done. Will continue to refine.
3	Develop measurable city-wide/department racial equity goals (Q3 2020) and incorporate racial equity tools and resources into decision-making processes. (Q1 2021)	Administration	Q4- In progress. Staff members have created work plan tools and provided tools and to ELT for 2021 work plan development.
4	Strengthen leadership and support for city-wide racial equity work, including providing additional training, tools and resources to embed an equity framework to City processes, services and decisions. This strategy will build upon all employee and leadership training conducted in 2018-2019. • Develop and implement racial equity leadership training, resources and support for City Council. (Q1 2020). • Conduct advanced racial equity training for staff leadership and foundational training for all employees. (Q2 2020). • Incorporate employee selected racial equity competency in annual performance review. (Q3 2020)	Administration	Q4 – In progress. ELT receives race and equity professional development coaching. Racial equity training is being developed for virtual rollout for Q1-2021. Racial equity goals are included in staff performance reviews, and . Reviewing ERP system capabilities to incorporate competencies in performance reviews going forward.
5	Develop and implement a plan to increase diversity of boards and commissions members. (Q3 2020)	Administration	IN PROGRESS: Moved to 2021 work plan.

Q4 2020 Update Page 9 of 9

ACCOUNTABILITY & DATA COLLECTION			
GOAL:	TARGET	STATUS	PROGRESS
Hire a full-time Race and Equity coordinator, whose accountabilities include oversight of the Racial Equity Implementation Plan (work plan), monitoring, assessing and evaluating progress toward goals.	2019 - QI	Complete	Race and Equity Coordinator started on March 18, 2019.
Racial Equity goals and metrics from the Racial Equity Implementation Plan will be incorporated into department work plans and employee performance reviews.	2019 - QI	In Progress/ Continuation in 2020	Staff quarterly check-in have race and equity component embedded. Key performance indicators (KPI) created in 2019 will serve as baseline indicators, collection of baseline data is being researched. Implementation of racial equity compentencies in employee performance reviews pushed to Q4-2020.
The racial equity advancement team (REAT) will work identify specific opportunities to increase racial and cultural diversity on work teams.	2019 - Q2	Complete/ Ongoing	REAT has been meeting virtually since April 2020. The Engagement workgroup has developed <i>The Stories We Share</i> on Better Together Edina website. Work Plan workgroup is creating a resource to look at work plan development with race and equity lens. Training workgroup has created training topics and will be developing sessions for 2021 rollout.
Report results of the Quality of Life Survey disaggregated by race/ethnicity as part of the Annual Racial Equity Advancement Report.	2019 - Q2	Not Complete	Survey results presented in June 2019. Because the number of non-white survey respondents was small, race/ethnicity could not be disaggregated for all questions. 2021 Quality of Life Survey planning is underway.
Evaluate feasibility and advisability of increasing the amount of police-community data collected by the City.	2019 - Q2	In Progress/ Continuation in 2020	PD has met with vendors to compare different records management system (RMS) capabilities and offerings that align with PD and data collection needs.
Provide Racial Equity Training to all City staff.	2019 - Q2	Complete	Leadership training on 12/2018 and IQS Racial Equity training for full-time city employees in 1/2019. City Council and Executive Leadership went through GROW Framework training in Q1-2020. Remaining staff rollout will be in 2021.
Evaluate quality of life survey questions to elicit relevant information about all city services around Race and Equity.	2019 - Q3	Complete	Quality of Life survey results have been provided in June 2019.
Maintain a database on the number and location of affordable housing in Edina.	2019 - Q4	Complete/ Ongoing	Database of mult-housing units have been created and available on City of Edina's Afforable Housing page.
Upon reviewing Police Department Policy Manual and removing non-public information, the manual will be placed on the City's website.	2019 - Q4	Complete/ Continuation in 2020	All police department manual policies have been reviewed and posted on the City website, except policies that have tactical information.
Investigate available data to desegregate maps of resident population by race and how this data can be linked to allocating funds through City budgeting processes (CIP, PACS, Operating)	2019 - Q4	In Progress/ Continuation in 2020	PACS Prioritization is in draft form and will be presented Transportation Commission feedback then presented to City Council for review.
Establish a Racial Equity Advancement Annual Report and presentation for the Human Rights and Relations Commission and City Council. The annual report to the City Council will be presented at the second Council meeting in January starting in January of 2020.	2020 - QI	Complete/ Ongoing	2019 Race and Equity status was provided to City Council on April 21, 2020. Quarterly updates provided in City Council packet. In Q4 2020 HRRC will receive updates the same time as City Council.

CITY FACILITIES & SERVICES			
GOAL:	TARGET	STATUS	PROGRESS
Deliver staff training on scholarship fund availability to ensure residents are provided the opportunity to apply for financial assistance.	2019 - QI	In Progress/ Continuation in 2020	Parks and Recreation is looking at program registration system and how scholarships information would work with system.
Review the existing Come Home 2 Edina program and advertisement strategy to families of color.	2019 - Q3	Complete	Brochures have been translated into Spanish; however, more intentional is being focused on alternative ways to market to families of color such as creating relationships with organizations. Demographic information continues to be collected through application process.

Page I of 4

CITY FACILITIES & SERVICES			
GOAL:	TARGET	STATUS	PROGRESS
Ensure City facility artwork and décor reflects diversity of race and culture.	2019 - Q4	Complete/ Continued into 2020	Arts & Décor Rurbic was approved by City Council on August 18, 2020. Commissions will use the rubric to model how it will be used for future assessment in City faciltiies when City Hall remodel is complete. Arts & Culture Commission is using the rubric in planning process for some projects.
Review and identify if barriers to utilization of Park and Recreation programs exist and elicit solutions from community members and users.	2019 - Q4	In Progress/ Continuation in 2020	This work plan has been moved to 2021 work plan. City staff members will creates a plan to receive feedback from community members on barriers to program utilizations. PARC and HRRC will review and comment in 2021 Commission work plans. Commissions Work Plan was approved by City Council in December 2020.
Name a public facility in the Grandview area after BC and Ellen Yancey. Human Rights and Relations Commission will review and comment. Parks and Recreation Commission will review and recommend.	2019 - Q4	Complete/ Contined into 2020	HRRC submitted recommendations to PARC. PARC unanimously selected Garden Park and recommended that park to the City Council for renaming. On October 7, 2020 the Edina City Council unanimously renamed Garden Park as Yancey Park and directed staff to plan for the renaming. Staff is planning renaming event in 2021.
Ensure facilities have wayfinding signage and printed materials in multiple languages.	2019 - Q4	Ongoing/ Continuation in 2020	Wayfinding signage is being researched, Centennial Lakes Parks being identified as focus to inventory of signs, potential costs and resources needed. COVID-19 and Edition Edina PDF version materials have been translated in Spanish and Somali.
Employees will be trained on how to support first-time guests of City facilities.	2020 - Q4	In Progress/ Continuation in 2020	Due to COVD-19, no in person training with Parks and Recreation has taken place in 2020. Looking into training for 2021.

COMMUNITY ENGAGMENT & COMMUNICATIONS			
GOAL:	TARGET	STATUS	PROGRESS
Add Metro transit link to facility website(s).	2018 - Q4	Complete	Links for Metro Transit has been added to facility website.
Staff will create a standing City communications "Feedback Group" of volunteer residents that can be called upon via meeting, email, or as needed for both strategic and quick feedback to staff.	2018 - Q4	Complete/ Ongoing	Group has been assembled. First meeting in January 2019 and group will have ongoing meetings to receive feedback. Communications Feedback Group continues to meet.
The new City Community Engagement employee will ensure there is a robust community engagement approach, informed by ongoing relationship with residents, residents of color and residents for whom English is a second language.	2019 - QI	Complete/ Ongoing	Community Engagement Coordinator continues to adapt engagement approach while looking at potential opportunity gaps to increase diversity. Optional demographic questions have been updated to align with Parks and Recreation registration system.
The City will include questions on racial equity work in the 2019 Quality of Life Survey.	2019 - QI	Complete	Survey included racial and self indicators to provide baseline information to help support racial equity work. Planning for 2021 Quality of Life has already begun.
Develop protocol and procedures to apply a race and equity perspective to communications content.	2019 - Q2	Complete/ Continuous in 2020	The HRRC has reviewed document and changes updated based on feedback. The protocol and procedures is a working document that will be revised as need to ensure relevance.
Evaluate and improve the police department's current Community Outreach Programs. Consider opportunities for community members to engage with the department.	2019 - Q2	Ongoing	Due to COVID-19, many of Police Department Outreach Programs have been placed cancelled or on hold.
During Community Outreach Program Evaluation, the police department will develop communication strategies to publicize and promote the department through communication methods including social media.	2019 - Q2	Ongoing	Due to COVID-19, many of Police Department Outreach Programs have been placed cancelled or on hold.
Develop a strategic approach to the city's community engagement efforts. Task a city employee with overseeing/directing community engagement work.	2019 - Q4	Complete/ Ongoing	Community Engagement Coordinator continues community members to engage, inform, and participate in city work, such as Better Together Edina, Boards and Commissions, and through community impact surveys. Google Translate has been added to Better Together Edina site.

Updated 03.29.2021
Page 2 of 4

COMMUNITY ENGAGMENT & COMMUNICATIONS			
GOAL:	TARGET	STATUS	PROGRESS
The City will develop plain language policy and an LEP (Limited English Proficiency) policy for City communications.	2019 - Q4	Complete/ Continued into 2020	Plain Language Policy has been developed and training for staff has been completed. Limited English Profeciency policy has been approved. Frontline staff members have been provided training and LanguageLine phone number cards.
Use insights gained from new partnerships and relationships with community, the City will find new ways to market and communicate to POC.	2019 - Q4	Complete/ Ongoing	Communications is continuing relationships with media outlets who focus on people of color and has been begun to distribute City of Edina press releases through modes such as text updates from the City and focus of accessibilty of communications in multiple languageses.
Develop alternate ways to register for programs or use of City facilities. The city will develop new ways to reach and welcome new and underserved populations into the community.	2019 - Q4	In Progress/ Continuous	Google Translate continues to be used on City's registration software and Connect Card continues to be promoted in Activities Directory publication. Parks and Recreations provided alternative optons such as RecTivity boxes for at home programming.
The Police Department will conduct a review of the Crime Report policy for posting individual names on the department website.	2019 - Q4	Complete	Weekly Crime Reports, as of October 7, 2019, names of individuals have been removed. The report contains age and gender of individuals and location of report. Archive timeframe changed from 6 months to 2 months. Discussion to monitor if there are changes in staff workflow based on change as well potential equity challenges that arise in the future.

DEVELOPMENT & ENFORCEMENT OF POLICIES			
GOAL:	TARGET	STATUS	PROGRESS
Make a language edit to the Edina Affordable Housing Policy: The City recognizes the need to provide affordable housing in order to create and maintain a diverse population and to provide housing for those who live or work in the City.	2018 - Q4	Complete/ Ongoing	Approved by Council October 2018. Policy is reviewed yearly.
Develop goals and policies to increase the number of affordable housing units and rental until where housing assistance vouchers (ex. Section 8) can be used.	2018 - Q4	Complete/ Ongoing	Every owner/developer that has affordable housing units and rentals in Edina receives an affordable housing guide that includes non-discriminatory language.
Request the Edina Housing Foundation to review the affordable housing policy to specifically consider removing the option for developers to opt-out of building affordable units.	2019 - Q2	Complete	Reviewed Affordable Housing Policy with Edina Housing Foundation to remove opt-out option. Decision to not remove opt-out policy because funds from Affordable Housing Trust Fund could be used to further program. Policy is reviewed yearly.
Develop City-wide procedure and policy for responding to complaints that are perceived by staff as possibly racially motivated. Collect data on complaints that seem discriminatory in nature, including who makes the complaints and about whom. Apply this policy to complaints against those belonging to other protected groups.	2019 - Q2	In Progress/ Continuation in 2020	Bias and Discrimination Form has been added to City and Better Together Edina websites for community members to complete. The form is being reviewed for changes and providing resources for staff members.
Review affordable housing policy annually to address current conditions and needs. Ensure race and equity policy perspective is used at each review period.	2019 - Q4	Complete/ Ongoing	Affordable Housing Policy reviewed and presented to Council in Q1-2020. Policy is reviewed annually.
Review Edina zoning regulations through a racial equity lens to change or remove language that may contribute to racial disparities. Develop language with the intention of reducing inequities in the City's zoning regulations.	2019 - Q4	In Progress/ Continuation in 2020	Garage size variance approved by City Council in Q3. Community Development will scaffold additional zoning regulations through a race and equity lens each year. This is will be an ongoing work plan item as zoning ordinances are reviewed individually.
Review process on using affordable housing funds received from the opt-out option and develop a policy to ensure funds will be used with a race and equity lens.	2019 - Q4	In Progress/ Continuation in 2020	A formallized process is currently being used for "buy-in" options funds for land trust and other opportunities through a race and equity lens is being created.

Updated 03.29.2021
Page 3 of 4

DEVELOPMENT & ENFORCEMENT OF POLICIES					
GOAL:	TARGET	STATUS	PROGRESS		
Review policy and outline requirement and enforcement mechanism to ensure associations and vendors that utilize/rent City facilities are operating in accordance with the city's expectation regarding race equity and inclusion. Post the policy throughout City facilities.	2019 - Q4	In Progress/ Continuation in 2020	Feedback from REAT and has been presented to Parks and Recreation Commission for review. The policies are currently being reviewed to compile to create more alignment for all associations and vendors - paused until Q2-2021.		
Study and report on the 21st Century Policing Initiative's alignment with City of Edina's police officer field training processes.	2019 - Q4	Complete	21st Century Policing Initiative review has been completed by Police Department.		
The Police Department will evaluate the Department Policy Manual through a race and equity lens related to use of force.	2019 - Q4	Complete	Use of Force Policy has been reviewed and placed on City website in Police Department. Policy is updated when POST Board provides edits/revisions.		
Review the Police Department's Policy 690.00 of Impartial Policing.	2019 - Q4	Complete	Police Department Policy 690.00 of Impartial Policing has been reviewed, updated and placed on the City website for public.		
The Police Department will analyze policies related to external and independent criminal investigations and prosecutions for Officer Involved shootings and In-Custody death incidents.	2019 - Q4	Complete	Officer involved shooting policy has been updated to include audio/video retention, supervisor to assist, and who speaks with media.		
Review the Police Department's Conduct of Department Members and Persons of Detained or In- Custody policies and consider adding a provision to current policies requiring officers to identify to individuals stopped or detained as soon as practical and reasonable.	2019 - Q4	Complete	Review of Conduct of Department Members and Persons Detained or In-Custoday policies have been completed and added on Police Department website .		
Review feasibility of developing a policy to create an incentive for sellers to take Federal Housing Administration (FHA) loans.	2019 - TBD	Complete/ Continuation in 2020	Based on research of feasibility, process for FHA approval is cumbersome and expensive. An alternative process would be potentially combining mortgage with Come Home 2 Edina mortgage.		

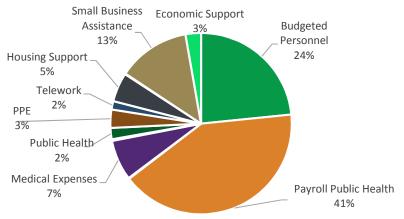

EMPLOYEE TRAINING & DIVERSITY			
GOAL:	TARGET	STATUS	PROGRESS
Participate in a Twin Cities People of Color (POC) job fair in 2019 as either an employer or sponsor.	2019 - Q4	Complete	City staff and leadership participated in the October 2019 People of Color Job Fair in Minneapolis.
Develop diversity recruiting strategy for City employees that identifies specific actions to be taken on an annual basis to more closely reflect demographics or Hennepin County.	2019 - Q4	In Progress/ Continuation in 2020	Data is still being complied. With launch of new ERP system, human resource has been focused on transition to new system. Tracking of racial demographics in applications, interview, and hiring process are being collected. Length of rention for hired employees will also start. At the end of the 2020. data will be reviewed from 2019, 2020 to determine trends and look at strategies.
Human Resources staff will implement hiring practices to include more racially and culturally diverse outreach, inclusive applications questions, recruitment, selection and interview processes.	2019 - Q4	Complete	Application process has been revised such as interview question has been added through a race/diversity lens, interview panel training for staff. These changes have been completed and the next step will be assess the effectiveness of the changes. Hiring manager training will be reviewed in 2020.
The City will assess and revise job descriptions as positions become available to include racial equity competencies.	2019 - Q4	Ongoing/ Continuation in 2020	Job descriptions are being revised when positions are available for hiring. A race and equity competency general statement has been added when job descriptions are being revised. A welcoming and inclusive statement has been added to Edina job posting website.
Train employees on the City code of conduct, safety and security procedures, language interpretation services and cost options.	2019 - Q4	In Progress/ Continuation in 2020	Due to COVD-19, no in person training with Parks and Recreation has taken place. All City training offered to staff is being compiled to assess feasibilty of combining certain trainings to avoid redundancy.
Set goals of increasing the percentage of fulltime staff who are people of color and/or fluent in a language other than English.	2019 - Q4	Ongoing/ Continuous in 2020	There has been an increase in People of Color who have applied, interviewed, and hired in 2019 and 2020 will be complied by end of Q2-2021.
The City will include data on its employment goals in the Racial Equity Advancement Annual Report starting in 2020 for employment activities in 2019.	2020 - Q4	In Progress	Human Resources and Race and Equity Coordinator gathering yearly data from human resource management system.

City of Edina - Prelim 2020

General Fund

- In response to the COVID-19 pandemic, a General Fund budget amendment was approved by the City Council in May 2020 decreasing revenues by \$1.4M and expenses by \$2.05M for a net positive impact of about \$600k. This is reflected in the revised budget.
- Investment Income Favorable to budget due to yields on pre-pandemic investments.
- Franchise Fees 4th quarter cable franchise fees have not yet been booked approximately \$200k.
- Licenses & Permits Building permit revenue exceeded budget by \$1.3M due to increase in the number of permits and valuation year-over-year.
 - 2020 had 4,140 permits on valuation of \$358M; 2019 had 2,306 permits with valuation of \$213M.
 - Major projects include Millennium, Bower Residences, Amundson Flats, M Health Fairview Southdale Hospital expansion and 12 single family homes > \$1M.
- Contractual Services COVID-19 related expenses.
- Contributions & Transfers Budget stabilization transfer of \$3M from the Construction Fund. Budget stabilization is \$4.3M total in General Fund assigned fund balance.
- Intergovernmental Total CARES Act funding of \$3.9M comprised of \$2.3M offsets non-incremental expenses (e.g., reallocation of staff) and \$1.6M incremental expenses. Below illustrates breakout of total expenses:

General Fund favorability to budget is comprised of (I) estimated general fund surplus of approximately \$5M (includes \$2.3M CARES Act, \$500k favorable investment income and favorable building permit revenue \$1.4M) and (2) budget stabilization transfer-in of \$3M.

NON-OPERATING	(235,000)	(13,678)	(221,322)	6%
NET (INC)/LOSS	82,237	292,686	(210,449)	356%

Braemar Golf Course & Dome

- Lower Building Rental (\$150k) revenue due to Red River Kitchen being closed and limited capacity when
 open.
- Equipment rental was lower (\$114k) due to no carts in April/May, single rider restriction in June, and customers electing to walk as a precaution.
- Higher memberships \$141k and green fees \$91k. 12k more rounds of 18H/9H/A9 in 2020 vs 2019; 16k increase in range buckets vs PY.
- Higher temp salaries (\$147k) due to additional staff needed to sanitize all areas including carts and take over-the-phone payments.
- Higher bank fees (\$76k) due to 100% credit card payments average 1,200 phone transactions/day.

	ORIGINAL BUDGET	YTD ACTUAL	VAR FAV/(UNFAV)	% USED

NET (INC)/LOSS	316,827	411,476	(94,649)	130%

Liquor Fund

- Liquor transfer-out not yet completed revised budget of \$800k.
- Gross revenue down \$977k vs PY attributable to Q2 store closures.
 - Stores closed March 18th, 2020 and the business pivoted to delivery.
 - 50th and Grandview stores reopened May 11th with Southdale reopening beginning of July.
 - Ecom sales are \$2.1M in 2020 vs \$71k in 2019.
 - Customer count is down from 462k in 2019 to 323k in 2020; average purchase has increased from \$31 to \$47.

	ORIGINAL BUDGET	YTD ACTUAL	VAR FAV/(UNFAV)	% USED
5800 Liquor				
REVENUES	(13,863,059)	(12,117,413)	(1,745,646)	87%

NON-OPERATING	819,000	(62,406)	881,406	-8%
NET (INC)/LOSS	(497,621)	(622,204)	124,583	125%

Utility Fund

- Revenue approximates budget.
 - Total water pumped in 2020 2.1B gal vs 2019 of 2B gal.
 - Favorable WAC/SAC \$934k.
- Higher expenses primarily driven by increased depreciation (closing projects earlier than planned) and expensing of uncapitalizable project costs partially offset by favorability in S&B and commodities.
- Non-operating includes contributions & transfers, intergovernmental revenue and investment income in the Utility Fund:
 - Unfavorable in contributions & transfers \$324k due to utility contribution out. We bill City facilities for utilities used but offset in the contributions. This is a new practice and not budgeted for 2020/21.
 - Favorable in investment income \$366k due to higher investment income than budgeted.
 - Favorable in grants due to \$326k SCORE recycling grant.

Investments

The City of Edina (CoE) investments are held in various accounts:

<u>Muni Bonds</u> – The City owns the 2021 through 2028 maturities of the \$1.265M Public Project Revenue Bonds, Series 2009A.

Other

- Tradition one year \$245,000 FDIC insured Certificate of Deposit held at Tradition Capital Bank.
- 4M Minnesota Municipal Money Market Fund sponsored by the League of Minnesota Cities.
 The City uses this fund to manage bond proceeds to ensure compliance with IRS regulations.
 Funds from the 2019A are included in this account. These bonds were issued to fund road reconstruction projects. As construction continues, the balance in this account will decrease.
- Crown one year \$245,000 FDIC insured Certificate of Deposit held at Crown Bank

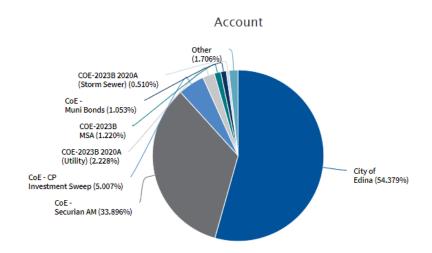

<u>Investment Sweep</u> – Funds not required to clear checks in the City's checking account are automatically "swept" into this account and invested in commercial paper. The balance in this account changes daily based on the amount of checks outstanding.

<u>Securian</u> – Securian is the City's outside investment manager, replacing Nuveen in January 2018. They oversee a \$40M portfolio. These securities are held in a custodian account at U.S. Bank. Funds in this account are not needed for cash flow and can be invested in longer maturities. The benchmark for this portfolio is a combination of the Bloomberg Barclays U.S. Intermediate Government Bond Index and the Bloomberg Barclays U.S. Mortgage-Backed Securities Index. Allowable investments include U.S. Treasuries and Agencies up to, but not including, 10 years and agency mortgage-backed pass-through securities guaranteed by Ginnie Mae (GNMA), Fannie Mae (FNMA) and Freddie Mac (FHLMC).

<u>City of Edina</u> – This account is managed internally. The balance in this account at the end of Q4 was \$66M. The City uses a network of three institutional brokers who recommend securities in compliance with our investment policy. Funds in this account are managed primarily for cash flow purposes and annual debt service payments.

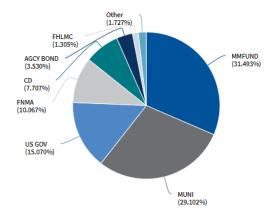

2023B – This account was created to house investment of bond proceeds at U.S. Bank. Current balance is \$5.1M.

The following is a breakdown of total investments by custodian as of 12/31/20:

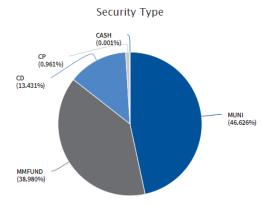

The following represents the total investment pool by security type:

Security Type

Following represents the same data but only for the internally managed piece under custodianship of U.S. Bank:

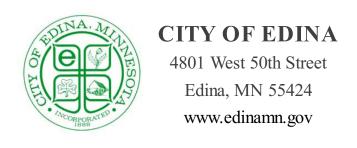

The following are yields for current investments against a similar benchmark. The internal and external portfolios have different investment strategies.

Internal - The internal portfolio is intended to remain sufficiently liquid to enable the City to manage daily City cash flow as well as make debt payments. The average days to maturity for the internal portfolio is approximately one year (including the money market account). Maturities range from one day (money market) to five years. The internal return has outpaced the internal benchmark due to holding investments purchased when rates were higher, to the extent the investments were not callable.

External - The external portfolio has longer term investment options to optimize return within our investment policy. The external portfolio benchmark of Bloomberg Barclays Intermediate U.S. Government/Mortgage Index represents an investment pool including U.S. Treasuries and Agencies up to, but not including, 10 years and agency mortgage-backed pass-through securities guaranteed by Ginnie Mae (GNMA), Fannie Mae (FNMA) and Freddie Mac (FHLMC). The average days to maturity for the external portfolio is ten years with maturities ranging from one month to 30 years. The later maturities represent mortgage-backed securities.

Subject: Prep Memo for the April 6, 2021 City Council Meeting

Work Session

 We are ready for two Council-Commission joint meetings tonight. 5:30-6:00 pm with the Planning Commission followed by 6:00-6:30pm with the Heritage Preservation Commission. The meetings will use our standard joint Council-Commission agenda. We will review their respective work plans and discuss any questions/concerns they (or the Council) may have.

Council Meeting

- I have received no requests to remove anything from the Consent Agenda
- We have added a new item under Special Recognitions and Presentations: a
 proclamation recognizing National Public Health Week. Jeff Brown will be on the call
 tonight to accept the proclamation and say a few words.
- Dispatch Supervisor Janelle Harris will do the same with the National Public Safety Telecommunicator Week proclamation.
- Just a reminder that tonight's liquor license public hearing asks the Council to take action on the license tonight instead of our new practice of deferring action to the following Council meeting.

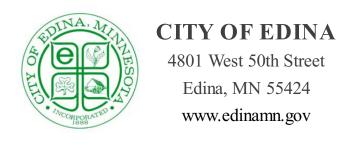

That's all for tonight. See you soon.

Scott
